Some Hostile To Pentecostalism

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

There is a group of people who are against the Pentecostal movement.

They believe that the so-called "speaking in tongues" is a form of demonic activity.

They believe that the "miracles" and "healings" are not genuine, but are a result of trickery or fraud.

STEVE DICKIE

I didn't want a part of it. That's why I decided to leave the church.

I was tired of all the arguments and quarrels within the church.

I didn't want to be a part of it anymore.

I decided to leave the Pentecostal church and start my own church.

I believed that the Spirit should be free to move in whatever way He chooses.

I didn't want to be limited by the rules and regulations of the church.

I wanted to be free to minister to people as He led me.

I started to preach in my own church, and people began to come to my church.

I was amazed at how many people were helped by the Spirit.

I decided to write a book about my experiences, and it became a best-seller.

I was invited to speak at many conferences and events around the country.

I have been blessed to be able to minister to people all over the world.

I have seen miracles happen, and I have heard testimonies of people who have been saved and healed.

I am grateful to be able to share the message of the Spirit with others.

I believe that the Spirit is the power that makes the church work.

I believe that the church should be open to the Spirit and not be limited by human rules and regulations.

I pray that we may be open to the Spirit and allow Him to work in our lives and in the church.

I pray that we may be filled with the Spirit and that we may be able to share the message of Jesus Christ with others.

I pray that we may be a blessing to others and that we may be a light in the world.
