Finger Plan Changes Asked

School Choice For Seniors Urged

By HOWARD GREEN

The Oklahoma City School Board voted Thursday to request the U.S. District Court to modify the Finger Plan to allow seniors graduating seniors from high school at their presently assigned schools to apply to other high schools for admission. The plan also was amended to request that the system allow any student to attend any high school in the district, not just the one he presently attends.

Both changes were approved in recognition of the Finger Plan's continued effectiveness in providing educational options for students. The court had previously approved the plan, which allows students to attend any high school in the district.

Conoco Official Claims Potential Tax Loss Exaggerated

Oklahoma City — Conoco officials are following up with the Oklahoma City auditorium to make sure that the company's tax loss is correctly calculated. The auditorium's tax loss is estimated to be $1 million, but Conoco's lawyers have argued that the loss is much smaller, possibly as low as $500,000. Despite this, the Oklahoma City auditorium is still expected to receive a tax break.

Chinese Food’s Really ‘In’ At Our Own HoeSai Gai

By: ANN HO AND JUDITH CARTER

All the “in” people know the HoeSai Gai Chinese Restaurant is “in” the heart of “in” Edmond. Its location on the northeast corner of the Lake Hefner Boulevard and the Edmond Expressway is convenient to “in” people — and it is a “in” restaurant. The decor is “in” nature with bamboo, Oriental wall hangings, and the use of natural colors. The menu is “in” Chinese, but it is prepared in the American style. The food is “in” popular with children, who enjoy the sweet and sour chicken and the fried rice. The service is “in” friendly and efficient. The HoeSai Gai is a “in” place to eat if you are looking for “in” Chinese food. It is open every day except Sundays.

Learn To Overcome Your Fears By Facing Them

By Frank S. Capers, M.D., and
FREDA S. LEIGHTON

To overcome all barriers, but in the process leaving, for a serious knowledge, our machines have been made of steel, and other materials. They only work when we manipulate them to some ends. That is true of our fears, too, and the way we deal with them -- face them -- and eventually they will face us.

The reality is that fear is a reaction to a threat that is real to the individual. Sometimes it is real and expected. Sometimes it is not. Whatever the case may be, it is a part of the growing up process you have been through.

If you find you are unable to control your fears, it may be because you are not fully faced with your own situation. It is important to understand the nature of fear before you can overcome it.

The prospect is to overcome your fears by facing them. This is a process you cannot avoid.

The prospect is to overcome your fears by facing them. This is a process you cannot avoid.

House Democrats Condemn 'War Policy As Dangerous'

WASHINGTON, D.C. -- Democrats in both the House and Senate today called on President Johnson to halt the war in Vietnam.

Norman Walker, Britain Electric Appliances, Inc., 23rd St., Burns Building, for over 30 years has been a leader in the electric appliance industry. He is a member of the United Nations and has been a member of many organizations.

Newer models, such as the old-fashioned GE model 7320, have been introduced recently. They are priced at about $1,200, and are expected to be in demand in the future.
