Male Criticism Defeats Woman’s Fashion Sense, Says Parisienne

ELIZABETH MORTON

If nothing else, this book demonstrates the power of what is usually not visible in the writing or in the photographs: the way that women model for other women. The women of Parisienne are models for women in the United States, and the Chicago Tribune is the newspaper that is responsible for bringing these models to life. This book is a collection of photographs that were taken in the 1930s, and they are all of women modeling for women. The photographs show the women in their most natural state, without the usual filters or retouching that are used to make models look more attractive.

Fashion Show Set, Programs Planned By Bankers’ Wives

Vinegar Solution Rids Rust Spots

SOLUTION: Vinegar is a natural solution that can be used to remove rust spots from metal objects. It is best to use white vinegar, as it is more effective than other types of vinegar. Simply apply the vinegar to the rust spot and allow it to sit for a few minutes. Then, use a wire brush or a scrub brush to remove the rust.
