Crampton Plays Golf For Money, Not Glory

There are some workers in the game of golf who can always be found at events where money is at stake. They're the ones who can make it rain with their putting skills. It's a way for them to turn a hobby into a profession, and it's also a great way to support their families. In this story, we see a man who has made a career out of playing golf for money. He's been successful in the past, but now he's struggling to make ends meet. As he prepares for his next tournament, he reflects on his career and wonders if he can make it big in the world of professional golf. His journey takes him from the fairways to the greens, and his story is one of determination and hard work. But in the end, it's not about the money. It's about the love of the game. And for that man, the game is everything.
