2 Million Operations ‘Unnecessary’

By STUART HEDRICK

WASHINGTON (AP) — Senate Majority Leader Stewart H. Hagedorn, speaking at a news conference today, announced his intention to propose legislation that would limit the number of annual operations performed by hospitals.

"We must take action to ensure that unnecessary surgeries and procedures do not continue to be performed," said Mr. Hagedorn, who is a member of the Senate Finance Committee. "This legislation will help protect the health of our citizens and reduce the burden on our healthcare system."
