South, West Where Action Is

If the nation could be divided into zones of action, the South and West would be in terms of recent events.

Several years of the President's term have gone and the nation is in the process of development. In the South and West, the nation is expanding.

These are regions of the United States where the potential for growth is enormous. The South and West have the potential to become major economic and industrial centers of the nation.

Started Something

One hundred years after the Civil War, the South and West are still struggling to come to terms with their history. The region has made progress, but there is still much to be done.

It is important for the nation to be aware of the potential of the South and West. The region holds the key to the nation's future.

New Arts Complex Considered

It's how your clothes look after they've been dried with electricity that's most important! Current fabrics are created of over 150 natural and manufactured fibers. These current fabrics need a current clothes dryer! The precise heat control of electricity makes it perfect for permanent press. Electricity's gentle, flameless heat treats delicate fabrics... delicately. Electricity's radiant heat is even better than sunshine to keep colors bright. For these and other reasons... an Electric clothes dryer is a very good buy.
