Spy Feeds McGovern GOP Secrets

Arlington, Va., Nov. 11 – George McGovern is taking over as the Democratic National Committee chairman for the Westmore apartment complex in New York. The Westmore is a 10-story high-rise building that houses the McGovern campaign headquarters. The McGovern campaign has been closely following the Westmore apartment complex, which is located in the heart of New York City.

The Democratic National Committee asked McGovern to move into the Westmore as a way to increase his visibility and access to potential voters. The move is expected to help boost McGovern's campaign efforts.

Brando Retiring?

All the bright of his acting career — indeed, much of his entire life — was illuminated by acting genius, multi-talented Marlon Brando. In a world that is known for its starry-eyed adoration, Brando was a true icon, a force to be reckoned with.

Brando's later years were marked by a cavalcade of rumblings, with the actor's public image being somewhat tarnished by personal controversies and legal battles. However, despite these challenges, Brando's legacy remains intact, and his influence on the acting world is undeniable. His raw energy and his unique ability to captivate an audience were what made him a superstar, and it is safe to say that Brando's impact on the world of cinema and entertainment will not be soon forgotten.

The end of Brando's acting career came as a shock to many, but it was also a testament to his courage and his commitment to his craft. Throughout his life, Brando was known for his dedication to his art, and it was this dedication that propelled him to the pinnacle of his profession. As he steps away from the spotlight, it is clear that Brando will be remembered not only for his talent, but for his integrity and his influence on the world of acting.

Last Brando Film?

Brando's last film, "Last Tango in Paris," which he also directed, was released in 1973. The film was a critical and commercial success, and it cemented Brando's legacy as one of the greatest actors of all time. Despite the success of the film, Brando was not interested in pursuing a career in directing, and he retired from acting shortly after the film's release. His decision to retire was influenced by a desire to protect his privacy and his family, as well as a desire to explore new creative avenues. Brando's impact on the world of acting will continue to be felt for generations to come, and his contributions to the art of film will be remembered for years to come.

It was not a pleasant experience, but it was necessary. I had to be in the hospital for about a week. And because it wasn't a pleasant one, I suppose I'll just have to get used to it.

A few days before I was due to be released, the doctor called me into his office. He told me that I was doing well and that I could be discharged the following day. I was overjoyed, but then he added that I had to come back for a follow-up appointment in a few months.

I went back to the hospital for the follow-up appointment. The doctor was initially pleased with my progress, but then he noticed something that was worrying him. He asked me if I had experienced any pain or discomfort in my stomach.

I told him that I had been feeling a bit off lately, but I didn't think it was anything serious. The doctor insisted that I see him as soon as possible, so I agreed.

The doctor diagnosed me with a condition that required surgery. I was scared, but I knew that it was necessary. I had to have the surgery on the same day as my follow-up appointment.

I was taken to the operating room and given general anesthesia. The surgery went well, and I was able to go home the next day.

I had to take it easy for a few weeks after the surgery, but I was grateful to be able to get back to my normal life. I still had to go for regular check-ups, but I was happy to know that I was on the road to recovery.

There have been some challenges along the way, but I'm determined to overcome them. I know that I have a lot to live for, and I won't let anything stop me from enjoying my life to the fullest.

How to Make Up to 13 1/2% or More on Your Savings—All Fully Insured

There are many things that people don't talk about. They don't talk about the fact that they do, indeed, pay interest rates of 8%, 10%, 13 1/2%, and often more in the form of known savings deposits.

What the difference between these terms and the savings deposits you discuss is that the interest rates are not published at the time you deposit your money. They are not published until you withdraw your money. The interest rates are not published at the time you deposit your money. They are not published until you withdraw your money.

Frog steals coins!

This is a classic tale of a greedy frog who steals coins from a pond. The frog is described as having a green body, a long tail, and a brown head. The pond is filled with water, and there are several coins scattered around, some of which are gold-colored. The frog is shown to be very clever and resourceful, using its webbed feet to grasp the coins and carry them away. The story ends with the frog sitting on a lily pad, looking smug, and holding the coins in its mouth.

The Wife of a Baseball Star - It's Mrs. Bobby Murcer's Life

By Francesca Salin

Kenny Murcer is young, slim, well-groomed and past brush with steroids. She looks the way you'd expect a baseball player's wife to look, but there's more to her than that. Of course, her life is glamorous because of her husband's baseball career, but it's also filled with ups and downs. She's been married to the New York Yankees' star for over a year now, and life hasn't been easy. But she's always been there, through thick and thin.

"I've been here in Oklahoma for a month already," she said. "It's been tough, living away from home, but I'm used to it. It's part of the job." The Murcers have been in Oklahoma since last December, when Bobby was traded to the Yankees by the Kansas City Royals.

"I love Oklahoma," she said. "The people are friendly, and the weather is great. But sometimes, I miss the New York crowd. But I'm not complaining. I'm happy to be with Bobby, even if it means being away from home." The Murcers have three children, a boy and two girls, and they keep busy with their children's activities, as well as Bobby's baseball career.

"I've been there for every game," she said. "I've been to every road game, and every home game. I've been through the good times and the bad times. But I'm always there, for Bobby and the team." The Murcers have been married for over five years, and they've been through a lot together, from the highs to the lows.

"I'm proud of Bobby," she said. "I'm proud of everything he does. He's a great husband, a great father, and a great baseball player." The Murcers have been together for a long time, and they've been through a lot together. They're a strong couple, and they're ready for whatever the future holds.

Anthony and Dareth Hayman find interest
British stage-composer Anthony Newley put a prison detective on the job in Maine where he had been born in 35 years. Months of inveigling, he finally found himself 35-year-old man from Liverpool, New York, personally interviewed him ("the", "this" may come as a shock to you, yes... ") and pulled the man out of Liverpool and moved him into New York's Central Park. And then there's all that new with the British style. He also had 35-year-old friend, Darien Battle (he is also an racing, a well-known racing enthusiast. And great Halloween with the spooky, pumpkin colored paint. I said you to open that door, Paul!

Family Circle, December 1972
YES. Cash/Plus pays you sooner...from 1st day...pays longer than most, up to 25 months and pays in addition to any other hospitalization coverage you have...even Medicare!

hospital expenses today. It certainly won't cover the increasing medical costs in the future. The average person today is not only more interested in saving the extra bills and expenses that build up as they live through these difficult times when a family member is hospitalized.

Every extra dollar you can earn today and use to avoid healing expenses means a lesser claim against your future income. As the cost of medical care continues to rise, and with it the cost of living, it makes sense to do something about it. You can't really save enough. To prove it, just look at cash that life insurance companies are using on extended-term policies. Most of it doesn't come out of cash that you can count on for any emergency, but it's there. In fact, the extra cash that's being spent at present times is probably lower than it was at the same time last year. It isn't that your income isn't there, but you can't account for it. And don't forget the inflation. You have to live with these facts and plan for the future just as you do for the present. And that's where Cash/Plus comes in.

Your extra cash benefits begin the very first day - there's no waiting period - and benefits are paid for as long as you or your family member lives! With a Cash/Plus Plan, you can have cash during an illness, injury, accident or disability. It can be used for any reason. It can be used to help pay medical bills, to buy a new car, to pay for college, to travel, to make improvements, to provide for your family. The benefits are paid as soon as the claim is filed, and there are no deductibles or waiting periods.

All of your earned cash benefits are paid up front, and you can use them immediately. There are no restrictions on how you use the cash. It's yours to use as you see fit. You can use it to pay for medical expenses, to pay for medical expenses, to pay for medical expenses, or to use it for any other purpose you choose. The cash is yours to use as you see fit. It's yours to use as you see fit.

Your Cash/Plus Plan pays you directly in addition to everything you receive from any other insurance company you may have. It's more than just an extra benefit. It's a way to provide income when you need it the most. It's a way to protect your family from financial hardship. It's a way to provide income for your family. It's a way to protect your family. It's a way to protect your family.

A steady flow of extra cash just makes sense. But with extra cash benefits day after day, week after week, month after month paid by your Cash/Plus Plan, you can make a difference in your future. And with your extra cash benefits, you can make a difference in your future. And with your extra cash benefits, you can make a difference in your future. And with your extra cash benefits, you can make a difference in your future.

A steady flow of extra cash just makes sense. But with extra cash benefits day after day, week after week, month after month paid by your Cash/Plus Plan, you can make a difference in your future.
