I Bugged The Watergate—An Insider's Story

By ALFRED C. BALDWIN III

NEW YORK, N.Y. — Across the street in the
Washington Post building, Richard M. Nixon
insists he knew nothing of the break-in at
the Democratic National Committee headquar
ters in the Watergate complex.

But Alfred C. Baldwin III, a 40-year-old
Detroit attorney, has heard Nixon's story and
doesn't believe it.

Mr. Baldwin, who spent 22 months in jail
for his role in the Watergate burglary
scandal, said he had come to believe that the
president and his associates had tried
to cover up an investigation into the
narcotics smuggling by the Cia.

The latest twist in the Watergate saga came
Saturday when the Justice Department
announced that it had charged seven
people with conspiracy, obstruction of
justice and perjury in connection with
the break-in and cover-up.

Mr. Baldwin, who is now a private
criminal investigator, said he had
been told by a source in the Nixon
administration that Nixon had
approved the bugging of the
Democratic National Committee
headquarters in Washington.

'Smallest Republic'

By G. M. LODGREN, Editor and E. McIlvaine

This is the George Junior Republic, a 24-bit computer that has been used to create a graphics program for a computer game. The program is called "The World's Ultimate Game." It is designed for use on IBM's PC, AT, and XT compatibles.

There are currently 16 million 1-bit games in circulation, but the majority of them are not very good. They are mostly just simple versions of popular arcade games or video games. There are also some educational games, but they are not very popular.

For example, there is a game called "The World's Ultimate Game," which is designed for use on IBM's PC, AT, and XT compatibles.

Each side is capable of reading and writing on the screen, and each side has its own set of controls. The game can be played against another human player or against the computer.

The game is divided into two halves, the left half and the right half. Each half has its own set of controls. The left half has a set of controls that allows the player to move around and to attack other players. The right half has a set of controls that allows the player to defend themselves.

There is also a set of controls that allows the player to save the game and to load the game at a later time. Each side is also capable of reading and writing on the screen.

Physical contact between the two sides is not allowed. The players can only hit each other with weapons that have been thrown at them. These weapons can be thrown at each other by either player.

The game is divided into two halves, the left half and the right half. Each side has its own set of controls. The left side has a set of controls that allows the player to move around and to attack other players. The right side has a set of controls that allows the player to defend themselves.

Be Somebody

By G. M. LODGREN, Editor and E. McIlvaine

The issues are coming back to haunt us. The tax cut has been in the news a lot lately, and it's easy to forget that the tax cut was supposed to be a temporary measure.

The tax cut was supposed to be a temporary measure, but it has become a permanent fixture in American politics. The tax cut has been a political gift to the wealthy and to corporations, and it has been a political liability to the middle class.

Singing Star Stumps State

Genevieve B. (Ed.) Gordon MacRae Stykes people crowd their ears today with the disc jockey's hour, which leads into the theme of the film "Love Me Tender." The theme of the film is "Love Me Tender." The film is a classic musical with music by Elvis Presley, starring Gordon MacRae and Dorothy Lamour. The music is a blend of country, gospel, and rockabilly styles, and the film is known for its catchy tunes and romantic storyline.

Pair Robs Bank, Locks Tellers In

Two robbers, who have been using the same method of entry for the past year, broke into a bank in the early morning hours. The robbers were able to unlock the front door and enter the building. The tellers were not aware of the robbery, and were taken hostage by the robbers. The robbers demanded money and threatened to kill the tellers if they did not comply. The police were alerted and arrived on the scene shortly thereafter. The robbers were eventually caught after a chase. The police were able to recover all the money taken from the bank.

Promo Trial, Prosecutor Ends Case

The trial of the man who burned down the school is nearing its end. The prosecutor has finished his case and is now preparing to present his closing arguments. The defense attorney is expected to present his closing arguments tomorrow. The trial is expected to conclude within the week.

City Accepts Myriad Task

By HOWARD JENKINS

The 15th Street Bridge, which has been proposed as the site for a new skate park, will be completed next year. The city has accepted the recommendations of the committee, which was formed to study the feasibility of a new skate park, and has decided to proceed with construction.

Boy, Three, Falls From Car, Dies

A 3-year-old boy died after falling from a car in the back seat of a vehicle on 15th Street. He was pronounced dead at the scene and was rushed to the hospital, where he died. The child was riding in the car with his father, who was also in the car. The child's mother was driving the car.

Memos Sent To Nixon Aides

WASHINGTON — President Nixon's aides have continued to pour over the president's personal files, looking for any evidence that he might have been involved in the Watergate scandal. The files include a number of letters and memos written by Nixon, and some written by his staff members.

The memos are being sent to Nixon's aides, including John Dean, H.R. Haldeman, and John Mitchell, who are all involved in the Watergate investigation. The memos are also being sent to other members of the Nixon administration, including Vice President Spiro Agnew.

The memos contain a variety of information, including personal notes, letters, and memos written by Nixon himself. They also include memos written by his staff members, including John Dean, H.R. Haldeman, and John Mitchell.
