OU’s Defense Upsets Missouri’s Upset Plans

BY LARRY CANNON

NORMAL — “I’m telling you that we’re going to go...”

It’s a phrase that’s been in the air since Oklahoma State University’s last game against Arkansas. The coach, Mike Donnelly, challenged his team to come out with a strong performance against Oklahoma. And to the delight of the Oklahoma State student section, the姗姗来迟的老虎---tip (time-in) and went on to crush the Sooners, 82-70.

With the win, the Sooners are now looking towards the Big Eight tournament, and the prospect of a potential spot in the NCAA tournament. The team is currently ranked 11th in the Big Eight standings, and will need to continue their strong play to secure a spot in the tournament. The next game is against Texas, and the Sooners will need to remain focused and determined to secure their spot.

The letter, which was written in French, is据传 to be a protest against the recent United Nations Security Council vote on South Vietnam. The letter is reportedly addressed to U.S. Secretary of State Henry Kissinger, who is currently in Paris for discussions on the Vietnam War.

The U.S. government is reportedly considering a range of options, including military action, in response to the letter. The situation is expected to be discussed at the upcoming meeting of the United Nations Security Council.

Wild Hijacking Ends With Havana Landing

By MIKE BRAKE

A clothesless man accused of hijacking a Florida-bound airliner was arrested after police say he ran away from a nearby airport security checkpoint.

The man, identified by police as John Doe, 28, of Miami, boarded an American Airlines flight from Miami to New York on Monday afternoon. En route, he reportedly began removing clothes and throwing them out of the plane.

According to police, the man continued his streak of destruction throughout the flight, tearing up passenger cabins and causing widespread panic. The man was finally apprehended by police near the plane’s destination, where he was taken into custody.

The incident is being investigated by the Federal Bureau of Investigation.

Downtown Tunnels Planned

For some years now, city officials have been considering the idea of building a tunnel system to connect the downtown areas of different parts of the city. The idea is to improve traffic flow and reduce congestion in the area.

A recent report by the city’s traffic engineering department has recommended the construction of a new tunnel system, which would include a series of underground passages and viaducts.

The project would cost an estimated $1 million, and is expected to be funded through a combination of federal grants and local taxes. The project would be a major undertaking, and would require a significant amount of planning and coordination.

Regents May Revive Nurse Program

The idea of reviving the nurse program was first proposed in 1990, but was not pursued due to lack of funding. However, with the current emphasis on healthcare and the need for qualified nurses, it is believed that the program could be revived.

The program would be offered in conjunction with the local community college and would provide students with the necessary training and education to become registered nurses.

The program would be a boon to the local community, providing much-needed nurses for the area’s hospitals and clinics. It would also be a valuable asset to the university, providing a source of income and furthering its mission of service to the community.

Nixon’s Steamroller Crushes Antiwar Strength

WASHINGTON – President Nixon has steamrollered all opposition except for the Senate. In a Senate vote on the Powell Resolution, a resolution to limit the President’s power to commit American forces in Vietnam, the Senate defeated the resolution by a vote of 50-49. The resolution was supported by many anti-war senators, but was defeated by a narrow margin.

Mistakes Hurt OU

By AL GORDON

The Sooners and Oklahoma State are both football teams, but there is one thing the two teams have in common: they both are on the rise. The Sooners are in the No. 1 spot in the country, and the Cowboys are in the No. 2 spot. The Sooners have been on a roll lately, winning their last three games, while the Cowboys have won their last two games. Both teams are looking good for the upcoming season.

The Sooners have a strong running game, with a 200-yard rusher leading the way. The Cowboys have a strong passing game, with a 300-yard passer leading the way. Both teams have a strong defense, with the Sooners allowing only 10 points per game and the Cowboys allowing only 14 points per game. The Sooners have a strong secondary, with a 300-yard pass defense and the Cowboys have a strong pass rush, with a 200-yard sack leader.

The Sooners and Cowboys will meet in what is sure to be a hard-fought battle. Both teams have the talent and the experience to come out on top. The Sooners have the advantage of being at home, but the Cowboys are a tough team to beat. It will be interesting to see how this game shakes out.

The Sooners and Cowboys are both looking forward to the upcoming season. Both teams have high expectations, and they are ready to prove that they are the best teams in the country. The Sooners and Cowboys are sure to put on a show for the fans, and it will be a game that no one will forget.

Why does everybody talk about price instead of value?

For generations, careful shoppers have made Jenkins Music Company their choice when it comes to music, but personal responsibility through the years has led us to encourage the absolute value for your money. Jenkins has always been extremely selective in the interest of our customers, offering the best product available at the most reasonable price. Great names in the music industry are to be found within our store. Names like, Lenny, the finest in organs, Studebaker, Hammond, Reed...the greatest selection in pianos, Conover, Kawai, Yamaha, Baldwin, Leslie, Ludwig, Archer...the leaders in the sound instrument and percussion industry. One of the largest inventories of brand-name music to give our most discerning customers the widest selection possible. Records and tapes to meet every taste, making up a complete array of musical choices for our customers. So...when it comes to music...and value...think of Jenkins, as careful shoppers have for sixty-five years.

John Browning, owner of Jenkins Music Company, will appear on "Ballet West Tryouts Set" on "The Magic of Marionettas" this Thursday, and "Top Singer On Program" on "The Magic of Marionettas" this Thursday.

Rockwell—America's Artist-Illustrator

The only eye of the entire group that survived is 'Ruby's Eye.'

I'm an illustrator, not an artist.

I turn down about $100,000 a year in illustration work. I get about $10,000 a year in painting work. I think it's a shame for a 45-year-old man to be in a financial position where he has to turn down work.

When did you think this whole work, which we now call 'Illustration,' first came into your life?

I'm not sure when it first came into my life. I was a child of the Depression. I was born in 1899, and I was trained in the Depression era. I was trained in the 1930s and 1940s, when illustration was at its peak.

The Rocks by Rockwell

Rocks are always a symbol of power and strength. They are the foundation of civilization. The rocks represent the power of nature. The rocks are the foundation of society. The rocks are the foundation of religion. The rocks are the foundation of government. The rocks are the foundation of art.

Center Presents Rockwell Collection

The Rockwell Art Center presents a major exhibition of original drawings and paintings by Norman Rockwell. The exhibition, which runs through October 31, features more than 100 works by the artist, including nearly 50 paintings and 50 drawings.

Thematic Concert Top Contribution

In celebration of the 100th anniversary of the National Symphony Orchestra, the Washington Concert Association presents a special thematic concert, 'Rockwell—America's Artist-Illustrator.'

SOL
'Sesame' Has Drawbacks
---But The Kids Love It

By FRED MINSKY

"Sesame Street" has been a hit, but it doesn't make the ratings. The show is too expensive and has too few advertisers. What will it be like in the real world, where there are no commercials? Will the children love it as much as they do in the show?

In the real world, children are exposed to a wide variety of influences, including television, movies, and books. They learn about the world around them through these different sources, and they use their imaginations to create their own stories.

However, in the show, the children are given specific tasks and activities to help them learn about the world. This is an important aspect of the show, as it helps children develop their cognitive and social skills.

In the real world, children also have access to a variety of resources, such as libraries and museums, that can help them learn about the world around them. These resources are not available to children in the show.

Overall, "Sesame Street" is a great show that teaches children important lessons, but it is not a perfect representation of the real world. Children in the real world have access to a variety of resources and influences that are not available to children in the show.

Plot Absorbing

The plot of "The Man From Arizona" is both absorbing and well-crafted.  Attempt At Novel Falls Flat

The novel, which is set in the American West, is known for its gritty realism and complex characters. However, the adaptation failed to capture the essence of the novel, and the film was met with critical backlash. Despite the setback, Baker remains determined to bring his story to the screen in a way that does justice to the original.

Novel Torpedoed

The release of "The Man From Arizona" novel was a significant event, as it marked the debut of a new series featuring one of literature's most iconic characters. The novel, which was highly anticipated by fans of the TV show, received mixed reviews. While some praised the writer's skill in bringing the character to life, others felt that the novel fell short of the expectations set by the TV series.

N.Y. Praises Sung

The New York Times lauded "The Man From Arizona" as a "masterpiece of Western storytelling," praising the writer's ability to capture the essence of the American West. The reviewer noted that the novel is a powerful exploration of themes such as loyalty, courage, and survival. The New York Times' positive review adds to the buzz surrounding the novel, fueling anticipation for the upcoming release of the sequel.

'Savage Day' Portrays IRA

"The Savage Day," a new series on TV, portrays the activities of the Irish Republican Army (IRA). The show, which is set in the Irish countryside, follows the IRA's efforts to gain independence from British rule. The series has been praised for its realistic portrayal of the IRA's struggle, with memorable performances by the cast. However, the show has also been criticized for its sensationalized depiction of violence.

A Famous Surgeon-Author Tells:

What It's Really Like from the Doctor's Side

By Dr. William A. Nolen

In my years of practice, I have never had a patient die as fast as the 106-year-old woman who passed away last night in the hospital. I have never had a patient die so peacefully, so quietly, so peacefully.

The death process is a natural one, a process that occurs in all living things. It is a process that is known to all doctors, and it is a process that is well-documented.

About the Doctor Who Wrote This Article

Last week, Dr. William A. Nolen spoke to a group of medical students about the process of death. He told them that he had seen many patients die, and that he had seen many others pass away quietly. He told them that he had seen patients die from natural causes, and that he had seen patients die from causes that were not natural.

The Heart of the Matter

In most hospitals, there are no special rules for death. When a patient passes away, the hospital staff follows the usual procedures. They make sure that the patient is treated with respect, and that the patient's wishes are carried out. They make sure that the family is informed, and that the family is helped to cope with the loss.

The Aftermath

In most hospitals, there is no special preparation for death. When a patient passes away, the hospital staff follows the usual procedures. They make sure that the patient is treated with respect, and that the patient's wishes are carried out. They make sure that the family is informed, and that the family is helped to cope with the loss.
A Famous Surgeon-Author Tells:

"Closing the Wound." I said.

"How?" he asked.

"With sutures," I answered.

"But the wound is too deep," he said.

"I'll show you," I replied.

"No," he said. "Close it with a stitch.""

Anyone who's old enough to smoke is old enough to make up his own mind.

By now, as an adult, you must have read and heard all that's been written and said for and against cigarettes. And come to your own conclusions.

If you don't smoke, we aren't going to try to get you to start.

But if you do like to smoke and have decided to continue smoking, we'd like to tell you a few facts about a cigarette you might like to continue with.

We refer, of course, to Vantage. Vantage gives you real flavor, like any high 'tar' and nicotine cigarette you ever smoked, without the high 'tar' and nicotine. And since it is the high 'tar' and nicotine that many critics of cigarettes seem most opposed to, even they should have some kind words for Vantage.

We don't want to mislead you. Vantage is not the lowest 'tar' and nicotine cigarette. But, it is the lowest 'tar' and nicotine cigarette you'll enjoy smoking. It has only 12 milligrams 'tar' and 0.9 milligrams nicotine.

With anything lower, you'd have to work so hard getting taste through the filter that you'd end up going back to your old brand.

With Vantage, you won't want to.

Don't take our word for it.

Buy a pack and make up your own mind.

Can your child read these words?

- napkin
- fuzzy
- liquid
- punch
- camel
- chicken
- velvet
- whisper
- zigzag

Your child will learn how to read these and more than 300 other words after working with the extraordinary rodeo of The Sound Way to Easy Reading.

Try out this Phonics Course FREE FOR TWO WEEKS with your child in your own home—without risking a penny. Mail the coupon below.

If your child is a poor reader, it has not been able to keep up with his class in school—here’s a way you can help him. Many parents have seen their poor readers gain up to a year’s grade in reading skill in just six weeks with The Sound Way to Easy Reading. As soon as your child starts playing records and using the charts of The Sound Way to Easy Reading you’ll see why it works as well. It takes the mystery out of learning to read because it teaches your child by the phonetic method (the method by which children learn to read years ago).

Teaches with records

With this course your child discovers that letters have sounds. When he starts sounding out the letters he is himself learning to read.

Try reading:

Here are the sounds drill him in the sounds of 60 different letters and their blends. By the time he has mastered the sounds (about two weeks for the average child) he can read 260 words. After finishing all four records he has taught 123 basic phonics sounds.

Once he knows these sounds he can sound out the words in the English language. It works for children of all ages—in the earliest grades and even in high school. Its results tell your child exactly what to do, so he can teach himself without any help from you.

Tested and Proven

In a pilot study by University psychologists, children gained up to a full year’s grade in reading skill after only six weeks with The Sound Way to Easy Reading.

A semester-long study involving 214 pupils in four Chicago schools proved that the charts from The Sound Way to Easy Reading showed marked improvement in reading and spelling over the control group.

Don’t think it’s all your child’s fault if he isn’t learning to read. Many of our brightest children are not able to grasp the “look-and-say” method taught in most schools today. Yet, many educators insist that at least 40% of our children must have formal training in phonics— that they will never master reading without it.

Help Your Child Now

So don’t wait for your pace maker to reach high school before meeting in his sit for starting your child on The Sound Way to Easy Reading. Now, you can change his eating attitude toward school—turn his sense of failure into the joy of success. Try this for two weeks. You send no money—just fill coupons.
