County Divorces Nearing 7,000 Mark For Year

Marriages Breaking Up In Record Numbers

By RONE TEMPEST

With more than a month rem- aining in the fiscal year, Oklahoma County can see its divorces reach a new high for divorces within a single year. This is the first time in Oklahoma County history that more than 7,000 divorces have been granted during one year. For the last time in 1965, the number of divorces granted was 6,878. This year, the number of divorces granted has already exceeded 7,000. If the trend continues, the number of divorces granted this fiscal year could exceed 7,500. This would be the highest number of divorces granted in the history of Oklahoma County.

BATTLE ERUPTS OVER POLLUTION

Nixon Begins Shutdown Of Cabinet Positions

Battled between the president and his cabinet, Nixon has begun to implement a series of cabinet resignations. This move follows the resignation of several other top officials, including the secretary of the interior, the attorney general, and the secretary of state. The president has made it clear that he will not tolerate any further resignations orfrmations from his administration. "I will not allow my cabinet to undermine the authority of the presidency," he said. "I expect them to stand by me and support my policies." The cabinet members, however, have been resistant to the president's demands. They have expressed concerns about the integrity of the administration and the need for fresh leadership.

Agency Control At Stake

By ROY BARRY

A battle over control of the Environmental Protection Agency is heating up in Congress. The agency, which oversees environmental regulations, has been a point of contention between the president and the cabinet. The president has sought to strengthen the agency's authority, while the cabinet has sought to limit its powers. The latest development in the fight over control of the agency is the introduction of a bill in Congress that would give the cabinet more power over the agency's budget and policies. The bill has been controversial, with some environmentalists opposing it and others arguing that it would weaken the agency's ability to protect the environment.

Stakeouts Net Judge Lets Juror Off

Burglary Ring Narrowed

A special task force has been put in place to investigate a series of burglaries in the area. The task force, which includes local police and FBI agents, has been actively pursuing leads and gathering evidence. The investigation has led to the arrest of several suspects, who are currently being held in custody. The task force is working tirelessly to ensure that justice is served and that the community is protected from future crimes.

Bond Frees BIA Suspect

By JULATION DREW

The last of five Indians charged with illegal possession of firearms has been released from the Oklahoma State Penitentiary. The four other Indians were released last week. The Indians were charged with violating federal firearms laws. They were accused of possession of firearms in violation of federal law. They were arrested after a search of their home revealed the firearms.

Weather Modification—4

Secrecy Clouds Experiment

By ROY BARRY

The latest effort to modify the weather has been met with controversy and secrecy. The government has been trying to develop a method to manipulate the weather to prevent disasters and improve agriculture. The latest project, however, has been kept secret, with only a few select officials aware of its existence. This has led to speculation about the true intentions of the government and the potential consequences of such an endeavor.

Another Trade Deficit

The U.S. trade deficit, now the worst in U.S. history, is a problem we can't ignore. The deficit is a result of our country's overconsumption and underproduction, leading to a decrease in employment and productivity. The deficit is not just a financial issue; it's a national security issue. We need to address this problem now.

The PEOPLE'S Voice

Mangled

Dear Editor,

I recently noticed a disturbing trend in our community. People are becoming more and more mangled, both physically and mentally. It's a concerning issue that needs to be addressed.

Energy & America
Understanding the problems. Looking for answers.

Let's face the facts about our energy outlook. 1985 was the worst year in the history of the industry, and 1986 is predicted to be even worse. This year, we are being faced with the most serious energy shortage in the history of this country.

NATURAL GAS IS SCARCER. Natural gas systems are facing an unprecedented crisis, as natural gas production is predicted to decline by 20% this year. The current natural gas system is already at its maximum capacity, and any further decline in production will put a strain on the system that could lead to shortages.

COAL - THE NEW ENERGY SOURCE. Coal is the only source of energy that can be readily mined from the ground. It is a abundant resource, and it can be used to generate electricity. Coal is also a relatively clean source of energy, as it produces less greenhouse gases than other fossil fuels.

WE CAN CONSERVE ENERGY. We can conserve energy by making simple changes in our daily lives. For example, we can turn off lights when we leave a room, use energy-efficient appliances, and drive less. By conserving energy, we can reduce our dependence on foreign oil and make our energy system more sustainable.

WHAT DO WE NEED TO DO TO IMPROVE OUR ENERGY SYSTEM? First, we need to invest in new energy sources. This means building more nuclear power plants, expanding renewable energy sources like wind and solar, and developing new technologies like hydrogen. Second, we need to improve our energy efficiency. This means making sure that we are using energy as efficiently as possible, and making sure that our energy systems are as efficient as possible. Third, we need to reduce our energy demand. This means making sure that we are using energy as efficiently as possible, and making sure that our energy systems are as efficient as possible.

OSU's Ennis: A Team Leader, Own Worst Critic

Tom DiRito

"You are low on fuel," the voice on the radio said.

― Tom Ennis, Oklahoma State University quarterback

Tom Ennis (33) seems more to step down from Buckeyes' Mike Brohm (29).

"Isn't that right?" he answered. "It sure is."

In the first quarter, Ennis led OSU to a 21-0 lead over Oklahoma. He finished the game with 165 yards passing and two touchdowns. "I was surprised by the way we played," he said. "I really thought we were going to win."
OSU Defense On Spot Saturday

There's a lot more than just pride at stake when Oklahoma State plays Oklahoma in Norman Saturday. The Sooners and the Cowboys will face off in a game that could very well decide the fate of both teams in the Big 12 Conference. For the Cowgirls, it's a chance to prove that they can hold their own against the powerful Sooners.

Tom Dirato

check their aggressiveness and cut down on every possibility that Oklahoma has of making plays. The Cowboys want to ensure that Oklahoma doesn't have much of an opportunity to make big plays. This is a must-win game for both teams, with the winner taking a step closer to their respective conference championships.

Jesse Hudson, a reserve linebacker, has come through for OSU.

OU Has Much At Stake

There are only three games left in the Sooners' season, and the Cowboys are looking to make the most of each and every one. The Sooners' defense will undoubtedly be key in keeping the Cowboys' offense at bay. With both teams hungry for victory, this game promises to be a thrilling contest.

As Bombers ’Grow’

By JOHN MARTIN
The Oklahoman Staff

When Oklahoma City taken the line against Missouri Fri-
day night in its basketball season opener, a Thunder bolt
was dropped on the floor. The Thunder bolt was No. 23
Bomber quarterback Tom Creasy, who will be missing all the
season because of the broken leg he received in the game against
the Jayhawks last year. The break in the lineup was expected,
and the Bombers were not too hurt by it. In fact, the creen-
backs did some of the best work seen in a Bomber game in
some time.

The Bombers face another tough game tonight when they
play at Missouri, and the team is not likely to show up too
well. The Missouri program has been strengthened by the
addition of a number of good players, and the Bombers will
have to work hard to get past them.

On the positive side, the Bombers have some good players
in the backfield, and they should be able to put up a good
show. The offensive line is strong, and the Bombers will
have the advantage of having a good group of backs to work
with. The defense, however, is not as strong, and the Bombers
will have to rely on their speed and quickness to make up
for any shortcomings.

Despite the loss of Creasy, the Bombers are still a good
team, and they should be able to make a good showing.

USC Risks Top Spot Against Irish

TRADITIONS

Start with Dave Brown 6‘8”, regarded by many as the best running back in the country. He is 220 pounds of hard-charging Irish strength. Right behind him is talented Butch Carter 6‘6” 240 pounds of hard-nosed Irish muscle. Outfield Tom Brady 5‘11” 170 pounds of Irish brains and uphill battler Chuck Seabrook 5‘10” 160 pounds of Irish determination.

The team will be tough. The Irish — the school — is the real deal. But USC, that’s the deal! USC has one of the most proven offensive men in the nation back in the lineup. USC is expected to win.

Tom Brady, USC’s No. 1 receiver, returns. He’s big, fast, and has the kind of nerves of steel that make him a top-notcher. USC is a deep team, too. Bobo Ramon, one of the best players in the nation, is back. He’s USC’s No. 2 receiver and a threat to score every time he’s on the field. USC is a team of toughness and versatility. USC is a team of champions. USC is a team of tradition.

types of offense

USC offense — The Trojans have three different formations. They are running defenses with more of the play that is.

Army-Navy Facts, Figures

TRADITIONS

Dobie Windig, Army’s prep star, emerges as the league’s best end, although he is one of the youngest players on the team. Dobie has been called the best end in the nation. He is a great rushing threat and a great pass receiver. He is a threat to score every time he’s on the field. Army is a deep team, too. Bobo Ramon, one of the best players in the nation, is back. He’s Army’s No. 2 receiver and a threat to score every time he’s on the field. Army is a team of toughness and versatility. Army is a team of champions. Army is a team of tradition.

PRACTICE MAKES PERFECT

Dobie Windig was the star of Army’s practice this week. He is one of the youngest players on the team. Dobie has been called the best end in the nation. He is a great rushing threat and a great pass receiver. He is a threat to score every time he’s on the field. Army is a deep team, too. Bobo Ramon, one of the best players in the nation, is back. NFR Starts Saturday

Three Races Still In Doubt

By TOM WAGNER

The 13th annual Frontier Fiesta Rodeo starts at 7 p.m. with the first round of the National Finals Rodeo. It will be held at the OKC Coliseum, the first time it has been held there. The event will continue until Dec. 16, with the championship round taking place on Dec. 17. The final is expected to draw a large crowd of 60,000.

The Oklahoma City Chamber of Commerce has announced that the event will feature performances by Buck Owens, Roy Rogers and Dale Evans, and the Oklahoma City Philharmonic Orchestra. The event will also include a parade and a fireworks display.

The event will include a variety of Western-themed exhibits, including a petting zoo, a rodeo that will be open to the public, a Western-themed marketplace, and a Western-themed movie festival. The event will also feature a variety of Western-themed games, including cowgirl and cowboy games.

The Oklahoma City Chamber of Commerce has announced that the event will be open to the public, and that tickets can be purchased in advance.

State Rivals Tuning Up For Mat Dual

By AL DRENNER

The Oklahoma Sooners are coming off a loss to the Kansas State Wildcats, but the Sooners are determined to bounce back and win the Big 12 conference. The Sooners are scheduled to face off against the Kansas State Wildcats on Saturday, Nov. 24, at 2 p.m. in Norman, Oklahoma. The game is expected to be a tough one for the Sooners, as the Wildcats have been playing well.

MYRIAD HOSTS BIG FOUR

State Teams Square Off

By CHERI HOPEN

The Arkansas Star

State basketball fans will be offical a rare treat Friday night in the New Missouri Convention Center as Big Four basketball games pitting Oklahoma City, Oklahoma, Oklahoma State and Texas teams will be held.

The tournament will consist of four games at the center. The Oklahoma City teams will face the Oklahoma State teams in the afternoon games. The games will be played in the 1:00 p.m. and 3:30 p.m. sessions.

The Oklahoma City team consists of the Oklahoma City Hornets, the Oklahoma City Thunderbirds and the Oklahoma City Mustangs. The Oklahoma State team consists of the Oklahoma State Cowboys, the Oklahoma State Thunderbirds and the Oklahoma State Mustangs.

Both teams have been working on their games and are expected to put on a good show.

The Oklahoma City team is coached by former OU basketball player and coach Ken Oldham. The Oklahoma State team is coached by former OU basketball player and coach Dan Oldham.

The games will be held in the Convention Center, which is located at 3201 N. Meridian Avenue. The center is just a short walk from downtown Oklahoma City.

Tickets are available at the door for $5.00 per game or $10.00 per session. Parking is available in the nearby Garriott parking garage.

The games are expected to draw a large crowd, so fans are urged to arrive early to save seats.

The games will be broadcast live on KFOR. Fans who cannot make it to the games can tune in to watch the games.

The Oklahoma City team is expected to win both games, but the Oklahoma State team is expected to put up a good fight.

The games are expected to be close, with both teams showing their skills and abilities.

The Oklahoma City team is led by former OU basketball player and coach Ken Oldham. The Oklahoma State team is led by former OU basketball player and coach Dan Oldham.

The games are expected to be a great way to start the holiday season and to support the local basketball community.
