Jet Collision Kills Nine In Chicago Airport Fog

CHICAGO (AP) — Five people were killed and eight others injured when a passenger plane collided with a commercial airliner at Chicago's O'Hare International Airport Wednesday night. The private jet, a McDonnell Douglas DC-10, was en route to Minneapolis when it crashed into a United Airlines DC-10 of the same model, which was just taking off from O'Hare.

The crash caused a large explosion and fire at the airport, which was closed for about an hour after the collision. The exact cause of the crash was not immediately known.

The United Airlines plane was carrying 238 people, including 229 passengers and 9 crew members. The McDonnell Douglas DC-10 was carrying 188 people, including 182 passengers and 6 crew members.

Bomber Reaches Thailand

The Soviet Union on Wednesday night dropped several 500-pound bombs on a forward airfield in the Thailand-Indochina border region as part of a test run.

The bombing was part of a test run for a new type of long-range bomber, the Tu-160, which is designed to fly at high altitudes and over long distances.

In the Philippines, the government declared a state of emergency in three provinces after a series of bombings by communist rebels.

The drugs were discovered in the basement of the home, which is located in the Bronx.

Fourth B-52 Downed: Crewmen Saved

The B-52 bomber, which had been flying missions in support of the war in Vietnam, was shot down over Laos on Tuesday night.

The crew of six were rescued by a helicopter from the U.S. military.

Police said the crew was rescued with the help of a small private plane that had been flying in the area.

Suit Challenges Beer Law

The American Civil Liberties Union has filed a lawsuit challenging a Virginia law that prohibits the sale of beer in the state.
