Gourmet Jury Indulges At Court Expense

By J. E. BLECK
Of the Journal Staff

A committee of men and women who have spent hundreds of dollars on meals at the city's finest restaurants will be the guests of Judge Harold B. Wilson this Friday as the Oklahoma County judges will enjoy a fine dining experience at the city's finest restaurants.

The banquet, which is a rarity in the state, will be held at the Oklahoma City Club, a private club where members are the judges of the state. The banquet will feature a three-course meal, including a salad, main course, and dessert, all prepared by the club's renowned chef.

The banquet is expected to be a social event, with judges and other guests mingling and enjoying each other's company. The event is open to the public, and tickets are available for purchase.

Bombs Wreck Big Hospital

STOCKHOLM (UPI) — North Field, one of the busiest oil fields in the world, was hit by four massive bombs early today, causing widespread destruction and killing at least 40 people.

The bombs, which were believed to have been planted by the North Vietnamese Army, exploded almost simultaneously, killing and injuring hundreds of people. The explosions were heard for miles around, and the area was left in ruins.

Witnesses said that the bombs were planted near the North Vietnamese border, and that the attack was likely a retaliation for previous military actions.

The incident has sparked international concern, with leaders calling for an immediate investigation. The United Nations has been called in to assist with the reconstruction efforts.

55 Fliers Missing In North

SANDON (UPI) — The U.S. Air Force on Friday announced that 55 American fliers, believed to be prisoners of war, had been confirmed as missing in action in Vietnam.

The announcement came as a shock to families and friends of the missing fliers, who have been waiting for news of their loved ones for months. The Air Force said that the fliers were likely killed in a bombing raid over North Vietnam.

The fliers were part of a larger group of American military personnel who were captured by North Vietnamese forces in previous conflicts. The Air Force has been working to locate and rescue all of the missing fliers.

Protests Set For Inaugural

By United Press International

Plans for "massive anti-Washington demonstrations" in the U.S. capital on Jan. 20, a day after the inauguration of President-elect Richard Nixon, were announced today.

The demonstrators are expected to gather in large numbers to protest against the new administration's policies, which they believe will lead to increased warfare and repression.

The protests will include a variety of groups, including students, workers, and activists. The organizers have called for a "massive" show of strength to send a clear message to the new administration.

Workers Get Parties, Bonuses

Christmas Feasting Starts

By STEVE DECKER
Of the Journal Staff

It wasn't quite the right Christmas Eve dinner, but workers at the Arizona factory who assembled the Christmas tree became part of the factory's tradition.

A survey of several hundred workers at the factory revealed that 80% had eaten dinner at the factory on Christmas. The workers said they enjoyed the food and the company's holiday spirit.

The factory has a tradition of giving workers a free Christmas dinner at the factory, and this year's dinner included a variety of foods, including turkey, ham, and vegetables.

"It was a great way to end the year," said one worker. "We've been looking forward to this all year."
