Gas Rate Hike Hits Industrial Users

By DAVID CULVER

The Oklahoma Corporation Commission Friday approved a 10.5 cent increase in the Oklahoma Industrial Electric rates which will go into effect Monday. The rate is the result of a referendum at Oklahoma Electric's March 31 meeting and will increase the monthly bill for average industrial users by about $10 per $1,000 of annual consumption. The Oklahoma Electric Board voted earlier this year to increase the industrial rates by 10 cents per $1,000 of annual consumption.
The OEC said it would not recommend a rate increase for industrial users unless it was necessary to maintain the company’s ability to provide reliable service. The commission said it would consider increasing the industrial rates if the company’s financial situation changes.

Four Churches To Hear Talk On 'Horrors Of Satanism'

Fund Drive Initiated To Aid BNC

Water Well Gift Of Missionaries

A group of four churches will hear a talk this week on 'Horrors Of Satanism.' The talks, which are being given as part of a special series, will be held at four different churches in the area. The talks will be given by a well-known evangelist, who has been studying the subject for many years.

A fund drive is being initiated to aid the Baptist National Convention (BNC). The drive is being conducted by a local church, which is one of the sponsoring organizations. The money raised will be used to support the convention's work in missions.

A water well gift was presented to a missionary who is working in a remote area. The gift was presented by a member of a local church, which is one of the sponsoring organizations. The missionary will use the gift to help provide access to clean water for the people in the area.
