I thought I was 'the picture of health' until I woke up staring at a hospital wall...

Meet the guy who 'never got sick'... Hope I am holding my kids--I'm 120 pounds of them. Not bad for a 60-year-old guy, right?

I was playing tag football with my kids--Bill, Jr. and little Jack. Suddenly it happened. I leaped for the ball, stumbled--and landed smack on my backside. Daddy's the clown.

(continued next page)

INSIDE: HOW TO GET $30.47 A DAY CASH BENEFITS TO HELP PAY BILLS YOUR INSURANCE INSURANCE DOESN'T PAY.
Everyone laughed. Then I started to pick myself up. But couldn't. There was a sharp pain in my back. I told the kids to call their mother. The pain was killing me. As my wife Mary approached, I blacked out.

"Suddenly, my whole life changed!"

"The next thing I knew, I was lying in a hospital bed. It seemed I had a slipped disc at the base of my spine. Surgery would be necessary. But the doctors were quick to reassure me: 'Don't worry, Bill, a month or so in the hospital will make you good as new.' A month or so?... Thangs a lot. Me, strong as an ox, right? What a joke. But there was little to laugh about.

"Still, things could've been worse. Thank God I had hospitalization insurance. I could count on this coverage to take care of my medical bills.

"But when Mary came to visit, she had news for us. It seemed my troubles had just begun. She'd been to the hospital cashier to hand in our hospitalization identification card. We did indeed have a good insurance policy, she was told. But as soon as it was paid, it didn't pay all the hospital expenses. Not by a long shot. It didn't pay for the ambulance that brought me to the hospital. It didn't pay for medicines... or anesthesia... or X-rays... or the outside specialist who examined me... or other necessary extras."

"Wasn't that just great. And then it struck me that I needed to pay those bills. I called the hospital. They said they would bill me."

"How could I pay all the bills?"

"I could hold on for about 2 weeks."

"After all, I still had my paycheck coming in. But what would happen when my paycheck stopped? Bill there was always the one hundred bucks in our savings account. Yet how far would that money go... with all these bills to pay. I was really depressed. And it must have shown on my face when Mary visited me again.

"I didn't talk very much. 'Poor Bill,' said Mary, with a weary smile. 'But I told you so...'. Then she reminded me of something that happened a month ago. She had seen me in a newspaper advertisement about the National Home Health Plan. This hospital plan paid up to 2/3 of what your basic hospitalization paid. And it cost was a quarter for the first month. Sound good to me. But wouldn't you know it — I forgot about it. The plan would have paid me $25.07 a day ($800.00 for 30 days), every day I spent in the hospital. Enough to help pay the extra bills my insurance didn't cover!

"When Mary observed my palpable elation, she opened her handbag. 'Surprise! Here's the policy... I sent in the form myself 3 weeks ago. We'll get the help after all.' Bless my smart wife. I may have been strong as an ox — but I sure am dumb as ones, too.

"'I'm not any longer. You can bet I'll keep this hospital plan for a long time.'"

A FICTIONALIZED ACCOUNT
SHOWING HOW THE NATIONAL HOME HEALTH PLAN PAYS YOU WHEN YOU ARE HOSPITALIZED.

Now you too can insure your entire family with Plan A that pays you at the rate of...

$26.67 a day cash benefits
that's $800.00 for a 30 day stay — when you are under 65 and are hospitalized for each covered accident or illness starting the first day in the hospital, continuing for 30 days, if necessary.

$13.33 a day cash benefits
that's $400.00 for a 30 day stay — if you are 65 or over, for the first 3 months of hospitalization. Coverage begins the very first day in the hospital. After 3 months, if you are still in the hospital, you then receive...

$26.67 a day cash benefits
that's $800.00 for a 30 day stay — thereafter, even for life, if necessary. This money is paid directly to you or to the hospital if you so direct in addition to any other company's coverage you may already have.

$16.60 a day cash benefits
that's $500.00 for a 30 day stay — when your child is hospitalized for any covered accidental or illness when you have Coverage for Children and you so direct how long the confinement may be.

$2,500.00 or $5,000.00 cash benefits
for complete accidental loss of limb or sight. If you suffer complete loss of a hand or foot or the sight of one eye within 90 days of the accident, you collect $2,500.00 or $5,000.00 for the loss of two limbs or the sight of both eyes.

$26.67 a day cash benefits
for maternity care in the hospital when Coverage for Children and Maternity Benefits have been added to the basic plan. Both parents must be covered for entire pregnancy.

Waiver of Premiums
We also pay your premiums that come due after the accident, the policyholder, or the policyholder's family have been confined by a covered hospitalization beyond eight weeks in a row. We pay the premiums for your optional plan for thirty days following the date you leave the hospital. And, we pay them for life if necessary... that's not our little way of saying 'Get Well.'

Pays you up to $26.67 a day as long as you are hospitalized.

For the past two months, Americans paid over $25 billion dollars for medical care.² The Consumer Price Index shows that medical and hospital costs are increasing faster than any other major category of personal expense.

Individuals and families must be sure that they have enough overall coverage to meet today's soaring hospital costs. These costs have more than doubled in just a few short years.²

If you think your present "hospitalization" or medical plan covers all the bills, you're in for a shock. It may not. And if you don't believe it, ask someone who's been to the hospital recently.

What is the average household to do? We believe we have an answer that can help pay the bills. The National Health Plan.
We guarantee not to cancel your protection no matter how many claims you have... or how old you become... or for any reason whatsoever. Only you can cancel.

Some other things you should know:

- We pay benefits on Workmen's Compensation cases. Many policies don't.
- We pay in addition to whatever you collect from Blue Cross Hospitalization Plans. Or any other companies' plans you may have.
- We pay cash directly to you... not to the doctor or the hospital, unless, of course, you ask us to.
- We pay benefits for life, if necessary. Many policies have a 1 year or 2 year limit.

Pays you cash benefits for Maternity care!

If both husband and wife are insured for the entire period of pregnancy (and have added Coverage for Children and Maternity Benefits), you get cash to use any way you want. Yes, if a pregnancy, childbirth, or even miscarriage puts you in the hospital for one day, five days, ten days—as long as necessary—you get cash benefits of $20.67 a day for every day of your confinement.

Pays you cash benefits for a Nurse at Home.

How comforting it is to know that—after your stay in the hospital for which you received benefits—you can return home to recuperate and yet not be a burden to your loved ones. If your doctor has you employ a full-time registered or licensed practical nurse within 5 days after you come home, we’ll pay you benefits at the rate of $15.33 a day, that’s $400.00 for 30 days. And your benefits continue for the same number of covered days that you were in the hospital—up to 12 full months.

65 OR OVER?

You collect benefits in addition to Medicare!

Regardless of the coverage you already have, National Home pays you at the rate of $15.33 a day, that’s $400.00 for 30 days, for the first 3 months, and $35.67 a day ($800.00 for 30 days) while hospitalized thereafter. Coverage begins the very first day in the hospital.

Double Cash Accident Benefit.

When you and your insured spouse are hospitalized at the same time for an accidental injury, this National Home plan pays each of you DOUBLE CASH. $33.33 a day apiece. That’s $100.00 in cash payments every day, $3,000.00 for a 30 day stay (whence under age 65), starting the day you enter the hospital for as long as you both remain there.

Pays you cash benefits when any unmarried dependent child is hospitalized.

When you choose Coverage for Children, this National Home plan pays you at the rate of $10.00 a day, that’s $480.00 for 30 days, when one of your children is hospitalized. Pays for as long as necessary. Children are covered for accidents and for sickness from the very first day.

We guarantee never to single you out for a rate increase because of how old you become... or how many claims you have. Your rates can only be changed if there is a general rate adjustment on all policies of this class in your entire state.

Pays you $2,500.00 or $5,000.00 for these accidental losses...

If loss occurs within 90 days of the accident, you collect $2,500.00 for the complete loss of a hand or a foot or the sight of an eye—and $5,000.00 for loss of two limbs or the sight of both eyes.

Waiver of premium benefit.

After you, the policyowner, have been hospitalized for 8 continuous weeks, we waive all your premiums that come due for you and any covered family member until you leave the hospital. And your protection continues just the same as if you were paying the premiums yourself.

These are the exclusions.

Your National Home policy does not cover conditions caused by:

- Any sickness or injury you had during the 1 year period before the policy went into effect. These conditions are any for which medical advice or treatment was given or for which distinct symptoms were evident. (These pre-existing conditions are not covered until the policy has been in force for one year.)
- War or any act of war; any mental disease or disorder; or the use of narcotics.
- Pregnancy, except as provided under the Maternity Benefit provision.
- You are not covered in a nursing or convalescent facility.

Indian Actors Looking for a Home

Native American Theater Ensemble Performs New Drama at OCU

By NANCY GILSON

Oklahoma will have a chance to bring them home.

Members of the Native American Theater Ensemble (NATE), whose base has been New York since conception in February of 1972, are anxious to establish an Indian country residence.

Henny Geogamah, founder, administrator and playwright for NATE, has spent time in Oklahoma and has found it sympathetic to the group's needs.

"I was in Oklahoma visiting friends when I first met the group," Geogamah said. "I was impressed by their commitment to Indian culture and their desire to bring it to Oklahoma."

Geogamah has been two years in the making and the time is right. The first act takes place during the early 1900s and deals with the problem of homogenizing the Indian culture. An acting ensemble consisting of 15 actors, including both cast and crew, will be present throughout the run.

"I am a bit more professional in this play. I have learned that the audience wants to see a professional production," Geogamah said.

The second act will travel to the late 1930s, depicting the arrival of the federal government and its impact on Indian culture. The play's themes of identity, struggle and survival will be the focus.

"We have to be careful when dealing with the American Indian, " said Geogamah. "We must deal with the issues in a way that is sensitive to the audience."

The third act will be set in the 1950s, depicting the return to the reservations. The play's themes of identity, struggle and survival will be the focus.

'The Ascent of Man' Starts Tuesday Night

By GARY JACK WEILL

In the course of a lifetime, a man changes. He grows older. He becomes different. He learns new things. He sees things in a new light. He learns to be a better person.

The two-hour special, "The Ascent of Man," which will be shown on ABC Tuesday night at 8 p.m., is a celebration of the changes that take place in a man's life. It is a celebration of the changes that take place in the world around him.

The special, which is produced by Robert MacNeil and directed by Charles Haas, is a documentary that explores the history of humankind and the changes that have taken place in the world over the centuries.

The special begins with a discussion of the early days of human civilization and the changes that took place in the world during that time. It then explores the changes that took place in the world during the Middle Ages, and the changes that took place in the world during the Renaissance.

The special concludes with a discussion of the changes that have taken place in the world over the centuries, and the changes that are taking place today.

The special is a celebration of the changes that take place in the world around us, and the changes that take place in the people who live in that world.

Advice to Fatigued Young Mothers:
Take Time Out From Baby—For Your Baby's Sake

By Dr. Helen A. Brown

N

o matter how much you do for your children, there will always be more to be done. The baby has new needs, the toddler is beginning to walk, and school is starting. It seems like no matter how many hours you spend on the children, there is still more to do. It can be exhausting, and it's easy to feel overwhelmed.

Dr. Brown suggests that taking time for yourself is just as important for your baby's sake as it is for your own. By taking care of yourself, you can better care for your children. Here are some tips for taking time out:

1. Schedule time for yourself: Make a plan to take time for yourself each day. It could be a short walk, a cup of tea, or a phone call with a friend.

2. Use baby-sitters: If your partner is available, ask them to take care of the children while you take some time for yourself. If not, consider hiring a baby-sitter.

3. Set boundaries: It's important to set boundaries with your children. Let them know when you need some time for yourself and ask them to respect your need for quiet time.

4. Practice self-care: Take care of yourself physically and emotionally. This might mean eating a healthy meal, getting enough sleep, or engaging in a hobby that brings you joy.

By taking care of yourself, you can provide a better environment for your children. It's important to remember that taking time for yourself doesn't mean neglecting your children. It's about finding a balance between taking care of yourself and taking care of your children.

Dear Sissy,

Because Margaret thought it was the best way to get to the beach, and she's been dead wrong so much for much too long.

I am not sorry about your illness; I am not sorry that it's much hotter today, and that your kids have no interest in their bored-out boredom. But I am at home feeling like you're not your usual self.

Dear friend, you had a very happy birthday and I hope that you have a very happy one.

Yours sincerely,

Amirah K. Waddles
