Major Tuition Changes Eyed

By DENISE GORDON

The Daily Oklahoman

So many changes are coming to universities that they are trying to get people to adjust to the new system. The changes include

- Increased tuitions
- Changes in class schedules
- Changes in academic requirements
- Changes in financial aid programs

These changes are being implemented to improve the quality of education and to make it more affordable for students.

Inside News

- An opportunity for students to participate in a new program that allows them to earn college credit while still in high school.
- A new campus newspaper that will be launched soon.
- An increase in the number of courses offered online.

Boren Unveils Penal Reform

By JOHN GILLES

The Daily Oklahoman

Gov. David Boren unveiled a new penal reform plan that would focus on rehabilitation and incarceration. The plan includes

- Mandatory rehabilitation programs for inmates
- Increased funding for educational programs
- A reduction in the number of inmates held in county jails
- A review of parole board recommendations

The plan is designed to reduce recidivism and save money by reducing the number of inmates in state prisons.

Blazing River Perils Ships

By JOHN GILLES

The Daily Oklahoman

The river has become a dangerous place for ships, especially during the winter months. The river is treacherous and has caused many accidents in the past.

- The river has become shallower due to drought conditions.
- The river is subject to sudden changes in water levels.
- The river is subject to ice jams and flooding.

Ailing Liver Puts Elvis In Hospital

By JOHN GILLES

The Daily Oklahoman

Elvis Presley has been hospitalized with liver failure. The cause of the liver failure is not yet known, but it is believed to be related to his heavy drinking and drug use.

- Elvis has been ordered to stay in the hospital for at least six months.
- The hospital is treating Elvis with a regimen of drugs.
- Elvis is expected to make a full recovery.

SCHOOLS LOSING NEW STATE AID

By JOHN GILLES

The Daily Oklahoman

The state legislature has approved a budget that would cut funding for schools. The budget cuts will affect all schools in the state, regardless of size.

- Elementary schools will see the biggest cuts.
- High schools will see the smallest cuts.
- The cuts will affect all areas of the budget, including personnel, facilities, and programs.

Senator Rips Boren Budget

By JOHN GILLES

The Daily Oklahoman

Sen. David Boren, who opposes the cuts, has called the budget a "disaster." He has vowed to fight the cuts in the legislature.

- Boren has introduced a bill to restore funding for schools.
- Boren has said the cuts will hurt the state's economy.
- Boren has said the cuts will hurt students and teachers.

Principal Transfers Affirmed

By GARY BOWERS

The Daily Oklahoman

The state education board has approved transfers for a number of principals. The transfers are part of a plan to improve the quality of education in the state.

- The transfers are being made to schools that have been identified as needing improvement.
- The transfers are being made to schools that have made progress in improving their performance.
- The transfers are being made to schools that have not made progress in improving their performance.

Phillips Profits Soar Despite 'Unprofitable' U.S. Operations

The Phillips Petroleum Co. today reported a sharp rise in net income for the year ended Dec. 31, 1967, despite what Chairman John D. Phillips described as "unprofitable" operations in the U.S. Phillips said profits were $31.8 million, or $1.13 a share, compared with $30.9 million, or $1.08 a share, in 1966. The company's earnings were $3.76 a share in 1965.

The company's oil and gas production was 7.7 million barrels of oil and 1.2 trillion cubic feet of natural gas in 1967. Phillips said international operations contributed $122 million to net income, compared with $115 million in 1966 and $94 million a year earlier.

Floodway Boundary Recheck Requested

The state Office of Flood Control is requesting that 30 counties be rechecked to determine if they have been flooded for 10 years or more. The office, which is responsible for flood control and drainage, will be checking the state's floodway boundaries to see if they need to be altered. The boundaries are used to determine which areas are at risk of flooding and which areas are not. The office is also requesting that the federal government provide additional funding for flood control projects.

Meet A Young Man Going Places

He is Richard Alan Yingling, and he is the Otasco Man. The Otasco Man is a young man who travels the country in a vintage RV, living in a van, and selling Otasco products. He is a symbol of adventure and freedom, and he is a great inspiration for young people. He is a real role model for us all.

Way Out Of Penal Woes?

Finally, a glimmer of light has appeared in the grim, overcrowded prison system in Oklahoma.

The state's Corrections Board has come up with a new plan to improve conditions in its prisons, and it's a plan that could help alleviate some of the overcrowding and inhumane treatment that has plagued the system for years.

The plan involves a combination of building new facilities, improving existing ones, and implementing better management practices. It's a comprehensive approach that addresses both the immediate and long-term needs of the system.

This is a welcome development, especially in light of recent reports that have shed light on the harsh realities of life in Oklahoma's prisons. The system has been criticized for its inadequate healthcare, inadequate food, and inadequate legal representation for inmates.

The state's Corrections Board has been working on this plan for months, and it's good to see that it's finally ready to be put into action. The new plan will involve a significant investment of public funds, but it's an investment that is long overdue.

We hope that the state will follow through on this plan and that it will truly make a difference in the lives of those who are incarcerated in Oklahoma. We also hope that other states will take note and follow suit.

The PEOPLE'S Voice

Confused

Harriet Van Horne

A Miracle In Rio Futures

NEW YORK CITY - As a result of recent developments, Harriet Van Horne, a 26-year-old investor, has become the subject of much discussion in the financial world. The developments have left many people confused, and the situation is not entirely clear.

It is understood that Miss Van Horne has been involved in a number of transactions, some of which have been highly speculative and risky. It is also known that she has been the subject of much controversy in recent years.

Some people believe that Miss Van Horne is a skilled and knowledgeable investor, while others believe that she is not. The situation is complex and difficult to navigate, and it is not entirely clear what the future holds for her.

We will continue to follow the story closely and will report any further developments as they emerge.

Statistics Show Recession Worst
Introducing
simple interest plus

Simple Interest means you pay interest only on the unpaid balance of your loan.
For example:
Why pay interest on this much car?
When you only owe on this much car.

With a Simple Interest Plus loan, you'll never pay a penny more interest than you owe the bank. Amount owed is principal, amount credited to principal, amount of your next payment.

What does the PLUS mean?
When you get a Simple Interest Plus loan between January and June 30, 1975, you receive:

• FREE Regular Checking Account service during the life of your loan.
• FREE one month's membership in Travelers Motor Club
• FREE 30 day's transportation service at TV set

There are no points, no clauses, no extra credit cards, no more than $10,000, and in some cases you may qualify for more than that amount.

The quality goes in before the name goes on.

Oscar Rose College Opens Course For Firefighters

Oscar Rose Junior College has opened a course for firefighters who are interested in acquiring a two-year degree in fire science. The new program is designed to provide firefighters with the knowledge and skills necessary to advance in their careers. The course covers topics such as fire behavior, fire suppression techniques, and emergency management. Students will also have the opportunity to learn about leadership and management skills that are essential for success in the fire service. Applications are now being accepted for the fall semester. For more information, please contact the college's admissions office.

Learn How To Buy Fertilizer

By L.B. McLURE

Examinations conducted in the past few years have shown that fertilizers, when not applied accurately, often result in lower yields and increased costs. To keep your garden looking its best, it is important to know which fertilizer to buy and how to apply it.

Eye On The Garden

example: 10-10-10 is a grade that contains 10 percent nitrogen, 10 percent phosphorus, and 10 percent potassium. This information is important to know when choosing a fertilizer for your specific needs.

Four Courses Scheduled at OSU Extension Center

Review course on engineering principles and design of all construction projects is scheduled for Feb. 10. This course will teach the fundamentals of engineering and design, including the use of computers and software for planning and design.

New Club Schedules January Meeting

The records of this conference have been kept at the University of Illinois Extension Center. The course will cover the basics of engineering and design, including the use of computers and software for planning and design.
