GM's $200 OR $500 REBATE
Just buy a name - any new 1976 Chevrolet or Buick, Pontiac or Oldsmobile and tell delivery through February 28, 1976 and you get credit for either $200 or $500, depending on the car you select. And this offer isn't limited to one new model either. It applies to all 41 cars listed below, regardless of engine or equipment. So get in on this GM's offer and receive credit for either $200 or $500 on a car that can help save you money in gas and operating costs, too. Call 627-6623 to see these cars!

GOOD GAS MILEAGE
One of the best things about owning a small GM car is the good gas mileage you can expect. For example, our 1976 Chevrolet Vega and Pontiac Astre with automatic, turbocharged engines delivered the best gas mileage in the EPA highway tests of any four-door sub-compact sold in the United States this year. The Vega (with 4-speed) delivered 25 mpg and the Astre 25 mpg, which is 4 mpg better than expected.

LOWER OPERATING COSTS
If you followed the owner's manual for non-recommended service, we figure the 1976 Chevrolet Vega using factory fuel tanks would save you up to $304 per year, labor costs and labor over the 10,000-counter, using regular unleaded gasoline of $3.00 per gallon, and the Pontiac Astre trifles with the recommended maintenance schedule. In addition, Ice Cube has its regular model. You can get a car at the lower end of the market, but the Improved model that is used as the standard price model, we believe, is the better buy.

Save money 3 ways on great little cars from Chevrolet, Pontiac, Oldsmobile and Buick.
Our stamp windows are now making house calls.

There are times when it's either inconvenient—or just plain impossible—to get to a Post Office to buy the stamps you need.

So your Postal Service has come up with a new way to make buying stamps simple and convenient: Stamps-By-Mail.

Tell your mailman what you need.

All you do is fill out an order form which you can get at the Post Office. Or have one delivered by your letter carrier. Write in the amount and denomination of the stamps you'll need, and mail it to your Post Office along with a check.

There's a 40c service charge that pays all the extra handling costs.

Your stamp order will be handled right away, and come to you promptly.

Better postal service.

Stamps-By-Mail is just one way of giving you better postal service. We're glad to do it. We hope you'll find it helpful and convenient. Whether it's because you're stuck at home, or simply have other things to do.

Two Million Uneducated

The recent report on education in this country is a wake-up call to all of us. The problem is not limited to any one state or region. It is a nationwide issue that requires a national solution.

The Report of the National Committee on Education, released last month, states that two million students are uneducated. These students are not merely failing to meet minimum standards; they are failing to meet basic educational needs.

The committee's findings are sobering. They indicate that the problem is not just a matter of poor schools or underfunded programs. It is a systemic failure that affects all levels of education.

The report calls for immediate action. It recommends increasing funding for education, improving teacher training, and implementing more effective teaching methods.

We need to take these recommendations seriously. The future of our country depends on the education of our children. We cannot afford to ignore this problem.
