Senate Passes Rape Bill

By HOMER DAVIS
The Journal Star
A bill which would establish the crime of rape in Illinois may be introduced in the Senate before the end of the session.

The bill, which was introduced in the House last week, would make it a felony for any person to engage in sexual intercourse with another person without his or her consent.

Sen. John W. Johnson, D-Chicago, said he plans to introduce the bill in the Senate.

He said the bill would make it much easier for victims to prove their cases.

The bill would also provide for stiffer penalties for those convicted of raping a minor.

The bill would also provide for a special fund to be set up to help victims of rape.

The fund would be financed by a 1-cent sales tax.

The Senate is expected to vote on the bill next week.

Borens Offers ‘Option’

By JOHN GILLES
The Journal Star
WASHINGTON — Gov. David Boren, in an attempt to avoid a constitutional crisis, announced Monday night that he will offer a “constitutional option” to the Legislature.

Gov. Boren said that the option would give the Legislature the opportunity to vote on the issue without the need for a constitutional amendment.

The option would allow the Legislature to vote on a constitutional amendment that would allow the Legislature to override the governor’s veto.

Gov. Boren said that he would schedule a special legislative session to consider the option.

The option was suggested by a group of lawmakers who are concerned about the constitutional crisis.

The option is similar to one proposed by the governor in the past.
