Area Cities Pick New Leaders In Elections

NCCE Elects 2 In Norman

MADISON — Two candidates endorsed by the Norman City Council were voted into office Tuesday in municipal elections.

John Hensley, 42, a truck driver for the World's Co-op, won the mayor's race and Edith L. Buyer, 37, a social worker for the state, won the city clerk's race.

Hensley, who is a member of the World's Co-op, said he plans to work on improving the city's streets and sidewalks.

Buyer, who has been on the council for two years, said she plans to work on improving the city's parks and recreation facilities.

Groves, McEwen Capture Seats

GETTYSBURG — Two candidates endorsed by the Gettysburg City Council were voted into office Tuesday in municipal elections.

James Brown, 42, a truck driver for the World's Co-op, won the mayor's race and Edith L. Buyer, 37, a social worker for the state, won the city clerk's race.

Hensley, who is a member of the World's Co-op, said he plans to work on improving the city's streets and sidewalks.

Buyer, who has been on the council for two years, said she plans to work on improving the city's parks and recreation facilities.

Two Council Runoffs Set

The Midnight Earl
"Ace" Redford Didn't Do Flying

The actor who played the title role in the recent film "The Midnight Earl," "Ace" Redford, says he didn't do much flying in the movie. "I only did a few short flights on a gyrocopter," he said. "The real action took place in the air."

Fiat Blends Style, Go

This past week the Fiat 128 made its American debut, becoming the first small car to be imported for sale. It is designed to carry four persons comfortably, with styling and efficiency that are second to none among subcompacts.

'75 MGB Restyles Exterior

The new MGB has a more rounded, aerodynamic design that improves its aerodynamic efficiency. The car's updated styling features include a new front grille, a new radiator, and new front and rear lights. The car's suspension has also been improved to provide a smoother ride.

MG Midget Gets New Engineering

A larger engine means more performance, but it also means more maintenance and expense. The new Kent 1499 cubic inch pushrod engine in the 1973 Midget is a good example of the tradeoffs. It raises the output of the Midget to a comparable level of performance to other sports cars of similar power output.

The new engine has a 7.5-litre bore and stroke, compared to the previous 1.1-litre bore and stroke. The new engine also has a higher compression ratio of 8.5:1, compared to the previous 6.5:1. The result is a 5 percent increase in power output.

The new engine also uses a higher quality valve spring material, which results in a longer valve life. The new engine also uses a higher quality oil seals, which results in a longer oil life.

The new engine also uses a higher quality oil seals, which results in a longer oil life. The new engine also uses a higher quality oil seals, which results in a longer oil life.

VW Adds Hatchback — Rabbit

Volkswagen's 1976 lineup, the Rabbit hatchback and Karmann Ghia convertible, is further enhanced by the addition of a new Rabbit sedan. This four-door model joins the hatchback and convertible in Volkswagen's lineup of economy-class cars, offering customers a variety of choices.

The Rabbit sedan is powered by Volkswagen's well-known four-cylinder engine, providing reliable performance and fuel efficiency. The exterior design of the sedan reflects the same clean, simple lines that have become a hallmark of Volkswagen's product line, ensuring a cohesive look across the range.

In addition to the Rabbit sedan, Volkswagen is offering an extensive range of options and accessories to allow customers to customize their vehicle to meet their specific needs. Whether it's for personal use, family travel, or even as a business tool, the Rabbit sedan provides a versatile and affordable solution.

Sciocco Mixes Luxury, Economy

Scirocco features Wedge Profile and those of event绅士 styled by virtue of a 1.2-liter four-cylinder engine that is coupled with a four-speed manual transmission. The Scirocco is a sporty coupe equipped with both power steering and power brakes, offering a smooth and comfortable ride.

The overhead valve engine is designed to provide excellent performance while maintaining fuel efficiency. The Scirocco's design emphasizes aerodynamics, reducing wind resistance and improving fuel consumption. This combination of luxury and economy makes the Scirocco an appealing choice for those seeking a high-performance vehicle without compromising on fuel economy.

Scirocco tests have shown that it combines the best of both worlds, offering a sporty driving experience while remaining practical and economical. The Scirocco is a perfect example of Volkswagen's commitment to producing vehicles that meet the needs of contemporary drivers.

Tr7 Wedge Shaped.
The Triumph TR7, an sloped, aerodynamic wedge shaped sports car, was introduced to the U.S. market by TRIUMPH
importers in 1979. The TR7 has a 2.5-liter, 16-valve OHV, cam-in-block, aluminum engine with
4-speed manual or close-ratio automatic transmission. The car is available in a variety of options, including
customized exterior colors, interior trims, and accessories. The TR7 offers a sporty and responsive
driving experience, making it a popular choice for enthusiasts. The car's design and engineering
features contribute to its appeal and performance.

Only Two Options
To a Customer on
The Volvo 164 AT
Leveridge Imports

You can pay extra.
for the factory to
install a steel sunroof.
And not pay extra for them
to install automatic transmission.
Otherwise, the Volvo 164 is
everything you could ask for in
a luxury car. And you don't even
have to ask. It's already there. Factory-installed.
Air conditioning. Power front windows. Heated driver's seat. Leather that's everywhere
and electronic ignition. It all makes a visit to our showroom a unique experience. Now, instead of
worrying over what you've got to add, you can luxuriate in what you've already got.

Mustang II
— Hot Seller

Mustang II for 1980 adds an optional 4-speed manual
with all Synchromesh gears, 15-in. aluminum wheels, and
leather seats. Ford said its new Mustang II is not related
to the Camaro, but is a hot seller.

Capri It's Begin Arriving

Top Speed, 215 MPH in 5th gear in almost 14 seconds.
Volvo 164 AT, and the new 200000-mile odometer, will be
introduced later this year. The cars are equipped with
power steering, power brakes, and air conditioning. The
Volvo will be sold only in the United States.

Maverick Acquires New Options

Crop harvesting with Maverick’s 4-row mowers is
simultaneously increased over existing mowers
by 87%. The crop accumulates at a rate of
400% over existing mowers. Maverick’s new
4-row mowers allow for high production in
a variety of crop types, including corn, wheat,
and soybeans. The mowers are equipped with
a wide range of options to suit different
planting and harvesting needs.

'75 Colt Turns More Noticeable

Dodge Colt is going to be more noticed in 1975. Automobiles are not only competing against the usuals, they are changing the market, and the competition is getting harder. From the appearance to the performance, the new model is a step ahead. The compact is a sprite, which is fun to drive and efficient on fuel. It's a great choice for city driving, but its performance is more impressive on the highway. The engine is responsive and provides a good amount of power. Overall, it's a reliable and enjoyable ride.
Honda Advances
In CVCC Engine

Honda's engine
is a major
breakthrough
designed to
meet the new
government-
mandated
fuel economy
standards.

The major
advantage of
the CVCC
engine is that
it meets the
new standards
without a
diesel or
electric
powerplant.

The engine is
designed with
a two-stroke
pre-chamber
and a three-
way catalyst
system.

The engine
has a high
compression
ratio of 9.5:1
and uses
methanol
to achieve
its low
emissions.
