Lyric's Music Director Arrives for Auditions

Lyric Theatre's new music director arrives in Oklahoma City this week for auditions for the upcoming production of "Hair." According to Diane Sucher, director of the production, the show will be "like nothing we've ever done before." This is not only an important part of the show's success, but also its future growth. "It's an opportunity to stretch our creative wings," Sucher said.

The auditions will be held on Monday and Tuesday evenings at the Lyric Theatre. The casting call is open to all interested performers, regardless of age or experience. There will be a separate audition for children, ages 6-11, who will appear in the show as "The Tribe." The auditions will be held from 7-9 p.m. at the Lyric Theatre.

For more information, please contact Diane Sucher at (405) 232-3629.
Astronomer Says Sky's No Limit

By NANCY GILSON

Astronomer of long standing, Ben O. Glavin of Altus, says the stars may be discovered within two years and not, as some say, forever.

"People always used to believe that there was a limit to what we could learn about the universe," Glavin said. "But now we know that we can go beyond the edge of the universe and see what's out there."

As director of astronomy at the Oklahoma State University's Kieft Planetarium, Glavin believes it is the job of astronomers to discover new objects and educate people about them.

He was one of the first to view the quadruple stars, known as "The Great Quadruplet," through a telescope in 1923. Since then, he's been instrumental in discovering many other galactic phenomena.

Astronomers have traditionally been called "amateur" astronomers, but Glavin points out that they are professional astronomers who have dedicated their lives to the study of the cosmos.

His latest discovery, a large galaxy in the constellation Ursa Major, is expected to be named after him. It was discovered in March of this year.

"I'm very excited about this发现," Glavin said. "It's a beautiful galaxy and it will be a great addition to the Milky Way."

Glavin has also been involved in the development of a new telescope at the Kieft Planetarium, which will be the largest in the world.

The telescope will be completed in 1978 and will allow astronomers to view objects that are currently beyond their reach.

Glavin is optimistic about the future of astronomy and predicts that within the next two years, we will have a better understanding of the universe than we have ever had before.

"We're just at the beginning of our exploration," he said. "There's so much more to discover."

John Cassavetes: A Man under the Influence

By DAN WATKINS

The New Yorker

John Cassavetes is not a filmmaker in the usual sense. He is a film maker, a director who has created his own world, a world in which he plays the lead role. He is an actor, a writer, a producer, a member of a family of actors and filmmakers. He is a man who has lived a life of struggle and triumph, a man who has overcome adversity and achieved success.

Cassavetes was born in 1929 in a tiny town in Greece. His father was an actor and director, and his mother was a writer. Cassavetes grew up in the shadow of his father's success, and he dreamed of following in his footsteps. He studied acting at the Juilliard School in New York City, and he soon began to make a name for himself as a stage actor.

In 1954, Cassavetes directed his first film, "Shadow," which was a low-budget, independent production. The film was a critical and commercial success, and it established Cassavetes as a talented director. He went on to make several more films, including "Shadows," "A Woman Under the Influence," and "Love."

Cassavetes is known for his realistic and honest approach to filmmaking. He often uses non-professional actors and improvises scenes on the spot. He is a master of the medium, and his films are often praised for their depth and complexity.

Despite his success, Cassavetes has had his share of troubles. He has been married several times, and he has had a number of personal and legal problems. But he has always come out on top, and he has continued to make films that are both critically and commercially successful.

Cassavetes is a true original, a man who has dedicated his life to the art of filmmaking. He is a man who has overcome adversity and achieved success, and he is a man who is loved and admired by all who know him.

Painful elimination is unnatural.

Many people have experienced the pain of dry, hard stools. And many have come to accept this, as if it were a natural part of elimination. But there's nothing natural about it. The truth is, no matter what your age, you should have comfortable elimination. And Serutan makes this possible.

Serutan is the effective laxative that forms a smooth gel in the lower digestive tract, where it combines with intestinal waste to give you comfortable relief. There's no strain, and no cramps. That's because Serutan, with its natural ingredients, adds the necessary moisture and bulk to work with your system for smooth, easy results.

If you suffer from painful elimination due to constipation or dry, hard stools, try Serutan. You'll be very comfortable with it.

Does Your Antacid Upset Your Low-Salt Diet?

The holy grail of smart eating is doing two things you thought you couldn't do. If you are on a diet that recommends low salt, you probably don't want to be taking antacids, which are essentially like salt tablets. But what if you had to be on both a low-salt diet and an antacid? How would you eat?

It's a scenario that many people face today. Antacids are prescribed for conditions such as ulcers and reflux. And low-salt diets are prescribed for conditions such as heart disease, high blood pressure, and kidney disease. So if you have to be on both, how do you eat?

One solution is to choose an antacid that is low in sodium. Many antacids are now available that are low in sodium, but they may not be as effective as those that contain more sodium. Another solution is to consult with your doctor or a registered dietician to find a way to accommodate both your antacid and your low-salt diet.

MEDITATED SHAMPOO HAIR?

Do you think your medicated shampoo doesn't work? It might be the wrong one. There are many medicated shampoos on the market today, each designed to treat different hair problems. Some are meant to treat dandruff, while others are meant to treat scalp issues. If you are not sure which one is right for you, it might be worth trying a different medicated shampoo.

Toddlers and Psychotherapy: What's Being Done And Why

Children cannot tolerate parental emanation very well without support. But children can learn to cope with it. The children's Center for Psychotherapy at the Center for Psychiatric Psychiatry at White Plains, N.Y., works with young children in psychotherapy. The Center's philosophy is that the children are the masters of their own lives and that their parents and teachers are merely facilitators in the process.

One of the main goals of therapy is to help the child learn to handle stress. The Center offers a variety of therapy options, including play therapy, art therapy, and group therapy. The therapy is designed to help the child develop healthy coping mechanisms and to help the child understand that they are capable of handling stress.

What about death?

Do you have anxiety? Do you fear death? You are not alone. Many people fear death. In fact, many people fear death so much that they avoid talking about it. If you are one of these people, you are not alone.

The fear of death is not something that is easy to talk about. It is a topic that many people find uncomfortable. But it is a topic that is important to discuss, as it can help you to understand your own mortality and to develop a healthy relationship with death.

MAURICE WOOGIN
The mystery dog

According to a few hound hounds, however,
that Whiskey, the Cocker, is quite possibly
the best dog in the neighborhood. He
barks like a lion, he barks like a bear,
and he barks like a wolf. He barks so
loudly that it is hard to hear anything
else.

THROUGH A CHILD’S EYES

Kids are so much fun. They say things
that adults can’t. They ask questions
that adults can’t. They make you
laugh. They make you cry. They
make you think. They make you
feel.

Will your health insurance pay when you DON'T go to the hospital?

Mutual of Omaha's disability income insurance can provide benefits both IN and OUT of the hospital...

**UP TO $1,200.00 A MONTH AS MUCH AS $40.00 A DAY**

when a covered sickness or injury keeps you from working.

Our figures show that you're seven times more likely to be laid-up at home than at the hospital. This could mean an awful lot of bills unpaid if your health insurance covers you only at the hospital. Mutual of Omaha thinks you need protection at home, too - and does something about it.

As the broadsheet, you can select the amount you qualify for (from $100.00 to $1,200.00 a month ... up to $40.00 a day) to help replace your paycheck when a covered sickness or injury keeps you from working. These monthly disability benefits are all yours to spend as you please for any purpose you choose... yours to use for every kind of need.

**THERE ARE SEVEN REASONS WHY YOU SHOULD CONSIDER THIS MUTUAL OF OMAHA PLAN:**

1. You may qualify for a plan that can provide up to $1,200.00 monthly (income benefits up to $40.00 a day) to spend as you see fit when you're sick or hurt and can't work.
2. These disability benefits are provided both IN and OUT of the hospital.
3. Your coverage becomes effective immediately (or new sickness or injury incurred after application is accepted). Pre-existing conditions (old health problems) will not be excluded for 12 months. This applies to each condition shown on your application and not excluded from coverage.
4. Mental disorders are covered the same as any other sickness!
5. Your policy protects you as a passenger in any kind of accident - even a private plane!
6. Benefits are provided for disabilities incurred both on and off the job. They are available in addition to any Workers' Compensation and Employer's Liability coverage!
7. You have this renewed agreement: no matter how many times you may receive benefits, Mutual of Omaha guarantees to renew your policy as long as premiums are paid on time. Your premiums can be changed only when changed for all policies of the same type and class in your state.

Find out about this fine protection that can cover you IN and OUT of the hospital. Get the full facts about the disability income plan you work, health, income, age, etc. how many you qualify for. Mutual of Omaha will provide personal service as 8.

Please note that the amount of the benefit is the premium, plus the deductible period covered by the plan you qualify for. And that these disability income benefits are not payable for loss caused by war or military service; mental illness, unless caused by a physical illness; childbirth, pregnancy, or resulting complications; or disabilities that start after retirement or at age 65 (whichever comes first), conditions known or previously treated, except as stated in #3 at left.

Furnishing this information without cost or obligation. You will also receive facts about the free plan to meet your life insurance needs available from Mutual's affiliate, United of Omaha. Mail the postage-free and provided for your convenience, new...
