Sniper Wounds Three At Little Axe Game

By MIKE BRANK and LARRY CRAWFORD

NICKEL CITY (AP) - The Little Axe High School boys basketball team walked off the court 31-30 winners over the Okarche High School boys tonight after a very hard-fought game.

DEFINITION OF an athlete: a man who practices because of his love for the game.

Though there is no formal time limit on the games, many take place between 11 a.m. and 7 p.m. and overflow into the early-morning hours.

DEPARTMENT OF JUSTICE

Inside News

Wooden Gun

By Jack and others in the Oklahoma City Police Department, it is understood that the department is investigating a possible armed robbery at a local restaurant.

Planning Chief Defends Halt

Robert H. Frank, chairman of the Oklahoma City Planning Commission, said he was not surprised by public criticism of a proposed development in the south Oklahoma City area.

In awarding a contract to a company for a new high-rise building, the Planning Commission at its meeting last week approved the project.

POWER HOUSES

Easter Message Peace Plea

By Talmage Press-Intelligencer

SundayPM to be held, the Easter service becomes the main event of the day.

In Prince, Pressil, going to be the highlight of the day, the Easter service is expected to be a time of great spiritual renewal and peace.

Power House Churches and other churches throughout the area are preparing for the service, which is expected to draw thousands of people.

In addition to the service, there will be a community meal at the Power House Church on Sunday evening.

The event is open to the public and is expected to be a time of unity and peace.

BUSINESS AND FINANCE

If Buildings Had Memories

The Oklahoma Journal offers wide coverage of business and finance news. This week, we look back at the history of some of Oklahoma City's most iconic buildings.

Old City National To Get New Look

The historic Old City National Bank is set for a major renovation. The building, located at the corner of Broadway and Chouteau, has been a cornerstone of the city's financial district since its construction in 1921.

Firm To Build Huge, Indoor Sport Complex

Plans are underway for a new state-of-the-art indoor sports complex in Oklahoma City. The facility will feature multiple fields for various sports, including soccer, football, and basketball.

T.G.&Y. Announces 2 Promotions

The T.G.&Y. restaurant chain has announced two promotions. Customers who dine in during the month of March will receive a free dessert, and those who order online will receive a $5 discount.

Oil, Gas States Form Panel

Representatives from oil and gas-producing states have formed a new panel to address environmental concerns. The group aims to find solutions that balance the needs of the industry with the protection of natural resources.

Marketeters Oppose U.S. Rule Change

The proposed rule change could have significant implications for the marketing industry. Marketeters across the country are expressing concern over the potential impact on their businesses.

— Henry Lord

A member of the Oklahoma Savings and Loan Association, our passbook savings account offers interest and green stamps. Visit our branch today to learn more about how we can help you achieve your financial goals.
Car Proves Thrifty Way To Travel

The term "gas guzzler" brings to mind Gordo D. Morgan, who was driving a Ford Fairlane. The Fairlane weighs nearly 4 tons and has an average of 18 miles per gallon. However, this is not the end of the story. It turns out that Morgan was also driving a car that had been modified to run on gaseous fuels.

Now, the Fairlane is shown to be a gas miser, thanks to the use of gaseous fuels. It is estimated that the gaseous fuels reduce the carbon emissions of the car by at least 50%.

To put this into perspective, if Morgan were to drive a conventional car, he would have to use much more energy to travel the same distance. This would result in a significant increase in carbon emissions.

Converter Fights Air Pollutants

There's no "cure" that doesn't have a price. But if you're worried about the environment, you can do your part by converting your car to use gaseous fuels. It's a worthwhile investment, and it's not as expensive as you might think.

The savings on gas alone can add up to hundreds of dollars per year. And with the money you save, you can invest in other environmental-friendly practices, such as recycling and using renewable energy sources.

TUNE-UP SPECIAL

$29.98

INCLUDES: Oil change, air filter check, fuel filter check, distributor cap and rotor check, spark plugs, light, air freshener check, and an engine check.

3. TRANSMISSIONS AREID

$12.98

Special Offer: $24.98

CUB CADET

We've got your plug.

A tune-up saves 1 to 2 gallons in every tankful.

Despite what some experts have said, a tune-up is not just a waste of time. It can actually save you money in the long run. By ensuring that your car is running smoothly, you can improve its fuel efficiency, which will result in lower gas bills.

So, don't ignore the importance of a tune-up. Take care of your car, and it will take care of you.
Tune-up Saves $110

How would you like to save $110 on a tune-up? If your car is one of those that need regular maintenance, you may be able to save money by doing the tune-up at home.

First, you'll need to gather all the tools and materials you need: a wrench, a ratchet, a pliers, and some cleaning fluids.

Next, you should check the spark plugs. If they're dirty or worn, replace them with new ones.

Then, check the engine oil level and change the oil if necessary.

Finally, check the air filter and clean or replace it.

With these simple steps, you can save $110 or more on a tune-up. So grab your tools and get started today!

Increased Auto Efficiency Can Be Big Help

Car Pools, Slow Speeds Urged

The American conservation movement is on the rise, and one of the most effective ways to save fuel is by carpooling. The government has launched a campaign to encourage carpooling to reduce traffic and save money.

Carpooling not only helps the environment, but it can also save money. Research shows that carpooling can reduce fuel costs by up to 50%.

slf

To contribute to the conservation movement, you can start by forming a carpool with friends or colleagues. You can also encourage your employer to offer carpooling options as a benefit.

Remember, every little bit helps. So let's all do our part to conserve fuel and protect our environment.

Auto Facts

Steering Requires Attention, Too

When you drive your car, the steering wheel is one of the first things you notice. You may think that the steering wheel is just a simple device, but in fact, it is a complex system that uses a large number of parts to make your car go in the direction you want it to. The steering wheel is attached to a system of gears and linkage that is called the steering linkage. This system is important because it helps to control the direction of your car, and it is essential for safe driving.

Gas Safety Saves Lives Plus Fuel

There's a real benefit to keeping your gas tank filled. Not only will it save you money on gas, but it will also keep your car running smoothly. When the gas tank is empty, the engine has to work harder to produce power, which can lead to decreased fuel efficiency. So, keep your gas tank filled up to save money and keep your car running smoothly.

Tips Offered

Interior Of Car Needs Care, Too

With the summer months upon us, it's important to keep your car clean and well-maintained. Here are some tips to help you keep your car looking its best:

1. Always keep the interior of your car clean and free of grime and debris. Use a damp cloth to wipe down surfaces regularly.
2. Make sure your car's air conditioning system is functioning properly. Check the filters and replace them if necessary.
3. Clean the exterior of your car to remove any dirt or grime. Use a high-quality car wash soap and a soft cloth to remove any dirt or debris.
4. Check your car's tires regularly to make sure they are properly inflated and in good condition.
5. Keep your car's windows clean and free of streaks.

Car Care Quiz...
CHECKS YOU GET FOR FREE

Corrosion found on battery cables and posts is apt to lead to:
A. Poor gasoline economy
B. General metal fatigue
C. Disruption of electrical supply

Misaligned headlights are apt to produce the following:
A. "Drifting" encouraging drivers
B. Malfunction of turn signal
C. Eventual burning of battery cables

Abnormally low fluid levels in the radiator will probably cause:
A. Brake failure
B. Power steering damage
C. Engine overheating

Worn windshield wiper blades can cause:
A. Reduced visibility in bad weather
B. Malfunction of wiper system
C. Interference with FM radio signal

Low level of engine oil is often a sign of:
A. Fuel for cylinders
B. Using wrong grade gasoline for engine
C. Piston ring wear

Underinflated tires will help produce the following:
A. Premature tire wear
B. Squeal
C. Gasoline waste

"Dirty" engine coolant is apt to:
A. Foult the spark plugs
B. Clog the radiator
C. Contaminate the carburetor

A rusted away exhaust system can:
A. Cause starting problems
B. Corrode brake linings
C. Allow lethal carbon monoxide to enter car

A leak in the shock absorbers can indicate conditions that:
A. Can prove dangerous when traveling at high speeds on a sharp curve
B. Cause wheels to lose ground during a panic stop
C. Drain the battery current

Emission checks finding high levels of pollutants may indicate:
A. Worn spark plugs
B. Use of wrong weight oil
C. Clogged air cleaner

Calamity Rewards

Stutz Plans To Reject Cash Rebate Lures

Critical steering components often are neglected by car owners. One trouble a crew of technicians at the Oklahoma State Car Care Center found was a marked increase among today's cars using erroneous and worn steering parts. The loss of control in an accident can be prevented before they happen. (Photo courtesy of OKTO)
Car Care Quiz...

CHECKS YOU GET FOR FREE

Maybe the best things in life aren’t really free. But still it’s comforting to know that a number of valuable checks on the well-being of your car generally are offered without cost by your service outlet. This quiz concerns itself with those services and possible problems or causes relating to them.

1. Corrosion found on battery cables and posts is apt to lead to:
   A. Poor gasoline economy
   B. General metal fatigue
   C. Deterioration of electrical supply

2. Misaligned headlights are apt to produce the following:
   A. Blinding or unsettling drivers
   B. Malfunction of turn signals
   C. Unusual drawing of battery current

3. Abnormally low fluid levels in the radiator will probably cause:
   A. Brake failure
   B. Power steering damage
   C. Engine overheating

4. Worn windshield wiper blades can cause:
   A. Reduced visibility in foul weather
   B. Malfunction of wiper system
   C. Interference with FM radio signal

5. Low level of engine oil is often a sign of:
   A. Need for oil change
   B. Stagnating oil/lube in engine
   C. Piston ring wear

6. Underinflated tires will help produce the following:
   A. Premature tire wear
   B. Slacks
   C. Gasoline waste

7. "Dirty" engine coolant is apt to:
   A. Foil the spark plugs
   B. Clog the radiator
   C. Oxidate the thermostat

8. A rusted away exhaust system can:
   A. Cause starting problems
   B. Cause brake noises
   C. Allow lethal carbon monoxide to enter car

9. A leak in the shock absorbers can cause:
   A. Damaged suspension systems
   B. Worn suspension systems
   C. Unusual wear of suspension systems

10. Emission checks finding high levels of pollutants may indicate:
    A. Worn spark plugs
    B. Use of wrong grade motor oil
    C. Chugged air cleaner

Pain In ‘Jane’ Plainly On Wane

Beat-up Car Points Need For Service

Calamity Rewards

The motley exiled crew, who could easily be considered an unlikely band of adventurers, were planning a daring heist to rob a bank. The heist was to take place on a dark, moonless night, and the crew was determined to pull it off without a hitch. They were well-prepared, with all the necessary tools and equipment to ensure their success.

Stutz Plans To Reject Cash Rebate Lures

Know Front-End

Calculated driving maneuvers are often overlooked by car owners. Once a vehicle's suspension and steering systems are out of alignment, they can cause serious problems before they start. (Photo courtesy of Ford.)
Complexity leads To Misunderstandings
Owner-Mechanic Talk Needed

Many owners are more technical than they believe. In today's world, the owner can become knowledgeable about his or her vehicle and its components. This knowledge can help prevent misunderstandings and poor communication between the owner and the mechanic.

A recent study found that many owners do not have a basic understanding of their vehicle's systems. This lack of knowledge can lead to misunderstandings about the vehicle's performance and maintenance needs.

Understanding the vehicle's systems can help prevent breakdowns and expenses. It also allows the owner to make informed decisions about repairs and replacements.

The owner's role in the relationship with the mechanic is crucial. The owner should be able to communicate their concerns and expectations effectively. This can help ensure a successful repair and prevent future misunderstandings.

In conclusion, owners should strive to become more knowledgeable about their vehicles. This knowledge can lead to improved communication with mechanics and better vehicle maintenance.
**With Improved Maintenance, Driving**

**Drivers Can Stretch Gasoline Dollars**

The cost, availability, reliable maintenance, and the need for frequent service make the decision to switch to a gas-powered vehicle a practical choice. Regular maintenance also helps to extend the life of the vehicle.

**Fuel economy** can be as low as 20 mpg, which means that driving a hybrid or electric vehicle can result in significant savings. Regular maintenance and proper operation can help to extend the life of the vehicle and improve its overall performance.

**Women Learn Car Talk**

Toyota, Honda, and Scion are three of the major brands that market vehicles specifically designed for women. These cars are designed to be fun, safe, and user-friendly. The vehicles come with features such as push-button start, keyless entry, and advanced safety features.

**Fueled Pacer Aids Economy Habits**

There are several ways to reduce your fuel consumption and help the environment. By using public transportation, carpooling, and planning your trips, you can significantly reduce your fuel consumption. Additionally, by choosing a fuel-efficient vehicle, you can help to reduce your carbon footprint.

HIGH RELIABILITY is assured because every Magnavox solid state color TV is subjected to one of the most grueling testing programs in the entire industry. Each is preconditioned with a high-stress, high-voltage operational test... because Magnavox wants your color TV to work perfectly at their price before it gets to your place!
Robert Walker Lives In A Tree

HOLLYWOOD—Part of the story of how it came to be that the first of the famous "albino" roles, a role which made him famous, was played in film by Robert Walker. The story seems to be that of a man who had a certain kind of "albino" look about him, for he was not only an albino himself but a role that was written for him.

Robert Walker was born in 1905 in the small town of Little Rock, Arkansas. His father was a newspaper editor and his mother was a poet. Walker was an only child and was expected to follow in his father's footsteps. However, Walker was more interested in acting and decided to pursue a career in film.

Walker's first role was in the 1929 film "The Perils of Pauline," where he played a role that was meant to be an "albino." The role was a success and Walker was offered many more roles. He continued to act in films until his death in 1951.

Robert Walker lived in a tree his entire life. He was an albino and had a certain kind of look about him. He was a role that was written for him. Walker was a successful actor and continued to act in films until his death in 1951.

Lyric Theatre Slates Children's Auditions

Lyric Theatre will hold auditions for children in October. The theme of the show will be "The King and I." Auditions will be held at the Lyric Theatre on October 1st.

Children must be between the ages of 6 and 12 and must be able to sing and dance. They should be comfortable in front of a camera and have some acting experience.

Auditions will be held from 10 am to 1 pm at the Lyric Theatre on October 1st. Children should come prepared to sing a song and perform a short monologue.

For more information, contact the Lyric Theatre at 555-1234.
Roy Clark’s A One-Man Conglomerate

New York — As everyone knows, the one-man show is dead. But don’t tell that to Roy Clark. He’s going strong every day. He’s a one-man show, a one-man orchestra, a one-man showgirl. He’s got it all, and he’s got it all at his disposal.

Clark, who was born in AZ in 1929, has been entertaining audiences for over 50 years. He started out as a musician, playing the guitar, the banjo, and the mandolin. He then moved on to acting, appearing in movies and television shows. Now he’s back to his roots, performing his one-man show.

Clark’s show is a mix of music, comedy, and audience participation. He’s known for his quick wit and his ability to get the audience involved. He经常会 say, "I’m the only one-man show you can’t leave.

Clark’s show is a hit, and he’s been performing it for years. He’s still going strong, and he’s showing no signs of slowing down. He’s a one-man show, a one-man orchestra, a one-man showgirl. He’s got it all, and he’s got it all at his disposal.

Diane Ladd Didn’t Get Cut Out of ‘Alice’

Duvall Heads Mob List

Beverly Hills (July 17) — Diane Ladd, who is best known for her role in the hit movie “Alice,” has revealed that she didn’t get cut out of the film. In fact, she was the only one who was kept.

Ladd, who was born in Texas in 1938, has been acting for over 50 years. She started out in the theater, appearing in many Broadway productions. She then moved on to television, appearing in many popular shows.

Ladd’s breakthrough came when she was cast as Alice in the film “Alice.” The film was a hit, and Ladd was nominated for an Academy Award. She didn’t get the award, but she was kept.

Ladd’s show is a hit, and she’s still going strong. She’s a one-man show, a one-man orchestra, a one-man showgirl. She’s got it all, and she’s got it all at her disposal.

Acapulco's Plushest Resort Goes Public

MIDWAY, Nev. — Mia Hackett, the former Miss Nevada, has opened a new luxury resort in Acapulco, Mexico. The resort is called "The Oasis," and it features the most plush accommodations in the area.

The Oasis is located on the outskirts of Acapulco, in a secluded area with a beautiful beach. The resort has 200 luxury suites, each with its own private balcony and ocean view. The suites are equipped with state-of-the-art amenities, including plasma televisions, wireless internet, and high-end electronics.

The resort also has a 100,000 square foot spa, a 3,000 square foot fitness center, and a 5,000 square foot outdoor pool. The pool is heated and has a swim-up bar, as well as underwater speakers for music.

In addition to the spa and fitness center, the Oasis has a full-service restaurant, a bar, and a nightclub. The restaurant is open daily for breakfast, lunch, and dinner, and features a menu of international cuisine.

The Oasis is open to the public, and rooms are available for both daily and weekly rentals. For more information, please visit our website or call (555) 123-4567.

Judy Garland Biography

"Judy Garland" by Jody L. Edmonds, Published by Books Plus

Judy Garland was one of the most beloved and iconic entertainers of the 20th century. Her career spanned nearly 50 years, during which time she became a household name and a symbol of Hollywood glamour.

Garland was born Frances Gumm in 1922 in Grand Rapids, Minnesota. Her family moved to Los Angeles when she was 10 years old, and Garland began performing on radio shows and in musicals.

In 1944, Garland was discovered by MGM studio head Louis B. Mayer, who offered her a contract. She quickly became one of the biggest box office stars in Hollywood, starring in films such as "The Wizard of Oz," "A Star is Born," and "Meet Me in St. Louis.

Garland's personal life was tumultuous, however. She struggled with addiction and personal demons, which ultimately led to her death in 1969 at the age of 47. Despite these challenges, she remains a beloved figure, and her legacy continues to inspire generations.

Alice Cooper: No Place To Be Somebody

In recent years, the music industry has been dominated by the rise of hip-hop and electronic music, but one artist who has managed to stand out is Alice Cooper. "Alice Cooper: No Place To Be Somebody" is a book that explores the life and career of the iconic rock musician. The book covers Cooper's early years, his rise to fame, and his influence on the music industry. It also delves into his personal life, including his relationships and his battles with addiction. The book is written in a narrative style, with interviews from Cooper and other industry insiders. It's a must-read for anyone interested in the history of rock music.

Bobbie Jack spent five weeks on the road with Alice Cooper. "At the conclusion of the tour, when he told me I was going back to my normal life, he broke down," Green wrote.

Tony Bill: Hollywood Somebody

"Hollywood — it's all about happening," Tony Bill once said. He was a successful actor and director who directed many of the biggest hits of the 1980s and 1990s. His career took off after he directed "Dirty Dancing," which became a massive hit. Bill also directed "Steel Magnolias" and "Ghostbusters," both of which were box office hits. His directing style was often praised for its emotional depth and its ability to capture the essence of a character. Bill passed away in 2017, but his legacy lives on through his films and the talented actors he worked with.
Clark Terry Quintet Set For Festival

The K乐器店 recently announced that it will host a performance by the Clark Terry Quintet at a local venue. The event is scheduled for next weekend and is expected to draw a large crowd. The Quintet is known for its fusion of jazz and blues, and is sure to provide an exciting evening of music.

Planetarium Show Starts Saturday

The Oklahoma City Museum of Art will host its annual Planetarium Show this Saturday. The show features a variety of programs, including a special screening of the movie "A Beautiful Day in the Neighborhood," which is sure to entertain audiences of all ages. The show will begin at 7:30 p.m. and is free to the public with museum admission.

OTC Expands Season to Seven Plays

The Oklahoma City University Theatre announces its expanded season of seven plays this year. The season includes a diverse range of genres and styles, from comedy to drama. The first play of the season, "The Importance of Being Earnest," will open on November 1st and run through November 3rd. The season will conclude with a performance of "Theater of the Soul" on May 1st and 2nd.

Four Major Shows Set In April, May

The Oklahoma City Museum of Art is gearing up for its annual arts festival, "Art in the Park," which will take place on April 14th and 15th. The festival will feature a variety of artists and will include a wide range of art forms, including painting, sculpture, and photography. The festival will run from 10 a.m. to 5 p.m. both days and is free to the public.

Slick Bumgarner's Got
A Piece of the Action

By LAWRENCE LAURENT
of The Washington Post

When James, 45, a high school boy in
Winston, S.C., was arrested and put in
a bare cell in the county jail for two
months, he walked out of the cell af-

ter 32 days and declared to the ward-

ian that he had learned a valuable

lesson. After serving two more years
in jail, he was released on parole and

began to work as a laborer in a lead-

er on the night shift at the naval

yard in Norfolk, Va.

He lost his job when the Navy ship
he was working on sank and he was

sent to a re-education camp where
he was trained as a carpenter.

James, a virtual unknown, became
a sensation in the Washington area
when he turned 45 and began to

work as a laborer on the night shift
at the naval yard in Norfolk, Va.

The story of his escape from jail
and subsequent career as a carpenter

and laborer made him a overnight

sensation in the Washington area
and has since spread throughout the

country.

James, who was born in Chicago and

brought up in New York, has been

living in Washington for the past

three years and has become a

regular at the White House and cap-

ital social events.

James, who is now 50, was

married to a woman from New York
and they have two children. James

and his wife have been living in

Washington for the past three years
and have become regulars at the

White House and capital social

events.

James, who is now 50, was

Your Daily Pressures—
And the Strange Ways They Can Affect You
FOR KATHLEEN CROSBY
Is there a generation gap in your home?—R.
Crescent, Palm Springs, Calif.
No, our children are all married with older
people of substance. They seem to have
some quite a bit of love and respect for
their parents. We may not feel the same,
but when

FOR BIL GERBER
You're not alone in the "RELAX QUESTIONS" survey. What
are the reasons you relax?—K.
Brewton, Ala.
The reasons are many. Some people
like to relax...to enjoy life. Others
like to relax...to escape life. There
are as many reasons as there are
people.

FOR DON PICKLES, New York
For all those who think our society
is more serious than it was a few years
ago, I have an idea to suggest. For
the next week, let's all try to be
more serious...to take life more
seriously...to be more involved in the
world we live in. It just might make a
difference.

FOR DR. JEROME SPitz
Are you surprised that the younger generation doesn't
respect our elders?—S. Weinberg, N.Y.
Not at all. I think it's natural that young people don't
want to be led by the same people who have led them.

FOR GURIA GOVIND
Was going into business your idea or your mother's?—
J. Prager, Port Washington, N.Y.
It was both. My mother suggested it, but I was the one
who actually did it. She believed in me, and I had the
intelligence and determination to make it work.

FOR THE ASK THEM YOURSELF EDITOR
My son was always a good boy. When I went out and saw
some of the things he was doing, I was just astounded.
My son was not the boy I knew...not the boy I had raised.

FOR KATHY BULLARD
I want to relax. I want to be alone. I want to
just be...me. But I can't do it. There are always
people who want to interrupt me. I can't relax...I just
can't. It's driving me crazy. What can I do?

FOR KATHLEEN CROSBY
Is there a generation gap in your home?—R.
Crescent, Palm Springs, Calif.

For Easier: Anita Bryant's Painful Progress Toward God
By Alan Heeze

Anita Bryant has always been known as an ally in her fight against gay rights. However, Anita Bryant's journey towards faith and spirituality is now making headlines. In a recent interview, Anita Bryant shared her transformation story, speaking about her newfound faith and the challenges she faced along the way.

What Anita Bryant Discovers:
Anita Bryant's journey towards faith was not an easy one. She faced challenges and obstacles at every turn. However, despite the challenges, she persevered and found solace in her new faith. Her journey towards faith was not just about changing her views on gay rights but also about finding peace and purpose in her life. Anita Bryant believes that faith can change the world and that it is important to spread love and understanding to all.

People and You
Disorders and Children: Making Adjustment Easier

When dealing with disorders and children, it can be challenging to make adjustments. However, with the right approach, it is possible to make adjustments that benefit both the child and the parent. Here are some tips on how to make adjustments:

- Communicate openly with the child and the parent.
- Be patient and understanding.
- Find ways to make adjustments that benefit everyone.
- Seek help from professionals if needed.

Putting in your own vegetable garden means you'll be able to battle rising food costs.

It also means that without the right garden tools, you're in for plenty of hard work. Fortunately, you can handle what you see pictured here are exactly the right tools.

For larger gardens, a John Deere Lawn and Garden Tractor gives you all the work capability you need. You have a choice of six power sizes from 8 to 99 hp, with customarily matched tillin attachments from 30 to 48 inches wide. There's a long list of other garden attachments available, and other attachments to keep your John Deere busy mowing the lawn in summer, or plowing the driveway in winter. Or if you prefer a walk-behind machine to work up your garden, you'll be interested in a John Deere Rotary Tiller. Available in either 35 or 68 hp size, it will work your soil in widths of 35 to 24 inches at a time. A filling width that can be increased up to 34 inches with optional extension units.

Which ever your needs best—a John Deere Lawn and Garden Tractor or a Rotary Tiller—John Deere has it all built with the kind of quality that's a John Deere tradition. And backed by the kind of dealers who can offer you what you would expect from John Deere expert services, outstanding parts availability, and convenient financing. That's why people say, "Nothing runs like a Deere."
Get $2, $3, $5 rebates on 39 terrific GE appliances during GE's Factory Rebate Days!

Hurry in to your participating GE dealers through March 1 through May 16, 1975, buy the specialty appliances you've been wanting to own—and get cash rebates straight from GE.

Don't miss this opportunity to save a total of $3, $4, $5 on Select Appliances! See cash savings chart at participating dealers. For a complete listing of appliance savings, see your nearest participating dealer. Prices are subject to change without notice. Participation of dealers is not mandatory. Christmas Eve Accident that Gave the Victim Good Health

Frederick David Burdett

A 75-year-old gold prospector in Johannesburg, South Africa, suffered a dislocated vertebra in a 60-foot fall in 1965. He was not injured by a heavy object. A few months later on Christmas Eve, he was able to walk only with great pain. After the accident, the second hospital cleared his dislocation, and he never again suffered even a backache.

The Town Hall

A pink of glass dated in 1089 in the church tower of Aix-en-Provence, France, has been located. It was the town gate for 478 years.

Pale Pink Sea Convolvulus

Found on every island in the Caribbean where the first diamond was discovered in South Africa.

Black Oak

In Hamden, Connecticut, a red oak that is 450 years old went to a height of 44 feet with a trunk 30 inches in circumference and a limb spread of 30 feet.

HENRY

Rubber Mice

Your cat will love to chase them.

Toys

Now that we have our monthly allowance, I feel like a millionaire!

Donald Duck

Look! Ice cream! What are we waiting for?

Gosh, I can't decide! Everything sounds so good!

I am you thinking what I'm thinking?

Let's do it!

Why not?
