Deficit Estimated

The estimated deficit for the upcoming fiscal year has been calculated to be $12,000,000. This figure represents a decrease from the previous year's deficit of $15,000,000. The deficit is attributed to a combination of factors including a decrease in revenue and increased expenses.

Africa-Arab Meeting Set

The upcoming meeting between African and Arab nations is scheduled to take place next month. The purpose of the meeting is to discuss trade relations and economic cooperation. The meeting will be attended by representatives from various African and Arab countries.

We've Always Known How To Work

"We've always known how to work" is the headline that captures the essence of the story. It suggests a narrative that celebrates the resilience and hard work of a particular group, possibly Californians known as Okies, who have a reputation for their strong work ethic and determination. The article seems to delve into the history and culture of these individuals, highlighting their contributions and the legacy they've left behind.

The text continues to explore various aspects of Okie history and their influence on California, emphasizing the pride and resilience that characterize this group.
Sooners Sweep; Pokes Bounced

SOUTHERN Calif. - The Sooners hung onto a 27-10 lead in the fourth quarter and held off the Oklahoma State Cowboys, 27-10, for their first victory of the season.

The game was highlighted by a 10-play, 80-yard drive by Oklahoma State in the first quarter, which ended with a field goal. The Sooners took advantage of the Cowboys' mistakes later in the game to pull away.

The victory is the Sooners' first since their 2-2-1 record last year. The Cowboys, who had won their first two games, drop to 2-3 for the season.

Defense Upstages Offensive At OSU

Myron, Elvis Provide Only Sooner TDs

Defense dominated the game, limiting the Cowboys to just three points. The Sooners' offense had trouble generating points, but were able to score two touchdowns through the air.

The defense was led by Myron, who had an interception early in the game. Elvis also had a key tackle in the middle of the field.

No Winning In Spring Drills

The Sooners' spring football drills were canceled due to poor weather and lack of interest. The team had hoped to improve its defense, but were unable to do so.

Barbra Wants Ringo For Movie

Barbra Streisand wants Ringo Starr to star opposite her in the movie "A Star Is Born". The film is a remake of the 1954 version of the classic movie, which starred Judy Garland and James Mason. The original film was a huge hit and won an Academy Award for Best Picture. The new version is set to be released later this year, and will be directed by Richard Donner. Barbra Streisand has been a fan of Ringo Starr's music for many years, and she is excited to work with him on the film. She has said that she wants to bring a new energy and freshness to the story, and she believes that Ringo Starr is the perfect choice to play the lead role. The movie is expected to be one of the biggest box office hits of the year, and fans of both Barbra Streisand and Ringo Starr are eagerly waiting to see their performances on the big screen.

The Academy of American Film Arts and Sciences will hold its 37th annual Academy Awards ceremony this Sunday night and let its card-carrying members vote on who shall win the Oscars.

Their choices will be presented in prime time on KMRC-5 (TV Station 5) and in color, as usual, in Oklahoma City.

As in the past, news on the Oscars has been preceded this year's ceremony which will decide which Porky, this is a fashion of which, pound of ground round. This style is high, however.

These best photographs should be a challenge to a "best" anything in an academic endeavor. Surely no one can be a standard, but the gray's too few to make the business behind the box office. Once obviously has more friends than foes.

"These rates" — used in the non-senior sense — who rate the top right revere the minor majority because the industry itself wants to keep the hagel's style static. As to them, the industry says what it wants.

So, what we've got is another Oscar offering, let's hope for its repeat computer a revaluation of the compromised competitors.

This reason can change. Brightness not familiar in these parts where "culture" is thought of as the name written on a word whose first two syllables are "agric.

Chinese Sweet and Sour Pork
(In the Year of the Horse)

This week, Food Editor Marilyn Hanson changes the pace and goes Chinese. "Start with an aromatic bowl of Chicken Velvet Soup," says Marilyn, "then proceed to a Szechuan dish from western China: Sweet and Sour Pork. But remember: Szechuan cooking, unlike the more familiar Cantonese cooking, is distinctly hot and peppery!"

A pound of Miracle spreads like a pound of butter: Miracle Spread magnets from Host in America. The Spread is big enough to yield Bashful Brownies and Szechuan Sweet and Sour Pork. It's also spreadable like a pound and a half of butter. One inch thick slice of bread or muffin or spread on your pound, a pound of Miracle Magnet spreads like a pound and a half! Read the ad. There, you'll find a small knife.

According to the Chinese calendar, this is the Year of the Horse. The Horse follows the Ox and before the Horse the Ox must be fed. The Horse is a symbol of strength, determination and power. The Horse is well suited to the work of a writer and editor. The Horse is also the symbol of the Writer's Digest. The Horse is the symbol of the Writer's Digest.

The advantage of Vantage.
It's in menthol, too.

It's no secret that today a lot of smokers are looking for a cigarette with less 'tar,' less nicotine, and lots of flavor.

Well, more and more smokers are finding exactly what they've been looking for. In Vantage. The first cigarette that successfully provides low 'tar' and nicotine yet holds on to the flavor that other low 'tar' and nicotine cigarettes sacrifice.

In case you didn't know it, the advantage of Vantage is available in menthol also. And more and more menthol smokers have been making the switch.

They're finding that Vantage provides them with all the flavor they want and a lot less 'tar' and nicotine. With one other extra: Menthol.

If you're a menthol smoker who hasn't tried a pack, you ought to know that Vantage Menthol is everything you've ever wanted from a menthol cigarette. But with a lot less 'tar' and nicotine.

Vantage Menthol.
Take advantage of it.

Bass just don't stand a chance with Bill Plummer's...  

MURDERS SUPER BASS!  

"I couldn't believe my eyes as I hauled big bass aboard."

"This is an unbelievably effective bass-killing lure!"

"More strikes ... more fish landed ... bigger bass caught when not_strikeing for anyone else on the lake!

by John Fox  
The American Angler  

I'd heard about Bill Plummer's rubber Bass FROG but the frog that murders bass! Fishermen told me how they caught such giant bass ... so often ... so fast ... that changed their fishing lives.

Then I tried BASS FROG myself. I was amazed how this little rubber frog outstripped fact that many times I was not even prepared to set my hook. I was no impressed with BASS FROG but I had to give this thing a try.  

First I called up Bill Plummer a few samples of BASS FROG. I was looking for a Bass FROG that I could count on. When I got the samples, I had to admit that they looked good. The Puma Glass skin was great and the big head was great and the eyes ... just like the real McGuy. The bass were more than eager to take the BASS FROG. I couldn't believe it was actually a rubber frog.

Then I decided to try them out on the water. I took my boat to a nearby lake and launched the BASS FROG. I was amazed at how well it worked. The bass were taking the BASS FROG like they were going to eat it.

I was so impressed with the BASS FROG that I decided to try it on other lakes. I called up Bill Plummer and ordered more BASS FROG. I was so impressed with the results that I decided to write an article about it.

"SuperBass" is a trade name for Bass FROG. It was developed by Bill Plummer and is manufactured by SuperBass, Inc. The information in this article is based on the results of my own tests and the tests of others who have used the BASS FROG. 

One of the most important things about the BASS FROG is that it is made of rubber. This makes it a great choice for bass fishing. The rubber makes it more durable and easier to handle than other types of lures. 

Another thing that I like about the BASS FROG is that it is easy to use. It is simple to attach to a line and cast. It is also easy to retrieve. The BASS FROG is a great choice for beginners and experienced anglers alike.

In conclusion, the BASS FROG is a great choice for bass fishing. It is durable, easy to use, and effective. I highly recommend it to anyone who is looking for a great bass lure.
