CAMBODIA SURRENDERS

By United Press International

The Cambodian government surrendered to Khmer Rouge insurgents who have taken over Phnom Penh. Eight top leaders, including Premier Pol Pot, have been captured.

The surrender was announced to small crowds outside the Cambodian Foreign Ministry in Phnom Penh by Prime Minister Sihanouk, who had been in hiding since the insurgency began last year.

The surrender came after a brief crisis in which the Khmer Rouge entered the city and took control of government buildings.

The surrender was hailed as a major turning point in the long and bloody conflict that has claimed hundreds of thousands of lives in Cambodia.

AMERICANS BEGIN LEAVING SAIGON

BAGHDAD (UPI) — Americans began arriving back in Washington Wednesday to leave Saigon as U.S. forces prepare to withdraw.

The exodus of U.S. military personnel is expected to continue for several weeks as the government prepares to evacuate thousands of civilians from Vietnam.

The evacuation is part of a broader effort to withdraw U.S. forces from Vietnam, which has been fought for nearly two decades.

The U.S. government has faced criticism for its handling of the evacuation, with many Americans calling for more actions to be taken to ensure the safety of civilians.

The evacuation is expected to continue for several weeks, and the government has said it will work to evacuate as many civilians as possible.

The bill, which was approved by a 78-1 vote, would allow homeowners to pay the tax in one single payment, instead of spreading it over multiple years.

State Can’t Assist

By LARRY COXON

For The Oklahoman

An Oklahoma County judge released a man on bond after prosecutors presented a case against him.

In response to a request for bond, a man named John Doe was released from custody on Wednesday.

The release came after a hearing in which prosecutors presented a case against John Doe.

The case arose from an incident that took place last year in Oklahoma City.

The incident involved a man who was charged with assault and battery.

The man was released on bond after the judge ruled that there was not enough evidence to support the charges.

The case is expected to be continued at a later date.

Regents Cut Summer Term

By ROBERT DOYLE

The University of Oklahoma regents have approved a plan to cut summer term courses.

The plan will result in a 20% reduction in the number of summer term courses offered.

The regents said the plan is necessary to help close a budget gap in the university’s summer term.

The plan will affect courses offered in both residential and distance learning formats.

The regents said the plan will help the university maintain its financial stability.

They noted that the plan will also help to reduce the cost of summer term courses for students.

The plan was approved during a meeting of the university’s regents on Tuesday.

Grow Your Garden Indoors

In 1948, a breeder in Massachusetts developed a method to grow tomatoes and lettuce in a small, enclosed space. This method allowed people to grow their own food indoors, regardless of the weather outside.

Today, this method is still used by many people to grow their own food indoors. With the right equipment and care, it is possible to grow a wide variety of vegetables and herbs in a warm, sunny spot.

Tips for Growing Indoors:

- Choose the right seeds: Look for seeds that are specifically designed for indoor growing.
- Use the right equipment: Invest in a good grow light and a hydroponic system to help your plants thrive.
- Keep it warm: Most indoor plants require a temperature of 60-70°F (15-21°C) to grow well.
- Provide plenty of light: Plants need at least 12 hours of light per day to grow properly.
- Water regularly: Indoor plants need to be watered more often than outdoor plants.

With these tips, you can enjoy fresh, healthy vegetables all year round.
