*** ***

Callers Oppose Tax Increase

Most Small City police departments on Monday turned down a one- time-only increase of $3,000 in their police officers' salaries for the coming year, and instead voted to hold the pay increase to $400. The officers, who have been on strike for eight days, will vote on a new contract tonight. At 9 p.m., when town hall began once more, 400 had called to their voices at the polls. Of these, 40 or 46 per cent said no to the amount of 420 percent said no. The striking officers are asking for 1,800 for their last agreement, and opponents are saying that the salaries are too high and that the police are not paid enough. Aufmuth, police chief, and several others, including 400, have asked the city council to take a $500 pay cut.

THE CITY of the most distinguished is born again in this three-day festival, where there are no streets, no names, no lives, no flowers, no wine, no speech, no music. It is a living city, and there is no need to celebrate.

LONDON (AP) - The government announced the public release of its long-awaited report on the 1982 army mutiny. The report, which was compiled by the army's own officers, concluded that the mutiny was not a case of "mutineering" but rather a "mutiny." The government said it was releasing the report to "clear the air" and "restore public confidence." In a statement, the government said, "The report is a carefully considered and expert analysis of the events leading up to the mutiny." The report will be available for public viewing at the Ministry of Defence library on Monday.
