Ford To Impose $1 Oil Fee

WASHINGTON (UPI) - President Ford will propose another 8 to 10 increase in the price of gasoline, an official source says. Under the plan, the price of regular gasoline would rise to 70 cents per gallon in October and 75 cents per gallon in January. The official source said the new price would be phased in over several months. The official also said that the price increase would be used to finance the price of new cars. The official said that the price increase was needed to help the economy and that the price of oil had increased since the last time the price was raised. The official also said that the price increase would help the economy and that the price of oil had increased since the last time the price was raised.

SOUND OFF WANT GARBAGE HIGHE

Oklahoma City residents are considering several alternative systems for garbage collection and disposal. One system involves the use of garbage collection trucks and a system of garbage collection stations. The trucks would collect the garbage at the stations and transport it to a central processing facility. The system would be more efficient and would reduce the amount of time needed to collect the garbage. Another system involves the use of garbage trucks and a system of garbage collection stations. The trucks would collect the garbage at the stations and transport it to a central processing facility. The system would be more efficient and would reduce the amount of time needed to collect the garbage.

STATE'S EAST HALF SUFFERS NEW STORMS

Heavy thunderstorms described as "moderate to severe" by the National Weather Service affected the eastern half of the state. The storms caused widespread power outages and damaged several buildings.

What Makes a Good Cover-up  

The price tag of a coat is not the only thing that matters. The quality and style of a coat are just as important. A good coat should fit well, be made of high-quality fabric, and be well-sewn. It should also be well-cut and have good tailoring. A well-made coat will last longer and look better than a poorly made one.

U.S. Must Maintain Strength, Ford Says

The Washington Post

WASHINGTON, D.C. - President Gerald R. Ford said today that foreign policy should be "as important as American life" and that the United States must maintain its military strength.

"For us to give up our military role is not a threat to the world, but to the security of the United States," Ford said. "The world must know we are prepared to protect our rights and interests, and to act in the self-defense of our nation."
