Police Continue Ticket Strike

By MIKE BRAKE
The Journal

OKLAHOMA CITY—Police continue their protest against City Hall by refusing to issue traffic tickets.

"We told them, in essence, that they're important," one officer said. "But the men are getting tired of it. This City Hall has become our own personal place of employment." The officers have been picketing at the city hall since early Monday morning, venting their anger at what they call "the mess on the streets." They say that when they respond to an emergency, they are sometimes asked to sign up for another one. The police chief said that he was concerned about the situation, but he added that he couldn't do anything about it.

The officers have been joined by members of the Oklahoma City Police Officers Association, who have also been picketing at the city hall.

"We're just trying to get some results, some change," said one officer. "We can't go on like this forever."

The Oklahoma City Police Department has been under scrutiny for its handling of the recent protests, and the officers have been critical of the department's leadership.

据报道，该警察部队继续抗议市政厅，声称市政厅已经成为他们的私人领地。他们说，当他们接到紧急情况时，有时被要求签再签一个。警察局长表示对此表示担忧，但他也表示他对此无能为力。

这些警察也得到了奥克拉荷马市警察协会成员的支持，他们也在市政厅前示威。

“我们在努力取得一些成果，一些改变，”一位警察说，“我们不能这样永远下去了。”

奥克拉荷马市警察局一直受到最近抗议的审查，警察对此表示批评。“我们只是想看到一些改变，”他说，“我们不能这样永远下去了。”

Who Will Check?

Advertising and, in general, the production of goods and services, are activities that have been traditionally regulated and controlled by various government agencies. These agencies have typically been responsible for ensuring that the goods and services produced are safe, of high quality, and meet certain standards of performance.

However, in recent years, there has been a growing concern that these agencies are not doing an adequate job of regulating the advertising industry. This concern has led to calls for more oversight and regulation of the advertising industry.

The problem is that the advertising industry is a large and complex one, with many different players involved. As a result, it is difficult for any one agency to have a comprehensive understanding of the industry and its practices.

The Revolution Of Flowers

WASHINGTON, D.C. -- The nation has been waiting for a new era of peace and prosperity. The war is over, and the people are ready for a change.

But the revolution of flowers is not over. The flowers are still blooming, and the people are still waiting for a change.

The revolution of flowers is a revolution of hope. The flowers are symbols of the hope that the people have for a better future. The revolution of flowers is a revolution of dreams. The flowers are symbols of the dreams that the people have for a better future.

Facsimile To Enter Home Use

WASHINGTON, D.C. -- Facsimile, the new technology that allows people to send and receive images over telephone lines, is now entering the home market.

Facsimile has been in use for several years in the business world, but it is only now that the technology has reached a point where it is practical for use in the home.

Facsimile technology allows people to send and receive images, such as photographs, drawings, and charts, over telephone lines. This technology is particularly useful for people who need to send images in a timely manner, such as doctors, lawyers, and business executives.

News Space Maintained Despite Cost

WASHINGTON, D.C. -- Despite the high cost of space, news organizations have maintained their space in the newspapers.

The high cost of space has not deterred news organizations from maintaining their space in the newspapers. The newspapers continue to provide news and information to their readers, and the news organizations continue to provide news and information to their customers.

Pentagon Needs House Cleaning

WASHINGTON, D.C. -- The Pentagon needs a house cleaning.

The Pentagon needs a house cleaning. This is a fact that cannot be denied. The Pentagon is a huge and complex organization, and it is not surprising that it has some problems.

But the problems at the Pentagon are not limited to the organization itself. The problems at the Pentagon are also reflected in the policies and practices of the Department of Defense.

Sex Fantasies Not Uncommon

In the study of human sexuality, it is often noted that sex fantasies are prevalent and not uncommon. Research has shown that sexual fantasies can be a healthy and natural part of sexual experience. They can serve as a way to explore different desires and scenarios without the limitations of reality. Fantasies can be enjoyed alone or with a partner, and they don't necessarily need to be acted upon to be fulfilling.

I Thought It Would Go Away

This past year old woman talked in the cold blustery September rain in front of her head. "The top of my head is coming off. It's like something. We redeemed emergency treatment and with a few minutes her head was easy for the first time in fall weather."

Her child was down with a fever and she asked, "It's typical for being sick with a baby."

I said, "I wonder if it has anything to do with the cold."

She replied, "You know, we've been feeling it for a while."

I thought, "Is she talking about something else?"

"It's just a little thing," she said. "I've been feeling it for a while."

I asked, "Are you sure it's not something more serious?"

"I'm sure," she answered. "I've been feeling it for a while."

I said, "Maybe it's just a cold."

"It's just a little thing," she said again. "I've been feeling it for a while."

I thought, "What a strange thing to say."

"It's just a little thing," she repeated. "I've been feeling it for a while."

I said, "Maybe it's just a cold."

My Father's Greatness

SEN. HENRY M. JACKSON
ON PETER JACKSON:

When "Scoop" Jackson thinks of his father, he see himself as an excited little boy raced on his father's shoulders all the way from the downtown Everett, Wash., to the shopping area six blocks away—the all the way back again. "That was one of the great thrill of my childhood—my father, a big, busy fellow, would let me ride on his back all the way. It's something that has remained with me all these years."

Peter Greenth (he later changed his family to Jackson) was born in 1886 in New York and came to America at 17. He moved to Washing town about 1906 (just before it was hit by the Great Fire) where he found employment with a construc tion firm. When Everett was founded in 1905, Jackson became a policeman. They needed someone who could pack a drink from the saloons in the box and Dad would tell me how he carried the drinks several blocks during those boom days when the town was getting started," recalls Senator. "We did this day in 1914, transferred to Montana, where he worked in a smaller, then came back to Washing town and went into the building trade."

Scoop Jackson calls his father "an amazing man, who was a right rough kind of a man, but he was just a great guy."

And when you get it to your machine, it gives you a great new look of the device you want.

"It was my father's way of keeping us together. He constantly deprived himself to give me what I wanted."

If you smoke menthol.

Anybody who smokes knows there's a controversy about smoking going on. About most of the controversy is about 'tar' and nicotine. But when we ask the average menthol smoker why he smokes a menthol cigarette, he almost always tells us that he smokes a menthol because it doesn't have a hot or a harsh or a scratchy taste.

Well, Vantage with menthol doesn't have a hot or a harsh or a scratchy taste either.

But what Vantage Menthol also doesn't have is anywhere near the 'tar' and nicotine most of the other menthols have.

And that's something we thought a menthol smoker would want to know about.

Vantage Menthol tastes every bit as cool, every bit as refreshing as any menthol cigarette you ever smoked.

But it has only 17 milligrams 'tar' and 0.8 milligrams nicotine.

Don't get us wrong. That doesn't mean Vantage Menthol is the lowest 'tar' and nicotine menthol around.

It does mean that Vantage Menthol is the lowest 'tar' and nicotine cigarette that you'll enjoy smoking.

You don't have to believe us.

All you have to do is try a pack.

Is painful elimination normal?

If you're like many people who suffer from painful elimination, you may think this is normal for your age. Yet nothing could be further from the truth. The truth is, no matter what your age, there's nothing normal about painful elimination.

You have the right to comfortable elimination. And Serutan helps make this possible.

You see, painful elimination is often caused by constipation or dry, hard stools. Serutan, with its natural laxative ingredients, adds bulk and assists in the natural elimination process.

My Father's Greatness

My Father's Greatness

Although his father never made fourth grade and placed little emphasis on informal education and reading, Glen Campbell says he was a reading man. "I knew the day of my showman was ever known "Dad" or "Buck" to me. He was more important than book knowledge. No one could paint the wood over his eyes.

The first thing Dad and I did together was fish," Glen says. "There wasn't much to teach people to do. I used to read some fun. There was no TV, so we had family meals. With 12 kids and two parents it was a pretty big operation! We got to feel free when we was four-days free and back for $5."

Glen's father expected his children to be anything special. "He never worried what we did," says Glen, "as long as we wasn't guilty or given the law." On the other hand, although he was proud and a theorist, he was also firm. He can be hotheaded and wouldn't take any nonsense. When he asked his children to do something he expected them to do it - no excuses.

The only time that made good sense was when John Wesley Campbell had returned to normal. Since then I've been knowing his name since he's been eating."
