Doctors Find Spot On Slayton's Lung

By GARY JACK MILLER

"I don't know what he smoked," Larry Austin said Tuesday.
"He never said anything about it." In fact, he bragged that he had never smoked, even though he had been a regular smoker for years.

"He never said anything about it," Austin said. "He was always so careful about his health, he probably didn't want to admit it."

Slayton was a known heavy smoker, and his lung problems were widely known. His doctor had recommended that he stop smoking years ago, but he continued to do so, believing it would not affect his health.

"I've been asked to do a lot of things for Slayton," Austin said. "I've been doing it for years, ever since he became a fixture in the community."

The Washington Post's report added that Slayton had been a prominent figure in the community for years, known for his fiery personality and for always being ready to help anyone in need. His passing was mourned by many, who remembered him as a kind and generous man.

Docker's Under Fire

"We're going to have to do something about the dockers," said Jack Smith, the mayor of the small town of Dockersville.

"They've been causing all kinds of problems around here," Smith said. "We need to do something about them before they cause more damage."
Hyperventilation Explained

**Ask Dr. Lamb...**

Hyperventilation is a condition that occurs when the body is over-breathing, which can cause a rush of blood to the head and a rush of blood to the muscles. The symptoms of hyperventilation can include lightheadedness, dizziness, and tingling in the hands and feet. The most common cause of hyperventilation is anxiety or stress, but it can also be caused by a variety of other factors, such as asthma, pregnancy, or a medical condition. If you suspect you or someone you know is experiencing hyperventilation, it is important to seek medical attention immediately.

**Wax On Vinyl Seat Tough To Take Off**

If you're looking to remove old wax from a vinyl seat, you can try using a mixture of white vinegar and water. Mix equal parts vinegar and water, and then apply the mixture to the waxed area with a clean cloth. Let the mixture sit for a few minutes, and then wipe away the wax with a dry cloth. This should help to loosen the wax and make it easier to remove. If the wax is particularly stubborn, you may need to repeat the process several times.

**Couples Repeat Vows**

Roberto and Maria Rodriguez, of East Los Angeles, renewed their wedding vows on their 10th anniversary. The couple, who met in high school and married in 1983, said their love for each other had only grown stronger over the years. "We've been through a lot together," Roberto said. "I knew she was the one for me the first time we met." Maria agreed, adding that they were "the luckiest couple in the world." The couple was surrounded by family and friends as they renewed their vows in a private ceremony.

**Gilbert Changes Mind On Plan**

Robert Gilbert, 58, a former school principal, has decided to withdraw his candidacy for the school board in the upcoming election. Gilbert, who had announced his intention to run just two weeks ago, said he had "re-evaluated his priorities" and decided to focus on his family instead. "I've been thinking about my family and what's best for them," Gilbert said. "After some reflection, I've decided that running for office is not what's best for me right now." Gilbert, who has been active in community affairs for many years, said he would continue to support the issues he cares about through his work in other capacities.
