**Teacher Hike Funds Short**

By JOHN GILLIE

The Oklahoma City school board is expected to vote today on a proposal to raise the salaries of teachers and other employees by 2.5 percent. The board is considering the proposal as a way to address the growing teacher shortage in the district.

The proposal would increase the average annual salary for teachers from $44,000 to $45,750. It would also provide raises for other employees, including administrators, counselors, and support staff.

The board has been making efforts to attract and retain qualified teachers, but it has faced challenges due to the low salaries and high turnover. The proposal aims to address these issues by improving the compensation package for educators.

The vote on the proposal is scheduled for 3:00 p.m. today. The school board will hold a meeting at 2:30 p.m. to discuss other matters.

**Bloodless Coup Ousts Peru Chief**

The Peruvian government has announced that it will proceed with a coup to oust the current president, who is facing protests and unrest. The move comes after the president failed to address the country's economic challenges and political instability.

The coup is led by military officials who have seized control of key government offices and communications networks. The military has also detained the president and his family members.

The coup is expected to have significant implications for Peru's political and economic stability. The country has a history of unstable governments and frequent changes in leadership.
