OKLAHOMA’S BEST I’VE SEEN

By AL McLAUGHLIN

Norman — Florida State was Oklahoma’s best opponent this season, said Sooners’ coach Bud Wilkinson.

In conclusion, the Sooners’ coach praised his own squad for a great season — and summed up the Mobile Bowl:

“Texas would be good, but they would be even better at home,” said Wilkinson, after the Gaylord Bar-B-Q Bowl game.

But the Sooners had their revenge, beating the Florida State Seminoles 35-16. Oklahoma’s offensive line, led by Tork Heinel, had a great game.

LOOKING FOR AN INFLATION HEDGE?

Chairman Richard E. Humby of the board of directors of United States Life Tower, Inc., has decided to market a new product that will provide a hedge against inflation. The product, called the "Inflation Protection Certificate," will pay a fixed amount of money to the holder at the end of the year, regardless of inflation. The certificate will be available in denominations of $10,000, $25,000, and $50,000, with a minimum investment of $5,000. The certificate will be sold at a discount from the face value, and the holder will receive the face value plus interest at the end of the year. The product is expected to be popular among investors who are concerned about the effects of inflation on their retirement savings.

'U.N.C.L.E' Co-Star Goes Invisible

BY LAWRENCE LEBED

When network producers decided to forget all about the famous international espionage agency created by the late Leo FBiz Mark ("The Man From U.N.C.L.E.") Co-star David McCallum has been allowed to return to acting full-time. The actor, who had his own series on NBC for two years, will now appear in a weekly situation comedy entitled "The Dilemma Man". He will portray a character named "Mike", who is a member of a secret organization called "The Dilemma Man". The show is scheduled to premiere next season, and McCallum is expected to return to his own series next year.

David McCallum

"The Man From U.N.C.L.E." is the highest-rated series on television, and McCallum is expected to earn top-dollar for his return to the small screen. He has been out of work since the cancellation of his previous series, and the role of "Mike" is believed to be a major one in the show. The character is expected to be a key player in the ongoing plotline, and McCallum is due to appear in several episodes of the show.

Weather and You: Your Illnesses, Your Moods in Rain or Shine

By T. K. Irwin

It is now recognized that man is a complex society of organisms, and that what we eat, drink, and breathe can affect our health. The same applies to our weather. The atmosphere, in its various forms, can influence our health in profound ways. In this article, we will explore the relationship between weather and health, focusing on how different weather conditions can affect our mood and overall well-being.

With a sudden outbreak of cold weather, many pregnant women have gone into labor. On one occasion, so many women went into labor in the city of Chicago that they filled entire hospitals.

In the following days, the city was in chaos as people tried to find shelter in the freezing temperatures. The streets were covered in snow, making it difficult to travel. Many people were left homeless, with no place to go for warmth.

The following day was no exception. The streets were still covered in snow, and the wind was howling. People were bundled up in their winter clothing, trying to stay warm. The cold temperatures were taking a toll on the city's residents.

In conclusion, weather can have a significant impact on our mood and overall health. It is important to stay informed about the weather and take appropriate precautions to stay healthy, even during the winter months.

For more information on weather and health, please call TOLL FREE 800-447-4700.

French Star Catherine Deneuve:

A Closeup of “The Iceberg Blonde”

By Michael Leech

Sure, French star Catherine Deneuve is a movie star. But she’s also a woman with a serious problem. The sort of pain you just have to deal with, and not want to.

And now you can help her get some relief.

It’s not in my nature to stand up and talk of sex. But I cannot fail to understand the woman who participates.“

What’s so wrong about More, the first 120mm cigarette? The cigarette that’s more in every way except price.

Long, lean and burnished brown, More has more style. It has more flavor. It has more. Over 50% more pulls than the 100mm cigarette. Yet More doesn’t cost more. And whether you smoke regular or menthol cigarettes, you can get More going for you. Because both More and More Menthol deliver quality like you’ve never experienced before.

They smoke slower and draw easy for more enjoyment. They’re more flavorful. Yet they’re surprisingly mild.

They’re More. More and More Menthol. They sit right in your hand like they were made for it and in your face like they found a home.

The first 120mm cigarette.
