Recommending Reforms

Bill Tharp
Victory Worth Every Penny

Why is Tareyton better? Charcoal is why. Charcoal filtration is used to freshen air, to make water and other beverages taste better. It does something for cigarette smoke, too. TAREYTON has two filters - a white tip on the outside, activated charcoal on the inside. Like other filters they reduce tar and nicotine. But the charcoal does more. It balances, smooths - gives you a taste no plain filter can match.

Better Credit Card Deal

Now that credit cards are so in, it's time to review your options. Perhaps the best deal around is the Citi Card, from the First National Bank of Hot Springs. The Citi Card offers a variety of benefits, including low interest rates and a wide range of credit limits. Plus, they offer special offers for new customers. For more information, contact your local First National Bank or visit their website. Credit is a tool, use it wisely.
