Tax Cut Plan 'Rocks' Wilson

By JAMES McKEE

Any reduction in Oklahoma's 8 cent gas tax would sound a death knell for the state's already battered economy. Wilson said the Republican plan to reduce the tax by 1 cent is a "gimmick" and would not help the state's economy.

Wilson, who said he would veto any attempt to reduce the gas tax, said the plan would have a "negative impact" on the state's economy. He said the plan would not help the state's economy and would only create "fiscal problems." Wilson also said the plan would not help the state's economy and would only create "fiscal problems.

Board Attacks Methods

In the OKLAHOMA TIMES, on the Board of Regents, Oklahoma City, and the campus community, the board's attacks on the university's administration have been a major sticking point. The board has been critical of the university's administration, saying it is too focused on the university's financial problems and not enough on the university's academic programs.

The board has said it is too focused on the university's financial problems and not enough on the university's academic programs. The board has also said the university's administration is not doing enough to improve the university's financial situation.

Budget Squeeze Reported

By TERRY MAXON

The Oklahoma City University Board of Trustees will meet Tuesday to consider a proposed $12.5 million budget for the 1973-74 academic year. The board has been critical of the university's administration, saying it is too focused on the university's financial problems and not enough on the university's academic programs.

The board has also said the university's administration is not doing enough to improve the university's financial situation.

Why is Tareyton better?

Charcoal is why. Charcoal filtration is used to freshen air, to make water and other beverages taste better. It does something for cigarette smoke, too.

Tareyton has something—a white tip on the outside, activated charcoal on the inside. Like other filters they reduce tars and nicotine. But the charcoal does more. It harmonizes, makes smooth—gives you a taste no plain white filter can match.
