Police May Face Suspension

By ROY DEAN HAMON

Police officials who are not present in the headquarters or on the streets may be subject to discipline as part of a new policy discussed by the Oklahoma City Police Department. The policy, which was approved by the department's governing board last week, will give the department's executive officer the authority to suspend any police officer for up to 14 days without pay. The policy also provides for the dismissal of any police officer who fails to comply with lawful orders.

The policy has been in effect since last week, but it is not clear how long it will be in effect. The department has not yet decided whether to implement the policy on a permanent basis.

The policy is intended to ensure that police officers are always on duty and available to respond to emergencies. It is also designed to ensure that police officers are accountable for their actions.

Mayor Re audit End

By ROY DEAN HAMON

Mayor Walter F. Johnson said the city's police department will be required to submit a report on its operations to the city's governing board every six months. The report will include information on the number of arrests, the number of traffic citations, and the number of criminal investigations.

The mayor said the report will help the city's governing board ensure that the police department is operating effectively.

The report will also be used to evaluate the performance of individual police officers.

Ambulance Service To End

The city's ambulance service will be ended on October 1, 2023, the city's mayor announced. The service, which has been in operation for 60 years, will be replaced by a new service provided by a private company.

The mayor said the decision was made after a thorough review of the service, which showed that it was not cost-effective.

The new service will be provided by an ambulance company based in the city.

Tareyton better

Charcoal is why. Charcoal filtration is used to freshen air, to make water and other beverages taste better. It does something for cigarette smoke, too. TAREYTON has true filters--a white tip on the outside, activated charcoal on the inside. Like other filters they reduce tar and nicotine. But the charcoal does more. It balances, smooths--gives you a taste no plain white filter can match.

Quarterback, Coach Team Up In Choc'taw Drive To State Title

by John Martin

In 1968, the Choc'taw Volunteers stunned the state with a dramatic trip to the Class A state title game. The team had won the district title with a 6-3 record, and then overcame the odds to make it to the big game. The Volunteers beat the in-state rival, the West Choctaw Indians, 12-6 in the district final, and then went on to beat the powerful Jacksonville Jaguars 21-0 in the sectional game. They then faced the powerful Pineville Cardinals in the state title game, and emerged victorious with a 28-6 win. The Volunteers were led by their quarterback, Bobby Chappell, who threw for 193 yards and 2 touchdowns in the state title game. The victory cemented the Volunteers' status as one of the best teams in the state, and their coach, Jim Matthews, was named the state's Coach of the Year.

Huskers Seem To Bring Out The Best In Pokes

Tom Dirato's column

If motocross could come up with an answer, they'd have the key to one of basketball season's most exciting story lines. Although most everyone prefers to play it down, it's a fact of life that Nebraska basketball is getting better every year. And not a little better.

Each year with the Huskers, there's always a new face. This year, it's with Oklahoma State. Every time it looks like they're really getting going, they slow down. But as they struggled through the first half of the season, one thing remained constant. Nebraska is always in the game.

This year, the Huskers have a new face. They have a new front. And with it, they've gained a new confidence. They've learned how to play the game. They've learned how to win.

But what about the future? What about next year? What about the year after that?

The Huskers are not the only ones getting better. The Pokes are getting better too. And that's good news for Nebraska fans. It means that they have a team that's going to be tough to beat.

But what about the future? What about next year? What about the year after that?

The Huskers are not the only ones getting better. The Pokes are getting better too. And that's good news for Nebraska fans. It means that they have a team that's going to be tough to beat.

In the end, it's not about who wins or who loses. It's about who's learning the game. And who's getting better.
