Strike Help Costs Highway Patrol $37,000

City May Get Billed, Webb Says

BY JOHN GILLIE

The Oklahoma City police chief said Friday that the city may face as much as $37,000 in costs to keep its highway patrol on the road during the strike. The patrol, which was cut from the budget last year, was brought back into service last week.

Mayor Bill pushed for the return of the patrol to ensure the city's safety. The patrol will help maintain order during the strike, he said.

The patrol's return comes after a federal judge ruled in favor of the union, ordering the city to reinstate the patrol.

In December, the city announced it would cut the highway patrol as part of a budget reduction. The patrol has been on duty for over 50 years, providing police protection to the city.

The patrol's return is expected to cost the city $37,000, according to WEBB. The city is currently in negotiations with the union to determine the final cost.

In the meantime, the city is ensuring the safety of residents by having the patrol on duty.

Grain Uprising Ends

CONVICTS FREE ALL HOSTAGES

By JAMES R. CAMPBELL

The Department of Agriculture and the Department of Justice have reached an agreement to free all hostages held by the Grains Uprising movement. The agreement was made after a series of negotiations between the two agencies.

The hostages were held for several days, and the Grains Uprising movement had set up a barricade in the center of the city. The movement was demanding that the city lower its grain prices.

The Department of Agriculture has agreed to lower its grain prices, and the Department of Justice has agreed to release all hostages.

The agreement has been welcomed by both parties, and the hostages are expected to be released soon.

Boy Held In Deaths

BY MIKE HANNA

The Chicago Police Department has arrested a 15-year-old boy in connection with the deaths of two Chicago residents. The boy was arrested after a tip from a concerned citizen.

The two victims were found dead in their home late last night. Police are investigating the deaths, and the boy has been charged with murder.

The boy has a previous arrest record, and police believe he may have been involved in other crimes.

The Chicago Police Department is reminding residents to be alert to suspicious activity and to report any information to the police.

U.S. To Back Rock Island

WASHINGTON, D.C. - The Department of Transportation announced Thursday that it would provide as much as $37,000 in federal funds to help fund the Rock Island project. The project is designed to improve the city's water system.

The announcement was made by Secretary of Transportation ray LaHood, who said the funds would be used to help fund the construction of a new water treatment plant.

The Rock Island project has been in the works for several years, and the city has been working to secure funds to help fund the project.

The city was notified by the Department of Transportation that it would receive the funds, and Mayor Bill has said the city will use the funds to help fund the project.

The project is expected to take several years to complete, and the city is working to ensure that the project is completed on time.

Mayor Bill has said the city will work closely with the Department of Transportation to ensure that the funds are used effectively and efficiently.
Industry Tax Break Nixed

New York Carter Fudge

AHFORD (AP) - New York City has been given a tax break that will save it $60 million a year.

The move comes as the city has faced budget deficits and has been trying to find ways to cut costs. The tax break will be aimed at businesses that employ a certain number of people, and will be phased in over the next few years.

The city has been facing budget issues for several years, and has been forced to make cuts in services. The tax break is seen as a way to help the city stay afloat.

Hewing To The Law

It is not always clear what constitutes the law, or whether the actions of certain individuals and groups are legal. However, it is important that all individuals respect and abide by the laws of the land. By doing so, we can ensure that society remains safe and just.

Chapel, J. Braxton, Oklahoma City

The law is primarily intended to protect the rights and interests of individuals and groups. It is therefore important that all members of society respect and obey the laws of the land. By doing so, we can ensure that society remains safe and just.

What is achieved in pursuing justice is important, but we must also consider the impact of our actions on others. It is therefore important to be aware of the potential consequences of our actions and to take steps to minimize any negative impact on others.

I am concerned about the recent reports of police Brutality. These reports suggest that the police are not always respecting the rights of individuals. It is therefore important that we take steps to ensure that the police are held accountable for their actions.

$200 Million Fraud Charged

NEW YORK (AP) - A $200 million fraud was alleged Wednesday in a federal court in Oklahoma City.

The charges were filed in connection with a scheme to defraud investors in a real estate development project.

The defendants, identified as John Smith and Jane Doe, are accused of conspiracy to commit securities fraud.

Smith and Doe are alleged to have used false representations to induce investors to purchase shares in the development.

The project was to be located in a small town in Oklahoma.

Smith and Doe are also accused of making false statements to the Securities and Exchange Commission.

The SEC said it was aware of the charges and was investigating the matter.

Save Gas, Still Travel

There is a way to economize that doesn’t involve cutting out the comforts of the road. Porsche has introduced the 911 SPORTS-MASTER, a car that gets better gas mileage than any other 2-passenger, 2-door car. It’s the 911 with a 2.7-liter engine that delivers 80 HP and runs on 90 octane gas, yet gives you a 28 MPG average in the city and 37 MPG on the highway. It’s a car that lets you enjoy the ride without feeling guilty about the cost of gas. So the next time you're planning your road trip, consider the 911 SPORTS-MASTER. It’s the perfect combination of style and economy.

Chevette Tops '76 Chevrolets

The time has come for a car engineered to have sensible size, reasonable weight, good mileage and safety. The Mercedes-Benz.

For some automobile manufacturers, a car with all of these qualities is a necessity. In the Mercedes-Benz, it is a reality.

For example, the 450 SEL Saloon, which has been sold in Europe for some time, is available here. It is designed to travel up to 150 miles on a gallon of fuel, and is up to 50% better than any domestic or foreign model. Come in, let us show you how.

These are only a few of the advantages that make the Mercedes-Benz a desirable choice. Come in and see for yourself.

Cowboys' Burk
Has Confidence,
But Don't Say It

by Tom Dvrk

The sheriff named Burk is a man of
strong character. He has served his
county for many years, and is known
across the state as a true friend of the
law. But he is a man who has his
moments of doubt and uncertainty.

"The truth is, I'm a little worried.
"But I'm not going to let them see
"how much it's getting to me."

The problem is, the sheriff is
confronted with a series of cases
that are becoming increasingly
difficult to solve. Each day brings
new challenges, and sometimes, it
feels like the weight of the world
is on his shoulders.

"I'm trying to keep my cool," he
said, "but it's not easy."

The county is in a state of
anxiety, waiting to see what will
come next. The sheriff knows that
the future is uncertain, but
he's determined to do his best.

"I'm a cowboy," he said, "and
I've been through a lot. I'm not
about to let this:intimidate me."

The sheriff's confidence is not
in doubt, but his determination
is. He is a man who will continue
to fight for justice, no matter
what challenges come his way.

Bicentennial Awaits Tigers

by Arnold Hamilton

The 1978 season of the American League was not a happy one for the Detroit Tigers. They finished in last place, 21 games behind the first-place Kansas City Royals. The Tigers were hoping for a turnaround in 1979, but it was not to be. They finished in last place again, this time 19 games behind the first-place Minnesota Twins.
The NFC East:

Is it, as its players claim, the toughest division in the NFL?

NEW YORK (AP) - The cold hard truth for the National Football Conference will go to the second place team in the Eastern Division, that is if you're hoping what the teams in that Eastern sector are saying.

What they have been telling the media is that the best foot- ball being played right now is in the five cities that comprise the NFC East, Dallas, Washington, St. Louis, Philadelphia and New York.

"Our conference is the toughest, hardest kicking in football," said St. Louis quarterback Norm Snead, who is on the second place team but knows to lead the Cardinals past the Giants in 1973. "They have great character and they never let you forget that they're superior.

"We always have to be a little bit better, a little bit better down the line. We always have to be a little bit better, a little bit better down the line.

"I'm not sure if this is the best team in football, but it's certainly the best team I've ever been on."

St. Louis' Terry Metcalf (21) bulks his way through New York's line for four yards during Saturday's NFC playoff game. Metcalf is one of the NFC East's top offensive threats. He has 1,174 yards in total offense, and will break the NFL record if he can pick up 1,270 over the final eight games.

Dallas' Harvey Martin (79) leads the Philadelphia's Tom Sullivan, snipping the Eagles short yardage in the Cowboys' 20-17 victory.

Dallas is on top of the NFC East with a 5-1 record, just a game ahead of St. Louis and New York.

Bartkowski Grows Up Quickly in the NFL

ATLANTA (AP) — Steve Bartkowski has found that life in the National Football League is not all he had expected. The Atlanta Falcons rookie quarterback, 22-year-old sensation at the University of Georgia when he was the top quarterback in the nation, has found his left arm has been in a sling.

The first time it was not "only a" early injury that cost him late in the game. The second time, it was a dislocation that could have been a third of a season.

The big thing that matters to John and the Falcons is that the team is still in the running for the NFC East. And Bartkowski has been a big factor in that.

The team is 5-1 and the Falcons are in the middle of the NFC East standings.

Bartkowski says, "I don't want to just stand around and watch." He said, "John Muno andm are doing a good job and I think I could probably do it, too."

"But Bartkowski is a true freshman, and it's tough to see him throwing the ball with his left hand," said Jackson.

"He's not throwing the ball with his left hand."

Bartkowski is the Falcons' top quarterback, and it's tough to see him throwing the ball with his left hand.

"He's not throwing the ball with his left hand."

The Falcons are 5-1 and in the NFC East, but it's tough to see them throwing the ball with their left hand.

"He's not throwing the ball with his left hand."

Bartkowski is the Falcons' top quarterback, and it's tough to see him throwing the ball with his left hand.

"He's not throwing the ball with his left hand."

John Morris' predictions

The clash of the Western Division titans was a minor skirmish in the larger battle for the Western Conference's top spot. The New York Rangers, with a 3-1-1 record, were leading the division, but the Montreal Canadiens were hot on their heels with a 3-1 record. The Rangers' only blemish was a 2-1 loss to the Canadiens, who had been on a tear, scoring four goals in a row.

The Canadiens' star, Guy Lafleur, had been on a tear, scoring four goals in a row. His performance was a testament to his talent and determination. The Rangers, despite their loss, were confident they could turn the tables against their arch-rivals.

Bleier, Sipple:
A Common Bond

by Ira Berkow, NEA

Bleier and Sipple share a bond that goes beyond the ice. In the locker room, they are teammates, but off the ice, they are friends. Their camaraderie is evident in their on-ice performance, as they complement each other's skills. Bleier's speed and Sipple's strength make them a lethal duo.

Irish Now Paying For Ara's Error?

by Jim Murray, LA Times

Irish, who was once known for his defensive prowess, was now paying the price for an error against the Rangers. His mistake led to a Rangers' goal, breaking his streak of defensive excellence. Irish knew he had to bounce back, and he did, scoring twice in the team's next game. His improved performance was a testament to his resilience and determination.
