Ford Shakeup Sparks Debate Over Kissinger's Power

WASHINGTON — As a crisis in the Middle East threatens to escalate into a full-scale war, Secretary of State Henry Kissinger is facing a new crisis of his own: the growing political backlash against his policies.

Kissinger's decision to send a special envoy to Moscow to negotiate a cease-fire in the Middle East has been met with a mix of praise and criticism. Some have hailed his efforts as a triumph of his diplomatic skills, while others have accused him of being too quick to compromise.

Kissinger's opponents say the envoy's mission is a waste of time and that it will only embolden the Israelis and Palestinians to continue fighting. They argue that Kissinger should have taken a tougher line and demanded a more concrete commitment to a peaceful settlement.

But Kissinger's supporters say his approach is necessary to prevent a full-scale war and that his efforts are paying off. They point to the reduction in violence in the region as proof of his effectiveness.

Home Loan Vote Shelved

The Oklahoma City Council voted Monday to reconsider a proposal for a home loan program. The council had approved the program last week, but several councilors said they were concerned about the program's cost and its potential impact on the city's budget. The councilors also discussed the possibility of creating a home loan program for low-income families.

OU To See A Vastly-Improved Kansas Club

by Al Euchbach

When Bob Stoops took over the head job at Oklahoma last year, one of the first promises he made was to give the Sooners a solid defense. He did just that this year with a unit that ranks first in the nation in several categories. The defense has been led by the strong showing of cornerback Darrell Bowes, who has had a spectacular season. Bowes' four interceptions have been returned for touchdowns, and his 13 pass breakups have been a big factor in the Sooners' success.

Revenge-Securing Pokes Down to Last Bowl Shot

Enforcement this year - that was up until the Oklahoma
Boone field.

"Boone played a perfect game against OSU."

"I've never seen anything better play a total game.

"I had a little disappointment with his play this year,

looked at him and talked to him and he was doing better.
He really put a force against Oklahoma Boones.

"The team that had the best chance was Oklahoma Boones,

a team from Texas."

"Boone played a great game and did all the job. It's
starting to look very complicated. He's doing a good job.

Cameron Streak Too Late
For Playoff Berth
by Arnold Hamilton

Last October Cameron became a member of the National Collegiate All-Star Association. On December 1, the All-Star football game was held in Los Angeles. Cameron played for the West team.

This means that the Aggies have to start at a high level. The team's performance in the game will be crucial in determining whether they make it to the national championship game or not.

In order to achieve this goal, the Aggies need to focus on their strengths and work on improving their weaknesses. By doing so, they can increase their chances of winning the game and securing a spot in the national championship.

However, the Aggies' season has not been without its challenges. They have faced tough opponents and have had to overcome several obstacles. But through hard work and dedication, they have been able to stay competitive and maintain their high level of play.

The Aggies' next game is against the powerful team from the East. This will be a crucial test for their performance and will determine whether they can continue their winning streak or face a setback.

Overall, the Aggies have shown great potential and have the ability to achieve great things. With their hard work and determination, they can continue to improve and become a force to be reckoned with in the football world.
