It's Doomsday At OU 23-3

By LARRY CANNON
The Daily Journal
Norman—Defensive tackle John Buchanan set the tone defensively when he summarily sacked Coach Chuck Fairbanks and forced him into a fourth down punt that the Sooner defense did not come close to stopping.

The Sooner offense was also on target in the first half. The defense played a solid first half and held the Kansas State Wildcats to a 0-0 tie.

In the second half, the offense took over and the defense held firm.

Don't Hamstring The FBI!

It would be unfair to say that the decision to attack the FBI is out of the blue. The FBI has long been accused of being a political police force, and there are many who believe that it is being used to suppress political opposition.

Citizens for Justice, a group that has been active in fighting police brutality, has called for the FBI to be reformed. The group says that the FBI is too often used as a tool of the government to suppress political opposition.

"The FBI is a political police force," said John Smith, a member of Citizens for Justice. "The government uses it to suppress political opposition and to hinder the rights of citizens."

The FBI has been criticized for its treatment of civil rights protesters, and there have been reports of police brutality by FBI agents.

"The FBI should be reformed," said Smith. "We need an FBI that is accountable to the people, not to the government."

General Aviation Nears Milestone; Growth Seen

By Ned M. Money

As the number of general aviation planes in the United States continues to grow, the industry is facing some major challenges. The recent increase in fuel prices has put a strain on general aviation, but there are also signs of growth and optimism in the industry.

Road-Side Stands Aided

Along with the growth in general aviation, the industry is also seeing a rise in roadside stands. These stands are becoming more popular as a way for pilots to refuel their planes quickly and easily. The stands are not just for fuel, but also for food, beverages, and other supplies.

Gasoline Prices: Here's Breakdown

Gasoline prices are rising across the country, and the industry is feeling the effects. The rise in prices is caused by a number of factors, including the increase in global demand for oil and the political instability in some of the major oil-producing countries.

"It Ain't Much Fun," Switzer Admits

By NICK MARSH

In brief: Switzer, 30, in his second season as coach of the Oklahoma Sooners, was asked what he thought of his team and his season so far. "I don't like the season," he said. Lions Upset

Syracuse, N.Y.—Just when it seemed as if the Syracuse Orange had wrapped up their season with a title, they were blown out by the St. Louis Cardinals on Saturday night. The Cards scored early and often, relying on a powerful ground game and a stingy defense to earn their third win of the year. Syracuse's offense struggled throughout the game, managing just one touchdown in the 35-7 loss. With the defeat, the Orange fall to 4-5 on the year and will head into their final two games with a lot of work to do if they hope to make the playoffs.

Of Politics...

'Madam President'

Not Preposterous

In the current political climate, it seems that any suggestion of a woman running for office is met with skepticism. However, the idea of a woman as president is not preposterous. Many women have already held high-ranking positions in the government, and there is no reason why a woman couldn't be elected to the highest office. It is important to remember that the United States is a democracy and that all citizens have the right to vote for the person they believe will best represent their interests. The fact that a woman has never been elected president does not mean it is not possible. In fact, many women leaders have been successful in other areas of public service. As the saying goes, "It's not whether you win or lose, it's whether you have the courage to play."
