Illegal Golf Gifts Reported

WASHINGTON, D.C. (UPI) - The United States Department of Justice has recommended that the U.S. Congress consider enacting a law that would criminalize the sale of illegal golf gifts.

The recommendation was made in a letter to the Justice Department from the Office of the Inspector General, which is responsible for overseeing the government's use of golf gifts.

The letter stated that the sale of illegal golf gifts is a serious problem and that it is important to take action to prevent the use of such gifts.

The Justice Department is considering the recommendation and will make a decision soon.

The letter also noted that the use of illegal golf gifts is a problem that is not limited to the United States and that it is important for other countries to consider taking similar action.
