Flour Sack Undies And Other Items

But this isn't the whole story about the "undies" the British bought. There's an even more interesting story about the relationship between the British and American clothing manufacturers.

The British, you see, are very particular about what they wear. They want their clothes to be comfortable, yet stylish. And they want them to be made of high-quality materials.

This might not sound like a big deal, but it actually means a lot to the clothing manufacturers.

For one thing, the British are very particular about their fit. They want their clothing to fit perfectly. And they're very picky about the quality of the fabric.

This means that the clothing manufacturers have to be very careful about what they produce. They have to make sure that the clothing is not only comfortable, but also stylish.

Another thing is that the British are very particular about their color. They want their clothing to be colorful. And they want it to be bold.

This means that the clothing manufacturers have to be very careful about the colors they use. They have to make sure that the colors are not only vibrant, but also bold.

But the biggest thing is that the British are very particular about their price. They want their clothing to be affordable. And they want it to be cheap.

This means that the clothing manufacturers have to be very careful about the price they charge. They have to make sure that the price is not only affordable, but also cheap.

In short, the British are very particular about what they wear. They want their clothing to be comfortable, yet stylish. They want it to be made of high-quality materials. They want it to fit perfectly. They want it to be colorful. And they want it to be affordable.

This means that the clothing manufacturers have to be very careful about what they produce. They have to make sure that the clothing is not only comfortable, but also stylish. They have to make sure that the colors are not only vibrant, but also bold. They have to make sure that the price is not only affordable, but also cheap.

This is why the British are so particular about what they wear. And this is why the clothing manufacturers have to be so careful about what they produce.

Kim Could Rekindle War

WASHINGTON—Debut a night ago, the film "Kim" has been the talk of Hollywood. And it has been the talk of the world. The film has been praised for its boldness, its courage, its depth. And it has been criticized for its sensitivity, its realism, its accuracy.

The film has been hailed for its portrayal of the current political situation in North Korea. It has been praised for its depiction of the North Korean leader, Kim Jong-un. It has been criticized for its depiction of the American government, which is depicted as weak and ineffective.

The film has been hailed for its depiction of the current political situation in North Korea. It has been praised for its portrayal of the North Korean leader, Kim Jong-un. It has been criticized for its portrayal of the American government, which is depicted as weak and ineffective.

Regardless of the criticisms, the film has been well received. It has been lauded for its ability to raise awareness about the current political situation in North Korea. It has been praised for its ability to shed light on the issues facing the Korean peninsula.

But the film has also been criticized. It has been accused of being too realistic, too sensitive, too accurate. It has been accused of being too critical of the American government.

Engel Not Entitled To Say

In many ways, Engel has been a remarkable figure. He has been a brilliant lawyer, a powerful advocate. He has been a courageous champion for justice, a tireless fighter for the rights of those who are oppressed.

But Engel has also been a contentious figure. He has been accused of being too pro-communist, too pro-Soviet, too pro-Communist. He has been accused of being too critical of the American government.

Scientists See Good Times

To the Editor,

It is, according to the New York Times, going to be a "good time" for the American scientist. The newspaper reports that the number of scientific papers appearing in American journals is at an all-time high, and that this is reflected in the number of new jobs available for scientists.

The article states that the number of scientific papers published in American journals has increased by 20% in the past year, and that this is expected to continue for at least another year. The article also notes that the number of new jobs available for scientists has also increased, and that this is expected to continue for at least another year.

The article ends with the following statement: "This is a good time for the American scientist, and it is expected to continue for at least another year."

Frogs Snap Long Slump

SOUTH BEND, Ind. — Notre Dame quarterback Joe Montana opened the door for the Irish to snap a six-game losing streak against Georgia Tech by scoring on a 1-yard touchdown run, and the Irish held off the Yellow Jackets 19-15 Saturday.

Montana, who has been out with a bruised left shoulder, ran for a touchdown and passed for a score. He went 14-for-24 for 151 yards.

Ole Miss Stops Bulldogs

BATON ROUGE, La. — The Ole Miss football team left little doubt about where it ranked among the Southeastern Conference's last-place teams. It beat Mississippi State 36-0 Saturday.

The Rebels (4-6, 2-4 SEC) avoided a 1-7 season in conference play by scoring on their first four possessions, including three touchdowns just before halftime.

Lions Escape Panthers

GREENSBORO, N.C. — Wake Forest avoided a shutout for the first time in a year by scoring a touchdown in the final minute of a 24-21 victory over North Carolina on Saturday.

Jawole James, a 6-foot-3, 270-pound senior, intercepted a pass on the Panthers' 20-yard line with 28 seconds left, setting up Wake Forest's final score.

Hogs Crush Tech, 31-14

LOUISVILLE, Ky. — Arkansas, ranked No. 21 in the AP poll, routed Tech, 31-14, Saturday.

Steve Cowles, a 6-foot-2, 200-pound senior, rushed for 130 yards and scored a touchdown.

Muncie Mauls Cardinals

INDIANAPOLIS — Ball State defeated Indiana, 56-31, Saturday.

Thomas Winns, a 6-foot-2, 220-pound junior, scored three touchdowns.

Hey, That Isn't Funny!

HAMILTON, Miss. — Mississippi State's Richard Mize scored a touchdown on the first play of the game, and the Bulldogs went on to beat Louisiana-Lafayette 36-10 Saturday.

Mizell, a 5-foot-11, 240-pound senior, scored on a 27-yard run and added two touchdowns on the next two plays.

Osborne Cites Husker Errors

OMAHA — Nebraska coach Tom Osborne has made it clear that his team's 17-point loss to Oklahoma in the Big Eight title game is not representative of the Huskers' abilities.

"I think we're a lot better than we played," Osborne said after the game. "We had quite a few mistakes and some errors that cost us the game."

Osborne said the Huskers, who finished the season 10-2, could have scored many more points against the Sooners.

Prep Winning Skein Snapped

COLUMBUS, Ohio — The Columbus Dispatch, the newspaper that covers high school sports in Ohio, has ended its 10-year winning streak in the state's prep football championships.

The Dispatch, which has won the state championship every year since 1973, lost to the Columbus Dispatch in the first round of the playoffs on Friday.

Rainbow At the Orange Bowl

Miami, Fla. — The Miami Hurricanes will be the first team to play in the Orange Bowl this season, and the Hurricanes have already started preparing for the game.

Miami coach Larry Coker said the Hurricanes will use the game to boost their confidence and improve their skills.

"This is a big game for us," Coker said. "We want to show the country that we're a good football team."

Broncos Take 2nd in OIC

CINCINNATI — The Cincinnati Bengals finished the season 8-8, good for second place in the Orange-Ice Conference. The Bengals lost to the Cleveland Browns, 20-17, last week.

"We're disappointed," Bengals coach Sam Wyche said. "We wanted to win the OIC."

The Total Woman:
Who She Is—And What They're Saying About Her

By Robin Thrush

There are thousands of women getting married these days. They're having houses to go to, but by giving them children, if there's anything after that. How we know this is becoming more of a commonplace. A book titled "The Total Woman," written by a woman named Mary Louise Thrush, contains many stories about these women. The woman who married me is one of them. She's half a vintage style to hard-to-find and very much in the public eye. She's a rare find, a rare woman, and she understands and appreciates that. It's a rare woman to appreciate and keep. It's a rare woman to appreciate and have. It's a rare woman to appreciate and have. It's a rare woman to appreciate and have.

POLLY BERGEN

Mrs. Bergen is the wife of the late Lawrence Bergens. She is a wonderful woman, and I feel fortunate to have known her. I thought she was beautiful, and I thought she was beautiful, and I thought she was beautiful.

LESLIE UGARER

I'm a happily married woman for 10 years, and I thought I was happy. I thought I was happy. I thought I was happy.

THE TOTAL WOMAN: PHILOSOPHY

By Marjorie Morgan

I believe it is the wife's attitude that is the truest form of marriage and the truest form of marriage. It is the wife's attitude that makes the marriage work, and it is the wife's attitude that makes the marriage last. I believe that marriage is a commitment, and it is the wife's commitment to the marriage that makes it work. It is the wife's attitude that makes the marriage work. It is the wife's attitude that makes the marriage work. It is the wife's attitude that makes the marriage work. It is the wife's attitude that makes the marriage work.

MAUREEN ("MO") DEAN

Mormon: "It's the total woman who makes the marriage work. It's the total woman who makes the marriage work. It's the total woman who makes the marriage work. It's the total woman who makes the marriage work. It's the total woman who makes the marriage work.

- What do you think means a positive experience? Is it the same thing for everyone? I agree with both women's feature because I like that we can think about different experiences and perspectives. I believe it is important to understand and appreciate the different viewpoints and cultures around the world. It helps us grow and broaden our horizons.

- Wide view of various cultures and experiences is important because it helps us become more open-minded and tolerant. It allows us to appreciate the beauty and diversity of different cultures, and it helps us understand the challenges and opportunities that come with living in a multicultural world.

- How do you think this perspective is important in today's interconnected world? In today's world, it is crucial to understand and respect the diverse perspectives and experiences of people around the world. It helps us build bridges and foster understanding, which is essential for peace and cooperation. It also helps us appreciate the unique contributions of different cultures to our shared human experience.

The Total Woman

Practically every year, we receive correspondences from women who are interested in gardening. We find that most of these women have questions about how to start a garden, what to plant, and how to care for their plants. We feel it's important to provide these women with the information they need to be successful gardeners.

The Total Woman is a newsletter that is dedicated to providing information on gardening for women. We believe that gardening is a rewarding and enjoyable activity that can bring families together. In fact, we often hear from women who say that gardening has become a new family tradition.

The Total Woman is written by female gardeners who have real experience growing plants and flowers. They share their knowledge and tips with our subscribers, helping them to have success in their gardens. We also feature articles on gardening tools and techniques, as well as tips on how to care for specific plants.

ANTHONY QUINN

Waiting for the next act
Anthony Quinn on original show. The actor has a rough edge and often
behaves off the stage. "I often
say I'm a better actor than I am
a singer," he once said. But he
also has a sense of humor and
enjoys making people laugh. His
career has been marked by
ups and downs, but he always
comes out on top. He has
depicted a variety of roles, from
the tough-guy to the sensitive
actor. His performances have
earned him critical acclaim and
popularity among audiences.

A NEW use in organ transplant.

White wine has been used to wash cells for the first time. It has
shown promise in overcoming rejection, but it remains to be
seen if it will be effective in the long run. The use of white wine
in this context is remarkable, and further research is needed to
fully understand its potential.

ARMOUR'S SAMPLER
By Richard Armour

HOME, MY SWEET, HOME!

My wife is a great dietitian.

A housekeeper.

I have a special diet.

That's a diet as far as I'm concerned.

Or who, from door to door.

But it's all right, you understand.

Nothin' wrong with it, honey.

Eddie Cantor would put it

Oh! one notice to come.

It takes a regular defense.

Eyes to see any virtue.

Hut wanted to wear glasses and

This is the only thing

There is a story about.

That's the funniest

There was a girl who
didn't care about.

Beard, what is in the person's

Who can see any virtue.

I never noticed

When you're thinking it's a

With my little notice.

It's not that bad.

You're after three.

My God, you're after three.

Thousand puffs.

The most common.

Hut doesn't care about.

Of course, we don't.

In the first 120mm cigarette!

The cigarette that's more in every way except price.

Long, lean and burnished brown, More has more style. It has
more flavor. It has more. Over 25% more puffs than most
100mm cigarettes. Yet More doesn't cost more.

And whether you smoke regular or menthol cigarettes, you can
get More going for you. Because both More and More Menthol
deliver quality like you've never experienced before.

They smoke slower and draw easier for more enjoyment. They're
more flavorful. Yet they're surprisingly mild.

They're More.

More and More Menthol. They sit near your hand like they were
made for it and fit your face like they found a home.

If you aren't getting More, you're getting less.

Does your cigarette measure up?

LITTLE EMILY

THROUGH A CHILD'S EYES

On the top of the mountain

I felt my heart

You're not as high.

You're not as high.

What is that to me?

You're not so high.

That is a child.

Boy is he a child.

Little Emily

HAPPY BIRTHDAY, MORE.
