CUBA'S ANGOLA ROSE HIT U.S. Involvement Conceded By CIA

By SIDNEY VOOGDAN

WASHINGTON, Dec. 8 - The Central Intelligence Agency's operation in Angola, which the agency has described as a low-profile, covert campaign to overthrow the Angolan government, is being conducted by a group of CIA officers, the agency said today.

The agency acknowledged that a number of its officers, including some in the CIA's Special Forces division, have been deployed to Angola to support the campaign.

The agency also confirmed that a team of CIA officers is operating in Angola, but refused to say how many officers are involved or where they are based.

CIA officers have been working with Angolan dissidents to plan and execute a series of attacks against the Angolan government, the agency said.

The agency did not disclose the nature of the attacks or the specific targets.

In addition, the agency said that it has been providing financial support to the dissidents, including funding for weapons and training.

The CIA's involvement in Angola is part of a broader effort to destabilize the government of President José Eduardo dos Santos, who has ruled the country since 1979.

The agency said that it has been working with dissidents for several years to plan and execute attacks against the government, and that it has been success in persuading some of the dissidents to participate in the campaign.

The CIA has been under pressure from some members of Congress to stop its operations in Angola, but the agency has refused to do so.

The agency said that it will continue to support the dissidents until they are able to overthrow the government of President dos Santos.

SAVE ENERGY... NATURAL GAS
cooks 1 1/2 meals
for every 1 cooked
electrically.

If you are on a budget, it just doesn't
make sense to spend money at the store
and in the kitchen. That's why, at Oklahoma Natural Gas,
we support our own gas for cooking. It's cheaper.

You see, Oklahoma Natural Gas is used to generate
all the electricity in Oklahoma. And, over 70% of the
original energy is available to you for very little.
The results? A gas range will cost 1 1/2 electrical
meals at 1 1/2 times the cost of a cooktop. And
in the oven, a gas range is
naturally clean as well.
and when you use less energy, it just
naturally costs less.

Oklahoma Natural Gas
is proud to be a part of
your Energy Home!

In Russia, It's Uniformity

"Beds Reflect Countries' Personalities"

For a time, the newspapers in Moscow and Leningrad were filled with stories about a new mattress-a 1.5-meter-wide model designed for small bedrooms. The mattress was all the rage among young people in the cities, who had never slept in a room so large that they could stretch out in bed.

But the story was just a headline. In reality, the mattress was not available anywhere. It was a publicity stunt by a company that was trying to sell a new type of mattress. The company had already been trying to sell the new mattress for six months, and it had not made a single sale.

The problem was not that the mattress was too expensive. It was actually quite cheap. The problem was that the bedroom was too small. The mattress was designed for a room that was 2.5 meters wide, and the new mattress was only 1.5 meters wide. The company had tried to sell the new mattress to people who had a room that was 2.5 meters wide, but they had not been able to find anyone who was interested in buying a new mattress.

The company had also tried to sell the new mattress to people who had a room that was 2.5 meters wide, but they had not been able to find anyone who was interested in buying a new mattress.

There's No Escape From 'Cuckoo's Nest'

By NANCY GILLEN
The Daily World

"One fine day, one fine week, One fine year, one fine month, One fine day the wonder ended."

With that children's rhyme, Kay Greenhagen and Chuck Greenhagen, owners of Greenhagen's Inn, a small restaurant nestled beneath the stars on Route 66 in Oklahoma, were trying to communicate the news of their last fine day of business.

"The place just wasn't making ends meet," Chuck explained. "We've tried everything to turn it around, but it just isn't working."

"We've put in the time and effort," Kay added, "but it's just not enough."

The Greenhagen's have been operating Greenhagen's Inn for the past 15 years, and they have built up a loyal following of regulars who have come to expect a certain level of service and quality. However, in recent years, the competition has increased, and the overall economy has taken a downturn, making it difficult for small businesses to thrive.

"We've tried to adapt," Chuck said, "but it just isn't enough."

"We've had to make some tough decisions," Kay added, "and this is one of them."

The news was met with sadness by many of their regulars, who have come to see Greenhagen's as a place of comfort and community. The Greenhagen's have promised to hold a farewell party for their regulars in the coming weeks.

The future of Greenhagen's Inn is uncertain, but the Greenhagen's are committed to finding a new path for their business. They are considering other options, such as opening a new restaurant in a different location or pursuing a different line of work.

"We're taking time to think about what comes next," Chuck said. "But we're not done yet."

"We're hopeful," Kay added. "We're hopeful that we can find a way to continue our business and keep our community connected."

The Greenhagen's Inn will officially close its doors on the first of January. The Greenhagen's are grateful for the support of their community and look forward to finding a new way to serve their customers in the future.
Ordinary gifts will be used up or worn out a week after Christmas. These won't be.

Out of the last 6 years of smoking, I've only enjoyed the last 5 months.

I started to pay attention to all the fuss about smoking about 6 years ago. That's when the fuss about 'tar' and nicotine started to get in the way of my pleasures. For me, it made the real difference between just liking smoking and really enjoying it.

I thought of quitting, but I really didn't want to. So I decided to switch to a low 'tar' and nicotine cigarette. Easier said than done. You practically had to drag on the ones I smoked until the butts of your cheeks touched.

Then, 5 months ago, I was over at my sister-in-law's house. We were both smoking low 'tar' and nicotine brands. But I was the only one complaining about the flavor. So she offered me one of hers. I told her, "No thanks, one's as rotten as another." She said, "This is different." And it was. It was a Vantage.

Now I've smoked more than a few low 'tar' and nicotine brands over the last 6 years. But Vantage is the only one I've found that succeeds in cutting down 'tar' and nicotine. Without destroying the flavor. And it has an easy draw, too.

So for the last 5 months, I've really enjoyed smoking Vantage.

And when I sometimes wish I'd found them sooner, I tell myself I should be glad I found them at all.

Christmas Special:
Dale Evans Talks About Her Life of Tragedy and Faith—And Her Own Lessons of the Holy Land

By Peer J. Oppenheimer

"This day, when I went to church, a group of people from different walks were assembled there. When I heard them, I wanted to tell my lesson to share their experience.

I was born in a small town in Texas, where the only religion was the Church of Christ. It was a simple life, but it gave me a strong foundation in faith. My parents were both members of the Church of Christ and they instilled the values of hard work and faith in me from a young age.

As a young woman, I married Painter Evans, a fellow member of the Church of Christ. We were both deeply committed to our faith and our community. We worked hard to support our family and to improve our community.

But life is not always easy. We faced many challenges, including the death of our son and the challenges of marriage. But we always turned to our faith for strength and guidance.

Through our experiences, we learned the importance of faith in difficult times. We learned that faith is not just a matter of belief, but a matter of action. We learned that faith is not just about what we believe, but about how we live.

So I wanted to share my story with others, to show them that faith is a powerful force in our lives. And that even in the most difficult times, faith can provide a source of strength and hope.

I hope you will join me in my journey of faith. And I hope you will find inspiration in my story.
Because I have taken the mystery out of Transcendental Meditation.

I’LL TEACH YOU TO MASTER TRANSCENDENTAL MEDITATION IN A SINGLE EVENING...

Say hello to Max.

The maximum 120mm cigarette.
A lot longer than 100's. Yet, not a penny extra for all those extra puffs.
Great tobaccos. Terrific taste.
And a long, lean, all-white dynamite look.

"Hello long, lean and delicious."

Holiday Special:
A Chat With Hollywood's Leading Make-Up Expert
By Rosalya Abrevaya

George Mantas may well be the highest paid cosmetic artist in the world. He started at age 14 as an apprentice to Elizabeth Arden. By 16, Mantas had built up an exclusive clientele of socialites, including the Duke of Windsor and Mrs. Henry Ford II. Currently in the world's highest paid half-hour celebrity-make-up show, "Ask the Makeup Man," he is called "The Makeup Touch." Here are some techniques that he uses on Hollywood's leading make-up artists.

FAMILY WEDDING: Christmas is often such a trying time for women. Why do you recommend for holiday makeup?

MANTAS: For parties and special occasions, I like to use brightened eye makeup. A good eyeliner series has a color that isn't too strong but is a warm, fiery color.

FIND: How can a hostess keep her makeup looking bright throughout an evening of dancing and serving pique-a-sue?

MANTAS: The secret is to use a good powder foundation. Then, dust a little more powder on the face to keep it bright.

FIND: How do you recommend for black women?

MANTAS: I find that a creamy or golden eyeshadow is the most flattering—very bright, glamorous, but something with yellow or brown tones in it. But women with yellow eyes should avoid anything from green to brown. Nourish or in front of your face should be dusted on to the woman's eyes, and a little more powder on the face to keep it bright.

FIND: What products should you give women about makeup?

MANTAS: I recommend a good foundation, and they really should use a good, radiant-looking powder with silvery pearls and silky skin. Down South, women tend to have enlarged pores, so try to keep it bright.

MANTAS: They should keep a water-based fluid make-up, to keep the skin fresh. Eye makeup is the most important part of the eyes. Women with blue eyes should try shadows in violet, blue, green, or black. Women with brown or hazel eyes can use any color except brown, especially if there is any sign of green in their eyes.

FIND: Can you tell us about some of the famous women you have known as a makeup consultant?

MANTAS: Linda Johnson was interesting. I couldn't get her to show me how to make-up. She would just go on about her makeup. The right way to do it was to go to the Academy Awards with George Hamilton. She was planning to wear a gold blouse with navel earrings and collar. Without any makeup, she would have been lost in the crowd. So I actually shared her cosmetics with her and made sure she looked bright for the Academy Awards.

FIND: Then, there is a trick. The late Marilyn Monroe taught me that if you're going to put on just a little foundation, you should keep a bottle of light, lily white cream to mix with the makeup. Then, I had to share a lot of her foundation and raise it to the eyebrows. And the right time I was with a state in my hand. I set under the watchful eye of the Secret Service man.

What in the World!

The super-tough childhoods of early Americans: "In most Punxsutawney families, children...are used only for work and what they are born into." In 1860, a child named "Buffalo" was living in a cabin with his family, working as a wood gatherer and living on the land.

Revised around, the arts are...the sound of music and theater. But, the'man-made noisy atmosphere. So, it is 'let live, let live!' But, the 'let live, let live!' atmosphere is replaced by the sounds of nature. With bird calls and day-to-day problems evolving around, "let live, let live!" is the reply." -Eilen Ford
