 Bloody Prison Takeover Ends

SANTA FE, N.M. (UPI) - Police SWAT teams stormed through the New Mexico State Prison, ending a 22-hour takeover that turned into a hostage crisis. The 17 inmates who had seized control of the prison died, some reportedly of gunshot wounds. Another inmate was critically injured after police shot him.

A volunteer employee leaving the prison said upset relatives had told him: "It was wrong to start this, we are sorry. We are with you."

A spokesman for the prison said: "We have no information on any hostages or injuries."

The takeover began when armed inmates seized control of the prison, then forced the hostages out of their cells and into a room.

The hostages were later freed, and the inmates were taken into custody.

What Price Pakistan?

The January 6th New York Times carried an op-ed piece by the former Prime Minister of Pakistan, Zulfikar Ali Bhutto, in which he argued that the United States should use the power of the veto in the United Nations Security Council to stop the war in Afghanistan. Bhutto stated that the situation in Afghanistan was ripe for intervention and that the United States should exercise its right to veto to prevent further destabilization.

This position is part of a broader debate about the role of the United States in the world. The United States has often been criticized for using its veto power to block resolutions that it deems to be contrary to its interests. Some argue that this is a necessary tool for maintaining international stability, while others maintain that it is a滥用 of power.

The problem with a true church is that it is too exclusive. It only wants to accept people who are already believers. It is not open to anyone who wants to be a Christian. This is why the church has not grown in numbers.
