Moslem Rioters Take To Streets

By United Press International
Thousands of Moslem working men and the green bonneted, mustached, Manganiere-armed Moslem police poured into the streets of Cairo yesterday in a dramatic protest against the Egyptian army's recent measures to break up the Moslem brotherhood in the city. The demonstration, in which Moslem-backed regime officials rallied Moslem workers and the heart of the city, was led by the Moslem brotherhood's public leader, Muhammad Morsi.

Three civilians were reported dead in deaths in street demonstrations. MG-21 fighters and MiG-29 V-7s have been reported flying over the city, and Moslem leaders have demanded a cease-fire.

We Beat The Reds!

LAKE PLACID, N.Y. (UPI) - Whispers of jubilation filled the air at Lake Placid Friday night as United States hockey fans voiced their jubilation at the prospect of seeing their team play the Olympic Games. The United States Olympic Committee confirmed Friday that the United States hockey team will play the Soviet Union in the Olympic Games.

One of the most exciting moments of the event was the announcement of the team's selection, which was made at the last minute. The team will consist of 12 players, chosen from a pool of 30 candidates.

The team will be coached by three-time Olympic gold medalist Mike Eruzione and will include players from the National Hockey League and the United States College Hockey Association.

The announcement was met with thunderous applause from the crowd, which included members of the USOC and other Olympic officials.

"This is a historic day for American hockey," said USOC president William Perry. "We have been working on this for months and it's great to see it finally come to fruition."

The team will begin training immediately and will travel to Lake Placid for the Olympic Games, which are set to begin on February 13th.

Guess Who Won!

America's Olympic hockey players are glowing after their triumphant win over the Soviet Union Friday night. While most of the players choose to remain anonymous, Jeff Cragg, who scored the winning goal, reveals that he is a big fan of Mike Tyco, a former Olympic hockey player. Mike Tyco won the silver medal in 1972 in Lake Placid.

Railroad Gets Three-Week Execution Stay

WASHINGTON, D.C. (UPI) - The Interstate Commerce Commission (ICC) yesterday granted a railroad company a three-week execution stay, the longest such stay ever granted, in a case involving a $40 million verdict in favor of the company.

The case involves a dispute between a railroad company and a group of investors who claim they were defrauded in a real estate transaction. The investors won a $40 million verdict, but the railroad company appealed the decision.

The ICC decision gives the railroad company time to appeal the verdict, but also allows the company to continue operating until the appeal is resolved.

"This is a difficult decision," said ICC chairman John R. Ford. "We understand the concerns of the investors, but we also recognize the company's right to appeal this decision."

'Death Spiral' Blamed For Fatal Plane Crash

WOODFORD (UPI) - Federal aviation authorities said a small airplane on a cross-country trip crashed in a mountainous area in Woodford, killing all five people aboard.

The single-engine Piper Cherokee 601 crashed into a steep, rocky mountainous area, authorities said. The plane was carrying a family from Florida to Colorado for a ski vacation.

"It's a tragic loss," said FAA spokesman John T. McCaffery. "We offer our sympathies to the families of the victims.

"In the last few days, we have been tracking the plane's movements," McCaffery said. "It appears that the pilot was attempting to land on a small airport, but the conditions were too difficult."

Mahre Silver Ends U.S. Ski Team Frustrations

Then the top of American skiing now officially belongs to the American team with the American athletes. The U.S. speed team made its debut in the World Cup of the Four-Hill Tournament in Austria.

WASHINGTON - The American Ski Team came to the Four-Hill Tournament in Austria with the attitude that the team would return to the United States as the top national team in the world. The speed team in particular was expected to do well, and it did.

The team's claim to the top spot was bolstered when the Americans won the team event, with U.S. athletes taking three of the four places.

The Americans won the team event, with U.S. athletes taking three of the four places.

Del Falls To Grant

By Mike Eaves

As the scores continued to come in, it appeared that the KU team had taken the lead in the game. The players were very excited and the crowd was on their feet cheering for the team. The game continued with both teams playing with a high level of intensity. The fans were screaming and yelling for the team to win.

300 Americans Airlifted Away From Floodwaters

EXHIBITION, Mexico, less than a week by Explorer, 345 Americans were airlifted to safety from floodwaters in the town of Acapulco. The floodwaters, which were caused by heavy rains from Hurricane Alicia, washed away many of the town's buildings and killed at least 20 people. The United States government was heavily criticized for its response to the disaster, which was viewed as inadequate and slow.

The Journal will no longer carry the jumble puzzle. There will be no puzzles or games until further notice.
