Rail Aid Backed

OKLAHOMA CITY (UPI) - Governor Dewey has ordered the state militia and the state police to be set on guard if necessary to prevent a strike of railroad workers.

The Governor's statement today that he would not permit the workers to strike, was made after hearing from the railroad officials that the strike was necessary to prevent a change in the mode of transportation.

The statement was made after a conference with the railroad officials, who have threatened to strike if the State does not agree to their terms.

Governor Dewey said that he would not permit the railroad workers to strike, but that he would not permit the railroads to shut down.

"If they have a strike," the Governor said, "they will have to go without a railroad service."

**Nigh Backs Aid For Rock Island**

Nigh, the Journal's correspondent, writes that the Rock Island city council has approved a plan to build a new city hall in downtown. The council has also decided to continue its efforts to attract new businesses to the area.

**Welfare Agency Escapes Scrutiny**

Although the Journal has received complaints about the welfare agency's handling of funds, a recent audit found no significant problems. The agency is still facing challenges in providing adequate services to the community.

**Militants Lack Popular Backing?**

The Journal reports that the anti-war protesters have been unable to gain significant support from the local community. Despite this, they continue to organize demonstrations and protests.

**Banowsky Speaks At Library Expansion**

The Journal interviews Banowsky, who discusses the importance of expanding the local library. He emphasizes the role of libraries in providing access to information and promoting education.

**Ford Acquitted In Pinto Deaths**

The Journal reports that the jury in the Ford case was unable to reach a verdict on the charges of negligence and manslaughter. The case will likely be retried in the future.

**Judge Orders Records To Be Turned Over**

The Journal reports that the judge has ordered the release of records that were previously withheld. The order is in response to a request from a local journalist who was investigating a case.

**Parents File Suit In Steakhouse Case**

The Journal reports that the parents of the victim have filed a lawsuit against the restaurant where the incident occurred. They are seeking compensation for their child's injuries.

**Sooner Scene**

**City Officials To Push Fight**

City officials are planning to introduce a new bill aimed at fighting crime in the city. The bill includes measures to increase police presence and improve community safety.

**They don’t build ’em like they use to.**

Now, some homes are more efficient.

**Credit Union Names New Officials**

The Journal reports that the credit union has appointed new officials to its board. The new officials are expected to bring fresh perspectives and ideas to the organization.

**DeBakey En Route To Panama**

DeBakey, a well-known surgeon, is en route to Panama to perform a series of operations. The Journal reports on his preparations for the trip and the anticipated outcomes.

**Windfall Tax Passed**

The Journal reports on the passage of a tax bill that will provide a windfall for local businesses. The bill is expected to generate significant revenues for the city.

**OC Man Ordered To Stand Trial**

An OC man has been ordered to stand trial for charges of theft. The Journal provides details about the case and the upcoming trial dates.

**Wayne's House Sold**

Wayne's house, which was the subject of a recent legal dispute, has been sold. The Journal reports on the details of the sale and the impact on the community.
Give 'Em Nuts, Bolts

WASHINGTON — As duly from an Olympic event and a surprise from the United States' chief exports, the U.S. Embassy in Moscow presented yesterday a display of 24 Nobel Prizes that included two of the highest honors of the country: the Nobel Peace Prize and the Nobel Peace Prize.

The display, which included a small panel of the awards, was a part of the embassy's celebration of the 27th annual Nobel Peace Prize award ceremony. The event, which is held by the Swedish Academy in Stockholm, is considered the highest honor in international relations.

A clear understanding of the prizes' tangible value, according to the embassy, has been achieved through the display. The display of the awards, which included the Peace Prize, was set up in the embassy's main hall and was open to the public.

The Peace Prize was awarded to Dr. John Paul II, the pope, for his efforts to promote peace and understanding between different faiths and cultures.

Rainstorm Swamps South

The United States has been hit by a series of severe rainstorms in the last week, leading to flooding and power outages in several states. The storms, which have been unprecedented in recent years, have caused widespread damage and disrupted daily life in the affected areas.

The rainfall has been especially heavy in the southern states, where several major rivers have reached record levels. The storms have also caused power outages in several areas, including the state of Texas, where tens of thousands of people have lost power.

The United States government has declared a state of emergency in several affected states, and has dispatched federal emergency responders to assist in the recovery efforts.

Ted Kennedy's Fingernail Strategy

President Kennedy, who is running for re-election, has been criticized for his handling of the Vietnam War. The president has faced growing pressure from anti-war protesters, who have called for his resignation.

In an attempt to shore up support, Kennedy has been photographed with his fingernails painted red, white, and blue. The president said the red represents his commitment to the war, while the white and blue represent peace and freedom.

Kennedy has also been criticized for his handling of the economy. The president has promised to reduce the federal deficit and lower taxes, but many say his proposals are too ambitious.

Richard Reeves

Voice Of The People: Bowllegs

Dear Editor:

I would like to express my support for Bowllegs, a candidate running for Congress in the 3rd district. Bowllegs has a clear understanding of the issues facing the district, and I believe he will be a strong advocate for our needs.

Bowllegs has been involved in the community for many years, and I believe he will bring a fresh perspective to the Congress. His platform includes improving education, healthcare, and the economy, and I support these goals.

I urge you to vote for Bowllegs in the upcoming election. Thank you for your consideration.

Sincerely,

[Name]

Foreman Prefers His New Calling

Jubilation

Foreman, who once dreamed of becoming a priest, now embraces the boxing ring as his new calling. The former heavyweight champion, known for his dedication and hard work, is now focused on his new journey as a fighter. His determination and resilience are evident as he prepares for his upcoming matches.

Preaching

Despite his success in the ring, Foreman remains humble and grounded. He continues to attend church services and is an active member of his community. His faith and spirituality play an integral role in his life, guiding him through his journey as a fighter.

Victory Is Sweet

Celebrating his latest victory, Foreman dances on the ring with joy and elation. His hard work and dedication have paid off, and he is grateful for the support of his fans and family. The road to success has not been easy, but Foreman remains focused on his goals and continues to push himself to the limit.

Pumping Iron

Foreman's workout routine is intense and grueling. He spends hours in the gym, honing his physique and honing his skills. His tobacco use has increased, but he remains committed to his fitness. With a new trainer and a fresh approach, Foreman is ready to take on the best in the ring.

Sooner Slip By OSU Into Title Contention

By Maranda Brown

Oklahoma State has taken control of the Big Eight Conference, slipping past the Sooners in the race for the title. The Sooners had high hopes entering the season, but their performance has been inconsistent. They will need a strong showing in their final two games to catch up and challenge for the championship.

MWC Man Fails Polygraph Test

NEW YORK (114) - A man who claims a valuable coin was stolen from him for personal gain was arraigned in federal court here today. The defendant, Michael W. Clark, 31, of 426 East 75th Street, was charged with fraud and false pretenses.

Clark allegedly sold a rare gold coin to a dealer for $5,000, but the dealer later learned that the coin was counterfeit. Clark has been in jail since his arrest last week.

Funeral Bill Vetted

OKLAHOMA CITY (114) - The House Thursday approved a bill that would allow funeral homes to charge a fee for cremation services.

The bill, sponsored by Rep. Robert M. Smith, R-Oklahoma City, would amend the state's funeral home law to allow for the payment of cremation fees. It passed the House with a vote of 95-6 and now goes to the Senate.

Thin Prentiss adds pounds, fills bill

By Vernon Scott

(PI) — There are no sweeter words to an actress's ears than the words "It's best if you don't get too thin." But when Prentiss appeared on the scene, the advice was all too true. For some actresses, the struggle to achieve the perfect figure can lead to lifelong health problems. But for Prentiss, it was more than just a fleeting issue. It was a constant battle that she fought throughout her career.

"I had this constant pressure to look thin," Prentiss said. "It was a struggle, and I didn't know how to deal with it."

Prentiss was a star in the 1930s and 1940s, known for her roles in films such as "Gone with the Wind" and "The Heiress." But it was not an easy path to stardom. Prentiss was expected to maintain a certain image, and that meant looking perpetually thin.

"I was always being told to lose weight," Prentiss said. "I was constantly dieting, and it was affecting my health."

Despite the pressure, Prentiss continued to work hard and achieved success in Hollywood. But her struggle with weight was a constant battle. She eventually had to take a break from acting to focus on her health.

"I had to stop acting for a while," Prentiss said. "I couldn't keep going like this."

Prentiss eventually returned to acting, but her weight was still an issue. She continued to struggle with it for the rest of her life. But even as she aged, she maintained a positive outlook.

"I never let my weight define me," Prentiss said. "I know I'm more than just my figure."

Prentiss passed away in 1960, but her legacy lives on. She continues to be remembered as a talented actress who faced the challenges of Hollywood with grace and determination.

"I'm so glad I had the chance to work with her," said actress Loretta Lynn, who was a fan of Prentiss. "She was a true trailblazer in Hollywood."

Loretta Lynn's life story is now a movie

By Bill Gray

(PI) — Loretta Lynn, one of the most iconic country music artists of all time, has been the subject of a new movie. "Loretta Lynn: The Movie," directed by Jane Alexander, is a biographical film that follows Lynn's life from her childhood in the mountains of Kentucky to her emergence as a national star.

"Loretta Lynn is a true American icon," said Alexander. "Her music continues to inspire people all over the world."

The film stars Blanchett as Loretta, a role that she has described as "one of the most difficult performances of my career." Blanchett has been praised for her portrayal, which has earned her critical acclaim.

"Blanchett is a powerhouse," said Lynn. "She really captures the essence of me."
Comedy fits Segal like glove

By Vernon Scott

HOLLYWOOD (UPI) — George Segal, perhaps the best light comedy actor in movies since Jack Lemmon, is a funny performer who seems to enjoy playing these types of roles. The viewers are happy to see him in these roles. He’s even happy and noisily enough to laugh at his blunder in withdrawing $500 from the wrong bank in film 1130 opposite Doris Duke, leaving the part to Sidney Green, who becomes an overnight success.

There’s a difference between comedians per se and actors who play comedy roles. Stand-up comedians are traditionally never seen in this type of medium. They prefer to keep their acting in the theater and in radio and TV. When the live audience doesn’t or can’t laugh at a sketch of a joke, they say, "It’s a bad line-up," or "They need a good laugh." But Segal, like Segal, always has a good laugh. The audience can’t help but laugh at his lines. This is why I believe he’s a better actor.

It’s a matter of timing and delivery. Segal has a timing that is perfect for comedy. His delivery is steady and smooth. He never rushes or hesitates. This is why Segal is a better actor than most comedians. He has a rhythm and pace that is perfect for comedy. He never stops or starts, he just keeps going. This is why Segal is a better actor than most comedians.

Another thing that makes Segal a better actor is his ability to change his performance according to the situation. He can go from a straight performance to a comedy performance in a matter of seconds. This is why Segal is a better actor than most comedians. He can change his performance according to the situation.

Segal is a better actor than most comedians. He has a timing and delivery that is perfect for comedy. He can change his performance according to the situation. He is a better actor than most comedians.
Beautiful and talented actresses can succeed

By Dick Fletcher

BOLLYWOOD "Star Wars" — Lately it's been a rare thing for fiberglass statues of Darth Vader and Leela to grace the windows of the old-fashioned toy store. But fans of the "Star Wars" film franchise have been able to purchase a new addition to their collections: a fiberglass statue of Star Wars' galactic villain, Darth Vader.

The statue is a nearly life-sized replica of the character, complete with his iconic black and red armor. It is made of fiberglass, which is strong and durable, and is painted in vibrant colors that make it stand out in any room.

The statue is available for purchase at the store's website, where fans can choose from different sizes and styles. The smaller versions are perfect for desks or shelves, while the larger ones can be used as decorative pieces in living rooms or offices.

Fans of the "Star Wars" franchise are excited to add this new addition to their collections. They appreciate the attention to detail in the statue, which recreates Darth Vader's iconic appearance in the films. The fiberglass material also makes it easy to clean and maintain, ensuring that it will last for years to come.

Overall, this fiberglass Darth Vader statue is a must-have for any "Star Wars" fan. Whether you are looking to add a new piece to your collection or simply want to add a touch of nerdiness to your living space, this statue is the perfect choice.
Blatty adds another shocker to film list

Blatty, who ranks among Hollywood’s most enigmatic filmmakers, has a talent for shockers which would seem at odds with his background.

Of Lebanese extraction, Blatty is Jesuit-educated, a graduate of Georgetown University who at one time contemplated entering the priesthood. A novelist and screenwriter, he turned his talents to producing with “The Exorcist.”

The man’s appearance itself is arresting. His skin is swarthy, his black hair is straight with touches of gray. His eyes are extraordinarily large, blue, deep set and filled with pain — as if they’d seen too much of matters better left unseen by man.

He wrote the screenplay for “The Ninth Configuration” from his novel which deals with 27 Marine Corps officers stranded in a French military hospital breakdowns (unrelated to war experiences) in a secret government psychiatric center.

The common thread between “The Exorcist” and “The Ninth Configuration” is in confrontation with spiritual and cerebral interpretations of matters not altogether accounted for by rational examination.

Blatty pushes at emotional, intellectual and ecclesiastical barriers. In “The Ninth Configuration” he deals as shockingly with madness as he did with the occult in “The Exorcist.”

If for no other reason, Blatty’s movies — and they are few in number — seem to be different from those of other writer-directors in that they are made from conviction rather than for commerce or purely in pursuit of art.

Said Blatty, “I prefer the term supernatural to occult. I had to use the powers of darkness in “The Exorcist” because demonic possession is the only manifestation of the supernatural that, on rare occasions, is authentic. I authenticated several such phenomena in the novel and film.

“But I must make a distinction between novel and film because such things in the movie as the child’s hepta-turning years are impossible and did not appear in the book.”

All Friedkin, the director, took artisitic license with some scenes which I objected to. But he was right and I was wrong in fiighting for authenticity in terms of what the audience wanted.

Since its release in 1972, Blatty’s “The Exorcist” has topped box office with $145 million, placing it among the top five or six box-office winners of all time.

Blatty absolutely disavows its sequel, “Exorcist II: The Heretic,” which was a critical and box-office disaster.

“I had nothing to do with it,” he said. “It was a travesty made by people who didn’t believe in the supernatural. It died in three days.”

A exhausted Blatty, who spent 2-1/2 years on “The Ninth Configuration,” said, “It was a killer. I co-financed the $5.5 million budget on the picture. I sold my Malibu dream house to put up half the money.

“It’s been a totally consuming project. I directed it behind the iron curtain in Hungary with Russian troops all over the place. I spent seven months editing and another six months sound mixing, making changes as recently as last week.

“The picture involves spiritual power of a source which may be unknown to many people but known to those who have faith in transcendence, theologically, God.”

Blatty is unsure of the reception of “The Ninth Configuration.”

“It’s barely been released,” he said, “but I learned quickly audiences either think it’s the greatest film ever made or they hate it. But no one leaves the theater without being profoundly stirred.

“The picture keeps pushing buttons inside people for days and days afterward.

“In my opinion ‘The Ninth Configuration’ is like nothing ever seen on screen before because of its effects on the emotions, shock, drama, comedy, horror. But I can’t provide a precise of what it’s about.

“If pressed, I would say it is part M-A-84-H and part Spellbound.”
