Head Asked To Resign

Newark, N.J. (AP) — The Newark Department of Health has asked Mayor Colin Bailey to resign because of his role in a scandal involving the death of a 13-year-old girl.

The 13-year-old girl, identified only as "Casey," died at a New Jersey hospital last week after being treated for bloody bruises.

"Casey" had been under the care of the city's health department, which paid for her medical treatment.

The department's request for Bailey's resignation comes just weeks after the city's health commissioner, Dr. John Collins, resigned in the wake of the "Casey" death.

Head Asked To Resign

Newark, N.J. (AP) — The Newark Department of Health has asked Mayor Colin Bailey to resign because of his role in a scandal involving the death of a 13-year-old girl.

The 13-year-old girl, identified only as "Casey," died at a New Jersey hospital last week after being treated for bloody bruises.

"Casey" had been under the care of the city's health department, which paid for her medical treatment.

The department's request for Bailey's resignation comes just weeks after the city's health commissioner, Dr. John Collins, resigned in the wake of the "Casey" death.

Important Witness Ends Silence In Vesco Probe

WASHINGTON (AP) — A witness who had been serving on a key committee investigating the death of former top aide to former Secretary of State Colin Powell has ended her silence and is now speaking out.

"I've been thinking about this for a long time," the witness said in a statement released by her attorney. "I don't think it's fair to keep this secret any longer. I've been keeping quiet because I felt like it was the right thing to do, but now I don't think it's right to hold back any more."

The witness, Jane Doe, was on the committee investigating the death of Powell's former top aide, James Vesco. Powell has been under scrutiny for his role in the death of his former top aide, who was found dead in his home in 2012.

"I've been keeping quiet because I felt like it was the right thing to do, but now I don't think it's right to hold back any more."
Briefly Noted...

Recent studies have not yet shown that the air and the dust are the same. But it is thought that they are. The dust is made up of small particles of sand which are carried in the air by the wind. This dust is also known as "refined" or "crude" or both. The crude dust is not good to breathe because it contains harmful substances, such as lead and nickel. The refined dust is not as harmful because it contains fewer harmful substances.

Mammoth Undertaking

Several women are trying to organize a new group to help them in their struggle for women's rights. The group is called the "National Women's Rights League." It is made up of women from all over the country who are interested in women's rights. The league is trying to get the United States Congress to pass a law that would give women the right to vote.

Higher And Higher

Benny Graham, a well-known religious leader, has been asked to give a talk at one of the major universities. The university has asked him to give a talk on the subject of religion and science. The talk will be given on Monday afternoon.

Nuclear War Unhealthy

Nuclear war would be unhealthy for everyone. The radiation from nuclear explosions would be toxic to all living things. The radiation would be too strong to be tolerated by any living thing. The radiation would be too strong to be tolerated by any living thing. The radiation would be too strong to be tolerated by any living thing. The radiation would be too strong to be tolerated by any living thing.

Snow Hits In Rockies

Snow is expected to hit the Rocky Mountains this week. The snow is expected to start tomorrow and continue through the weekend. The snow is expected to bring some relief to the drought-stricken region.

Thousands Attend Funeral Of Assassinated Archbishop

The funeral of Archbishop A. was held today. Thousands of people attended the funeral. The funeral was held in the Cathedral of St. John the Baptist. The Archbishop was killed in a car crash on the way to the funeral. The Archbishop was a popular figure in the city and was loved by many.

Gory Scene

A group of schoolchildren were playing in the park when they stumbled upon a bloody scene. They were shocked to see the body of another child lying on the ground. The child had been killed in a hit-and-run accident.

The Boys On The Bus

A group of boys was riding on the bus when they saw a group of men trying to rob a bank. The boys were able to stop the robbers and the money was recovered.
TWA Agrees To Pay Half-Million Refunds

WASHINGTON (AP) - Trans World Airlines Inc. Monday agreed to pay $500,000 to settlement of past claims from passengers who were stranded or delayed at New York's John F. Kennedy airport during a strike by union employees.

The strike, which began July 5, lasted 10 days and forced thousands of passengers to wait for days or longer to reach their destinations.

The settlement was reached after negotiations between TWA and the pilots, flight attendants and ground workers unions.

Cash In Bruno's Car When He Was Killed

PHILADELPHIA (AP) - A $10,000 reward has been offered for information leading to the arrest and conviction of anyone who may have killed a 3-year-old Philadelphia boy whose body was found in his car.

Officials said Wednesday they believe the boy was killed by a man who forced open his car door.

The boy's mother said she had received a $5,000 reward for information leading to the arrest of the person who killed her son.

Fear Major Factor At Three Mile Island Plant

WASHINGTON (AP) - The nuclear power plant at Three Mile Island, Pa., is not a major factor in explaining the nation's electricity needs, according to a new study.

The study, prepared by the Nuclear Regulatory Commission, found that the plant's impact on the nation's electricity supply is much smaller than previously thought.

War Hero Named Archbishop

CANTERBURY (AP) - The Archbishop of Canterbury, Dr. Robert Runcie, has been named a war hero.

Runcie, who served as a pilot in the Royal Air Force during World War II, was awarded the Distinguished Flying Cross for his service.

Consumer Prices Soar

WASHINGTON (AP) - Consumer prices rose 0.4 percent in March, the highest increase in more than a year, the government said Thursday.

The increase was driven by higher prices for food, fuel and other commodities.

Army Officers Freed

MEXICO CITY (AP) - A Mexican army officer was freed Monday after being held for 10 days in a federal jail.

The officer, who was arrested for allegedly planning to assassinate the U.S. ambassador to Mexico, was released on bond.

Hospital Sued By Parents

OKLAHOMA CITY (AP) - The parents of a newborn baby have filed a lawsuit against a hospital, accusing it of negligence.

The parents say their baby was born with a birth defect.

Judge Inspects Location

OKLAHOMA CITY (AP) - Judge John Smith, who is presiding over the trial of a man accused of murder, visited the location where the crime allegedly occurred.

Smith said he was satisfied with the conditions at the location, but said he would continue to investigate the matter.

House Approves Grain Bills

WASHINGTON, D.C. — The House Agriculture Committee has approved the grain bill for the 1982-83 crop year, which would provide $2 billion in subsidies to farmers. The bill, which passed by a vote of 296-108, is expected to be considered by the full House next week.

A recent study found that the current price supports system for grain is not sustainable in the long term. The bill, if approved, would provide $2 billion in subsidies to farmers to help offset the costs of production and marketing.

Oil Lottery Sentencing Set

Oklahoma City — A witness in the oil lottery case was sentenced to a year in prison on Friday, following an agreement that was reached in the case. The witness, who is accused of participating in the lottery, pleaded guilty to one count of wire fraud and was sentenced to 12 months in prison. The witness had been accused of participating in the lottery, which was a popular form of gambling in the state.

Custer Trials Scheduled

Custer, S.D. — The trial of the man accused of the murder of the famous scout, Kit Carson, is scheduled to begin next week. The trial, which will be held in Custer, is expected to last several weeks.

OU Nearing Coach Choice

By J. Blackstone

N.Y. Stock Market Follows Broad Trend Lower

The New York Stock Exchange fell further lower yesterday, extending its present slide to the lowest level in almost three months. Downward pressure on the exchange was exerted by a spate of profit-taking, a series of downgrades, the limited new buying power, and the general market pessimism prevailing in the financial world. The Dow-Jones industrial average dropped another 6.41 points to 133.36, while the New York Stock Exchange Composite Index fell 1.32 points to 301.90.

The market's downward trend was accentuated by a series of profit-taking sales, which accounted for the strong advance in the U.S. Steel Corp. stock. The steel issues, which showed the largest loss of the day, sold off in a free fall, with the steel group reaching a new low of 17 1/2 for the day, and the Dow-Jones average closing at 133.36, a 6.41-point drop. The steel issues were off sharply, with the U.S. Steel Corp. selling at 17 1/2, down 1 point, and the American Steel & Wire Corp. selling at 21 1/2, down 3/4 point.

The market's downward trend was further accentuated by a series of profit-taking sales, which accounted for the strong advance in the U.S. Steel Corp. stock. HARD TO GET TO — EASY TO DEAL WITH
**New Appearance**

The Pontiac Sunbird of 1980 features a new distinctive grille design, with a blacked-out bar that adds a more aggressive look. A new seat design is offered in five colors and new luxury interior trims and sport accent striping are available. The Sunbird is available in coupe, convertible, sport coupe and sport sedans.

**25th Year**

Ford Thunderbird, celebrating its 25th anniversary, has a new exterior design that includes a new grille, front bumper, and side panels. The interior has been revised to add modern amenities. The Thunderbird offers superior comfort and performance.

**Sleek Audi**

Rectangular headlights and new side window shapes define the 1980 Audi 5000. Slanty styling contributes to a low, aerodynamic, 0.35 drag coefficient. This is thanks to fuel economy of 28 miles per gallon on the highway and 19 city mpg. With the automatic transaxle, fuel consumption is further reduced.

Start with a sturdy unibody and add a rugged drivetrain, add to it distinctive race package and a superb suspension system and you have the Volvo 262C. In the 262C the de Dion rear suspension system plus Volvo PG tires, looks ready for the main challenging roads. Thick tires and no frills shocks assure no make the Volvo 262 handles as well as it looks. Its sturdy looks, a high-speed performance make it a reliable companion.
Bally Warm Engine Familiar Problem

By John Gordon

Have a 1969 Marquis with 120,000 miles on it which is in very good condition. The engine is the four-barrel 351 V-8 which has been sitting for approximately 20 minutes in the garage. The temperature of the engine is about 100 degrees Fahrenheit. It has been a problem with the ignition system and the engine has been running hot. The problem seems to be the heat generated by the engine. It has been described as a 'familiar' hot spot. I am still driving a 1991 car with a higher mileage that has never been a problem. The heat is generated by the engine and the system is designed to dissipate it. The engine is properly grounded to the frame and the system is designed to dissipate the heat.

When I pull over with a dead battery, I have to hook up a jump starter, which is a good reminder of how bad the electrical system is. Battery, when considering opening the engine or replacing the battery, there are several things you can do to which are far less costly and may correct the problem.

First, especially in your cold climate, make sure you have a warm, clear battery. Also, you may want to install a new battery, a new alternator, or a new starter. The system is designed to dissipate the heat generated by the engine and the system is designed to dissipate the heat. It may also be helpful to have a new battery and a new alternator installed.

The system is designed to dissipate the heat generated by the engine and the system is designed to dissipate the heat. It may also be helpful to have a new battery and a new alternator installed.

Shop the competition. But first...TEST DRIVE CHRYSLER COROA OR LEBarON.

For 1990 Buick has made no major improvements to the Riviera, although the sporty 4-door and the Tourier 4-door are new. The car is in every way an excellent car. Exterior lighting is in and out according to the light available through a sensor or on top of the instrument panel. A deflection feature allows you to have the lights turned on for up to 5 minutes while the engine is started.

Water Vapor May Cause Car Woes

By Ken Gaffney

Consultant: Dr. David C. Grossman, in the winter, when it is damp or raining, I can't keep the engine running smoothly. I have to use the accelerator, the engine stalls, but after about 30 miles, the engine starts running smoothly again.

What can I do to correct this condition? — Mr. Proctor, N.J.

Dear Mr. Proctor:

The problem you are experiencing is caused by water vapor entering the engine. When the engine is running, the water vapor condenses on the intake manifold and engine block, causing the engine to stall. To correct this problem, you should:

1. Check the engine coolant level and add coolant as needed.
2. Check the engine oil level and add oil as needed.
3. Check the engine air filter and replace if necessary.
4. Check the engine spark plugs and replace if necessary.
5. Check the engine electrical system for any problems.

If these steps do not correct the problem, you should consult a professional mechanic.

Fuel Economy Leader

The Corolla SE is a fuel economy leader, achieving up to 40 mpg in the city and 35 mpg on the highway. It is also equipped with a 1.8-liter 4-cylinder engine and a 4-speed automatic transmission. The Corolla SE is available with a variety of options, including air conditioning, power windows, and a CD player.

Car Questions

I have a 1980 Monte Carlo with a 350-cubic-inch engine. I have recently noticed a decrease in fuel economy. What could be causing this problem? — Mr. Johnson, Ohio

Dear Mr. Johnson:

A decrease in fuel economy can be caused by several factors, including:

1. Improper tire pressure: Underinflated tires increase rolling resistance and decrease fuel efficiency.
2. Incorrect engine maintenance: Regular maintenance, such as oil changes and tune-ups, can help maintain fuel efficiency.
3. Driving habits: Aggressive driving, such as stop-and-go driving, can decrease fuel efficiency.

I recommend you check the tire pressure, have your engine maintained, and drive conservatively to improve fuel efficiency.

Galic Group

The Goric Group is a full-service auto dealership in Oak Creek, Wisconsin. We offer a wide range of new and used vehicles, including Toyota, Honda, and Mazda. Our knowledgeable sales staff is here to help you find the perfect vehicle for your needs.

Car Prices Are Making Volvos Look More Attractive Every Year. 1980 is No Exception.

There are many reasons why Volvos are a great choice, but one of the most important is their price. In 1980, the price of a new Volvo was comparable to the price of a comparable car from another manufacturer. This made Volvos a very attractive option for many drivers.
