Victim Still Missing
Suspect Arrested In City Kidnap

Reagan Expecting State Caucus Win

Major League Schedules, Forecasts, And More!

Reagan, Carter Top Vote

Schools Face Fund Loss

OKLAHOMA CITY — FBI agents said the suspect's girlfriend threw a brick through the car window of the woman she believed to be the missing victim. She then fled the scene and joined the local police force. Later, 35 FBI agents were on the scene, searching for the suspect. The search was focused on a nearby abandoned building. The suspect was not found, but the search continued. The next day, the suspect was arrested at the airport.

Virginia White sits by furniture rescued from a south Tulsa apartment complex fire complex fire which destroyed an entire city block of apartments and forced at least 50 families to leave. Mrs. White and other residents broke into unoccupied apartments to save belongings.

It's Sunday, April 6, And...

...it will be warmer today with the high in the mid-70s. No rain is expected. The evening will be cooler.

Where To Vote, Page 6

There was a tendency of most candidates to write us off, but by having this poll the candidates could see how hard it was to get participation," he said. Each county is asked to report back on the vote, which will be tallied on the results on the polls. The poll shows the voters will vote the same as the candidates.

OKLAHOMA CITY (UPI) — Public officials in Oklahoma said the state's budget was at risk. They were concerned about the state's financial situation and the economic uncertainty.

Schools Face Fund Loss

OKLAHOMA CITY (UPI) — Education officials in Oklahoma said the state's school funding was in jeopardy due to the state's budget crisis. They were concerned about the state's educational system and the impact on students.

Moscow Accuses U.S. Of Afghan Interference

United Press International

Washington (UPI) - Moscow's new envoy to Washington has accused the United States of interfering in the war in Afghanistan. The recent U.S. supply of arms to the Mujahideen was against the wishes of the Afghan government and was a violation of international law.

Analysis

The U.S. has denied the charges, saying it is providing humanitarian aid to the Afghan people.

Ancient Heritage

Statements are frequently made about the heritage of the ancient civilizations, and it is generally accepted that these statements are true. However, there is a tendency to forget that the ancient civilizations also had their own ways of life, and that these ways of life were influenced by their environment. It is important to remember that the ancient civilizations were not only influenced by their environment, but also by the way in which they lived. The ancient civilizations had their own unique ways of life, and it is important to understand these ways of life in order to fully appreciate the heritage of the ancient civilizations.

Bob Greene

Winners, Losers In Life's Board Game

Many people enjoy playing board games, and it is important to understand the strategies and tactics that can be used in order to win. In this article, we will examine the strategies and tactics that can be used in order to win at life's board game. It is important to remember that there is no one right way to play life's board game, and that different strategies and tactics will work for different people. It is important to develop your own strategy and tactics, and to adapt these strategies and tactics to the specific circumstances that you are facing.

Billy Graham

ANATOMY: Your story begins with the heart, and for many people, the heart is the most important organ in the body. The heart is responsible for pumping blood throughout the body, and it is essential for the survival of all living organisms. It is important to understand the anatomy of the heart, and to be aware of the various structures and functions that make up the heart.

Money Talks Loud And Clear On Campus

By Jennifer Thompson

TALLAHASSEE, Fla. — Florida State University students here are feeling more the wrath of the marketplace than the academic one this term, as the satellite news transmitter satellite news transmitter system is.language="en"

The satellite news transmitter, which was installed in the fall, has already been used for several events, including an appearance by former Secretary of State Henry Kissinger. Students have been critical of the system, saying it is too expensive and that they do not receive enough use out of it.

"It's a waste of money," said one student. "We pay for it, but we don't get to use it." Another student added, "It's like having a car but not being able to drive it."

'Tenspeed' Is Year's Big Bust

Gary Deeb

For the last two decades, ABC's reach has been the limit of its ambitions. The network has been content to remain at the bottom of the ratings heap, with its lowest-rated shows often being less popular than their counterparts on other networks.

However, ABC's recent decision to produce its own version of the popular British series 'Tenspeed' has been met with mixed reviews. The show, which stars a young boy who has to deal with the ups and downs of being a speedster, has failed to capture the imagination of viewers.

'Tenspeed' was originally pitched as a show that would appeal to kids, but it has been criticized for being too mature for its target audience. The show's writing has also been called weak, with many episodes feeling derivative of other shows that have come before.

Despite the show's failings, ABC has been determined to keep it on the air, with executives insisting that it is simply too late to make changes. The network has also been criticized for its lack of original programming, with many of its shows simply being adaptations of movies or TV shows from other networks.

As for the future of 'Tenspeed', it remains to be seen. Many viewers have expressed their disappointment with the show, and there is little hope that ABC will be able to turn it around. For now, it appears that 'Tenspeed' will continue to be a ratings dud for the network.
Knowing How To Comply

Defangs Many Regulations

By Sue Fraser

WASHINGTON (AP) — The Senate Finance Committee is

expected to approve a bill that would ease some of the

burden of complying with federal regulations. The

measure appears to be a response to complaints from

businesses that the current system is too complex and

costly.

The bill would require agencies to consider a variety

of factors when drafting regulations, including the

burden they impose on businesses and the benefits they

provide. It would also give businesses more input into

the rule-making process.

Several senators said they were concerned that the

current system was too costly and time-consuming for

businesses, particularly small businesses.

"This is a common-sense approach to regulations," said Sen.

John Barrasso, R-Wyo. "It's not about deregulating,

but rather about finding a balance that makes sense for

businesses and the public."

LISTINGS FOR APRIL 8 THROUGH APRIL 12

KENNY ROGERS MAKES HIS DRAMATIC DEBUT IN "KENNY ROGERS AS THE CEMETERY" THURSDAY NIGHT ON CBS.
LIVE AND LIVELY: Watch NBC this Monday night (April 7) when stageplays return to television. How long has it been since viewers have had an opportunity to taste such fare? This, the first in a series, will originate at Southern Methodist University in Dallas, and will star Henry Fonda in "The Oldest Living Graduate." It is a charming story about an old man who wants his world to remain unchanged. I was discussing this program at lunch with two business friends, and one of them asked, "But why must you make that proven play like this one? Why not an original drama?" It was a question that was on my mind all week. The preparation of this column requires me to look back several weeks, and it is easy to be misled by events that have occurred. I am reminded of something that happened to me several months ago. I went to see "The Oldest Living Graduate" and it was an enjoyable experience. I think you will be sorry that this is a "proven play." It is a joy to watch.

NO COINCIDENCE: If you watch "The CBS Tuesday Night Movie" this week (April 8), don't think it is a coincidence that the title of the Kenny Rogers movie is the same as his best-selling album, "The Gambler." CBS decided if they were going to gamble on the first performance of Kenny Rogers as a dramatic actor, they had better do it with a theme that would help viewers accept him in his new role. And "The Gambler" was at the top of the record charts for seven months last year!...Don't put it down to coin-

cidence that Jimmy Carter and Dr. Milton Friedman never happen to be at the same party after what the Nobel Prize-winning economist said on ABC's "Good Morning America." "There's only one way to fight inflation," Friedman insisted. "That's for the government to print less money and spend less money. Inflation is made in Washington and nowhere else..." If you decide to try out for "Taxi," don't think it is a coincidence that more actors show up for casting on other series as a result of the series that is completed in rehearsal, each actor is offered a chance to make suggestions on what should be changed. That's an actor's chance to come up with their own ideas.

QUICK CHANGE: From last to first, the movie "The Gambler" has won the title of the most popular series on television. The reason is that it is a good series. And "The Gambler" was at the top of the record charts for seven months last year!...Don't put it down to coinci-

dence that Jimmy Carter and Dr. Milton Friedman never happen to be at the same party after what the Nobel Prize-winning economist said on ABC's "Good Morning America." "There's only one way to fight inflation," Friedman insisted. "That's for the government to print less money and spend less money. Inflation is made in Washington and nowhere else..." If you decide to try out for "Taxi," don't think it is a coincidence that more actors show up for casting on other series as a result of the series that is completed in rehearsal, each actor is offered a chance to make suggestions on what should be changed. That's an actor's chance to come up with their own ideas.

Ours will be one of the first new shows in the 1980s," said Larry Gelbart about his new series, "and I want it to have a look and feel that is new, fresh and different from the new decade. We're certainly not cut out to be cookie-cutter, 'United States,'" is not just a situation comedy about two single people and their funny neighborhood.

Now I have had the opportunity to see several episodes of "United States," (on NBC at Saturday nights). I can tell you that I agree completely with Gelbart. His series is new and different, and it is not a situation comedy. The only problem is that it is not an entertainment.

Those words are not said lightly. This is one series I really wanted to like. With half of the television season being more than a poorly camouflaged imitation of the other half, the thought of a truly unique series is enough to bring bright lights to the eyes of even the most television-obsessed. But "United States" is not just a situation comedy. It is a new and promising television show. I have my own share of arguments and have been forced to listen uncomfortably to many others. But "United States" is a good idea of entertainment. The same may be said about the idea of life's most serious problems.

I have my own share of arguments and have been forced to listen uncomfortably to many others. But "United States" is a good idea of entertainment. The same may be said about the idea of life's most serious problems.

In addition, the problems faced by this family are much more serious. The series has a clear and present danger to the family, and it is a life-saving show. The series is a good idea of entertainment. The same may be said about the idea of life's most serious problems.

"United States" is a bore! And I'm very sorry about that.

A look at "United States" By Grace C. Biggers

"United States" is a bore! And I'm very sorry about that.
"One Last Ride"

Ronny Cox stars as Tracy Gibbs, a former All-Around rodeo champ who is suddenly confronted with the necessity of raising his 10-year-old son on his own. "One Last Ride," a five-part mini-series, stars Danyel Darago and Andrew Duggan, to be broadcast on "The CBS Afternoon Playhouse," Monday, April 6 through Friday, April 10 (3:00-3:30 p.m., each day) on the CBS Television Network.

When Tracy Gibbs receives word that the wife he deserted long ago has died, he must claim and provide for the 10-year-old son he has never known. But Tracy, a hard-drinking former rodeo performer, is hardly prepared for the responsibility of raising an All-Around rodeo champion, especially with a new wife and a new son in the picture.

EPISODE 5—While training Tracy, Tracy begins to show some of his old form and Ben tries to convince him he can be the rodeo champ he once was. But Tracy is paralyzed by self-doubt. And although Ben assures him of his love, Tracy knows that, unless he wants to remain a frustrated has-been, he must make "one last ride." Ronny Cox, a native of New Mexico and a one-time ranch hand, starred in the series' "The Wild Dog," his feature film credits include "The Onion Field," "Gray Lady Down" and "The 100-Year-Old Man Who Climbed Out the Window and Vanished."
tempered building, is mistaken by a flock of chicks for their mother and is chased by a seal.

The Journal

CHARLTON HESTON, in his classic portrayal of Moses, with Sir Cedric Hardwicke and Yul Brynner, [L to R], stars in the epic film spectacular, "THE TEN COMMANDMENTS."

as Pharaoh, Anne Baxter as Queen Nefretiri, Edward G. Robinson as overseer of the slaves and Yvonne DeCarlo as Moses' wife.

Others starred in the cast of more than 25,000 are Debra Paget, John Derek, Sir Cedric Hardwicke, Nina Foch, Martha Scott, Judith Anderson and Vincent Price.

The screenplay, more voluminous than any major novel, is based on the study of the King James and Douay versions of the Holy Scriptures, and the "Pentateuch and Haggadah," edited by the Chief Rabbi of the British Empire. The Koran, the Midrash, the Mishnah and the works of Philo, Josephus and Eusebius were searched to fill in the 3,000 year period of Moses' life that is omitted in the Book of Exodus.

RONION

John Ritter, whose dream of becoming a pitching star is
dashed when he is cut by his minor league baseball team, finds
new meaning to his life as a playground supervisor to a
group of street kids in "The Comback Kid," airing as the
ABC Family Night Movie, April 11 (8:00-10:00 p.m.) on the
ABC Television Network.

Sports Calendar

HEADS UP
Is the soccer season already upon us? Not quite, but this
Sunday afternoon (April 8) ABC will present a North
American Soccer League Special with an in-depth look at the
talents of the game as well as some exciting game action.

Incidently, the increasing popularity of soccer has ABC expanding its schedule this year. Instead of the five regular season games offered in 1979 scattered over eleven weeks, with some games on Sundays, some on Saturdays, there
will be a total of six games in 1980, and all of them will be played on Sunday afternoon over a period of just seven weeks. The only break in the consecutive Sunday schedule which begins May 15 will occur on June 15 when ABC Sports
bears time out from soccer to present the final day of the U.S. Open Golf Championship.

QUICK CUNT
If soccer is not your cup of tea, then nothing could
be "finer" than to be guests with Dinah this Sunday afternoon
(April 6) on NBC for the final round of her Winner's Circle
Golf Tournament from Palm Springs, Ca. The competition
may not be quite as keen as usual this year, but sudden-death
is still a very real possibility... Will you be at home this
weekend, Monday to Friday, if you are in the latest field? If the answer is yes, then tune in to CBS' Afternoon Playhouse for a five-foot-part
story titled "One Last Ride." It's a tender tale about a bashed-up
rodeo rider and his ten-year-old son. Prepare for tears.

Speaking of rodeo competition, Jackie Cooper is directing a new two-hour movie for CBS titled "Red Rock Girl." Stars are Katharine Ross and Bob Hopkins, and the script
is based on the true story of Sue Prittle, 7-times a women's world
champion rodeo star.

**Friendship tested on "Taxi"**

Bobby and Tony's friendship is on the line when they become embroiled in a hilarious love triangle and attempt to outdo each other in a betting war for the affections of a beautiful young lady in the ABC Television Network's "Taxi," Tuesday, April 8 (8:30-9:00 p.m.) (R) in "A Woman Between Friends" from the moment the pretty Janine arrives at Mario's bar and grill, Bobby and Tony are locked in battle for her affections. Alex and Elaine attempt to mediate the affair without success until they hit upon the idea that Alex should ask Janine to choose between the two Romans. At the crucial moment, neither Bobby nor Tony is prepared for her verdict.

---

Eve Plumb (center) portrays a young woman permanently disabled in an auto accident—destroying her brilliant career as a swimmer and potential as an Olympic gold medalist—who comes to Mr. Roark's island in search of a cure but instead finds a group of handicapped children who need her help in "The Swimmer," a segment of the ABC Television Network's "Fantasy Island," airing Saturday, April 12 (9:00-10:00 p.m.).
Johnny's confidence is shaken

Johnny Capper battles his way through the regional layouts for the U.S. Olympic boxing team, but just before the final fight, his confidence and concentration are shaken by an emotional confrontation with his girlfriend, on "The Contender," Thursday, April 10 (9:00-10:00 p.m.) on the CBS Television Network. Sutton Roley directed from a teleplay by Howard Berk, the program's producer.

In the heat of the Northwest boxing eliminations in Portland, Ore., Jill Sinden shows up. Repelled by boxing, she can't comprehend Johnny's dream of making the Olympics and demands that he make a final decision about his relationship with her.

Anxiously, Johnny disappears into the night, seeking to forget his problems. Later, in a seedy bar, he is recognized by certain persons who would stop at nothing to debilitate him before his final bout the next morning.

**Mailbag**

NECK NOTE
Q: I've always wondered who the writer was on "Star Trek" that came up with the idea of having Leonard Nimoy (Mr. Spock) knock out people by putting his hand on their necks.
A: It was, surprisingly enough, Leonard Nimoy who invented this method. When one of the first episodes of the series called for the actor to attack an enemy in the eyory with an instrument, he thought the instruction sounded out of character. Instead, he suggested he 'pinch a nerv' to put him out of commission. The show's writers liked the gimmick so much that they used it again and again until the series ended.

FIRST FILM
Q: My sister and I are having a fight about Cindy Williams from "Laverne and Shirley." Isn't it true that the first movie she ever made was "American Graffiti"? What films did she do before that? Also, does she have any brothers or sisters?
A: Although Williams is best known for her role in "American Graffiti," the actress actually made her motion picture debut in George Cukor's "Travels With My Aunt." There soon followed, in addition to Graffiti," such films as "The Conversation," "Gas," "Drive, He Said," and "Beware The Blob." Cindy has a younger sister named Carol, as well as an older half-brother named Jim.

LUCY AND DESI
A: Lucille Ball and Desi Arnaz first met when they appeared together in the film, "Too Many Girls," a production which Desi had originally starred in on the Broadway stage. The two were wed November 30, 1940 in Connecticut.

(For an answer to your question about any TV program or actor, write to Mailbag, care of Tel-Aire Publications, 212 McKinney, Dallas, Texas, 75201)
"Nurse" premieres on CBS

Emmy Award-winner Michael Learned stars in "Nurse," a sensitive dramatic special focusing on the personal and professional life of a contemporary nurse in a bustling metropolitan hospital, to be broadcast Wednesday, April 9 (8:00-10:00 p.m.) on the Network. Also starring in the drama, based on the best seller of the same title by Peggy Anderson, are Robert Reed, Tom Aldridge and Hattie Winston, with a special appearance by Arturo Fernandez. Jon Matthews is introduced in the role of Chip Benjaimn.

Filmed on location in New York, "Nurse" presents a portrait of a young woman who would sooner remain a doctor's half-hearted, non-professional responsible at every working moment for the lives of the patients in her charge. Mary Benjamin (Miss Learned), recently widowed and confronted with her son's departure for college, resumes her career as head nurse in a large urban hospital. Assigned to a general medical surgical ward, she tenaciously begins supervising patients and staff—her own confidence put to the test by a staff surgeon, Kenneth Rose (Reed).

An accomplished and motivated specialist, Mary establishes rapport with her patients and develops an especially close and caring relationship with a terminally ill ex-cop, Kelly O’Brien (Aldridge). She also learns to cope with the daily travails created in the ward by patient Marshall Francis Gripp (Fargas).

Gradually, Mary achieves a balance between her personal and professional life, adjusting to her role as a single parent and enjoying her independence. At the same time, she effectively deals with the subtle relationships of the hospital world, gaining the admiration and respect of her colleagues for the precision and care she lends to the hospital corridors.

"Nurse," a Robert Haimi Production, was produced by Haimi and directed by David Lowell Rich from a teleplay by Sue Grafton.

Michael Learned, a three-time Emmy Award-winner for her role as Olivia Walton on the long-running "The Waltons" series on the Network, spent six years as a leading lady with the American Conservatory Theater in San Francisco. There, she starred in "The Merchant of Venice," "Private Lives," "The Importance of Being Earnest" and "Miss Margarida's Way." Her other stage credits include leading roles in "Under Milk Wood," "Tartuffe" and "Doodle Dumpling, My Son." On stage, Miss Learned has also appeared in such television series as "Gunsmoke" on the Network, and "Police Story." She starred in the television special "Widow" and in "Little Moe," a motion picture for television.

Versatile Robert Reed has starred in such series as "Defenders," "The Waltons," "The Bachelor Party" and "Operation: Runaway." He is a two-time Emmy nominee for his performance in the "Rich Man, Poor Man" mini-series and for his role in an episode of "Medical Center." Reed also appeared in the mini-series "Roots" and in the motion pictures-for-television, "Boy in the Plastic Bubble," "Nightmare in Badham County," "The Secret Night Caller," "Love Boat II." On Broadway he starred in "Barefoot in the Park" and in Richard Rodgers "Avanti!" Among his feature film credits are "Hurry Sundown" and "Star." Reed will host this season on CBS in a new program on "Golden Pond." His Broadway credits include "The Nervous Set," "The Iceman Cometh," "Ibsen's Tragedy," "Everything in the Garden." "The Leaf People" and "Dox," Aldridge is the recipient of two Tony Award nominations for his performance in "Where's Charley?" and his role in "Sticks and Bones."-a performance he recreated for the Network special of the same title. Aldridge also won an Emmy Award for his role as Shakespeare in "Henry the Ninth Meets William Shakespeare" on the Network.

David Lowell Rich directed the award-winning "GE Theater" drama special, "The Detection of Sima Kudikha," "The Secret Life of John Chapman" and "Alfredo and the World." He also directed several "Movie of the Week" presentations, including "Death Race," "Satan's School for Girls," "Runaway" and "All My Darling Daughters." His feature film credits include "A Lovely Way to Die" and "Madame X."

"Fridays," the ABC Television Network's innovative, youthful, witty and irreverent new late-night series, will feature a repertory company of young comedy players—Brandi Kemp, Darryl Igoe, John Roake (background, left to right), Mark Blankfield, Bruce Mahler, Maryedith Burrell, Melanie Chantoff, Larry David and Michael Richards (foreground, left to right)—who will be introduced in the series which premiers Friday, April 11 (10:30-11:30 p.m.). The fast-paced comedy series will be laced with up-to-the-minute humor and spiced with the appearances of many of the nation's leading musical stars.

8:00 p.m. "FARMER'S DAUGHTERS" * * * * * *
47 Loretta Young, Joseph Cotten. Fiery Swedish singer fights boyfriend for a Congressional seat.

FONDA IN LIVE DRAMA

Henry Fonda stars as the oldest—and Saitiest—living graduate of a Texas military academy, who has outlived his many friends but not his cherished memories in "The Oldest Living Graduate," the first NBC-TV presentation of important contemporary plays developed at regional theaters around the country. It will be telecast live from Dallas, Texas, Monday, April 7 (8:00-10:00 p.m.).
Kenny Rogers makes drama debut

Ronnie Scribben portrays the son of an aging gambler, and Lee Purcell plays a society woman with a shady past.

Kenny Rogers, one of the brightest stars in the entertainment world today, makes his drama debut in "Kenny Rogers as The Gambler," an exciting new motion picture-television to be broadcast on "The CBS Tuesday Night Movies," Tuesday, April 8 (8:30-10:00 p.m.) on the CBS television network.

Other stars in the film, in alphabetical order, are Christine Barfield, Bruce Boxleitner, Harold Gould, Cy Grant, Murray, Lee Purcell, and Ronnie Scribben.

The western adventure is set in the Southwest during the 1920s. The story is by Jim Byrnes, who wrote a narrative songbook from the lyrics from Kenny Rogers' hit single of the same title. Last October, "The Gambler" won the Grammy Award at the 16th annual Country Music Association Awards, and Rogers' album, "The Gambler," was named Album of the Year. On February 27, during the 32nd annual Grammy Awards show, Rogers' rendition of "The Gambler" won him the coveted award for Best Country Vocal Performance, Male.

The film, a production of Knapp & Company, was produced by Ken Knapp and Byrnes and directed by Eldo Lowry.

The story concerns Brady Haws (Rogers), a cool, steady-eyed professional gambler who plays the rules and knows the power of a good bluff. Brady sets out by train from San Francisco to Yuma, responding to a plea from a son (Scribben) he never knew he had. He is the most dangerous man Brady ever met, because he knows that his son's dead mother, Ruby Bennett (Gould), has a drinking problem and will try to ambush him.

Along the way, Brady falls in with Billy Montoya, an impetuous young gambler (Boxleitner), and Jennie Reed, a society woman with a shady past (Purcell). In separate encounters with the arrogant railroad owner (Gould) in his private car and with a gang of cutthroats in a way-station town, Brady finds Jennie and Billy before having to face his own private showdown with Bennett.

Kenny Rogers

Kenny Rogers is one of the most popular entertainers in the world. By the time he was 40 years old, he had sold well over $100 million worth of records. In the last six months of 1978 alone, his fans bought over 10,000,000 copies of his albums. His concerts regularly set attendance records.

Rogers' album, "The Gambler," was at the top of Record World magazine's country chart for seven months last year and was among the top 20 albums on the pop charts. In the last two years, he has won upwards of 20 major awards, including the aforementioned Grammy Award for best country vocal performance.

Christine Barfield starred in the series "Married: The First Year" and "The Legal Wives" on ABC. She is also a regular on "The Gambler." She has made guest appearances in such series as "Run for Your Life," "Baretta," "Galactica," "The White Shadow," and "The Paper Chase.

Bruce Boxleitner starred in Dallas. He is a regular on "The Gambler." He is also a regular on "The Gambler." He is also a regular on "The Gambler." He is also a regular on "The Gambler." Warning: The Surgeon General Has Determined That Cigarette Smoking Is Dangerous to Your Health
ASK THEM YOURSELF

FOR PHILIP KINGSLEY, his spec-

and author of The Complete Hair

Book

Is there any hope for solving handi-

The problem was discussed at great

length in Germany, at the Hamburg

International Handicap Congress. Our

conclusions are that, at present, there is

no surefire cure for any sort of handi-

ability. Inside patterns. However,

it is thought that during the decade

there will be a move of at least amazing

by the use of typically applied "not in-

cluding." An important point, though,

is that there are as often other losses

that add to genetic hair loss: nutrition, scalp condition and hair condition, nutritional

deviation, endocrine imbalance, stress, hair products, radiation and stress.

Therefore, by taking as much care as possible of all the other aspects, the degree of

hair loss can be considerably decreased.

FOR HODDING CARTER III, assistant secretary for

Public Affairs and State Department spokesman

What has become of the Stars & Stripes launched by

Panama City in the transition ceremonies? —Nina C.

Avery, Smith Center, N.C.

The American flag was loaned from the flagpole in front

of the Panama Canal administration building on the evening

of Sept. 30, 1979, and was presented to General Harold

Johnson, acting governor of the Canal Zone and

president of the Panama Canal Company.

FOR GINA HECHT, of ABC-TV's Mark &消灭

On a recent episode, I noticed a romantic involvement

between you and Robin Williams. Does this mean that

you and Robin have actually shared Egyptian ballet

Absolutely not. The purpose of the episode to which you refer was to develop the character I was playing a bit more. At some point, Anna (the character I play) found out that she was resembling Mark's affection for her. Mark's inten-

tion was to make her feel less lonely.

FOR TEDDY PENDERGRASS, recording star

Are you as much of a hollister as you are an singer? —T.L., Ten.

No. What I mean is, I'm very low key. Real men are the kind who aren't intimidated by career women. Too

many men are busy trying to compete with them. They have a certain ability to tend. They strive as hard to be super-

human. When women react to that, the man says, "Oh, she's up about everything." I try to develop a climate of un-

conscious and communication.

- RO SENATOR HOWELL J. HEDGES, JR. (D-AK) Chairman

Senator Select Committee on Ethics

The Constitution states that Con-

gress is to judge the conduct of its

members and to punish those guilty

of unbecoming behavior and, with a

two-thirds concurrence, expel a

member. The Constitution is clear that it

is the responsibility of the Senate to judge the conduct of its members, and the

Senate Ethics Committee is charged

with the specific task of investigating

concrete and deliberate breaches of

the Senate's standards. In the case of

a conviction, a Senate is to expel the

Senator from further service. The

Senate is the responsibility of the

Senator.

FOR THE "ASK" EDITOR

Gren, Hollywood, Fla.

Some people really do. To answer your question, we checked with Jane

White, pianist of Colorado Women's College, Denver, and the result is the wide range of weekly habits. Some

people like to eat twice a week while others feel that their weekly habits are the same. Others feel that the

amount of food is much less, and that feeling is more of a freedom. Some people feel that the weekly

habit is much less, and that feeling is more of a freedom. Some people feel that the weekly

habit is much less, and that feeling is more of a freedom. Some people feel that the weekly

habit is much less, and that feeling is more of a freedom.

FOR NATALIE WOOD, co-star of The Last Married

Couple in America

Do you regret the years you spent in psychotherapy? — W.F., Whittier, Calif.

No, I don't. I think it helped me a lot. I know now that because I had worked so much as a child, there was so much

repression in my life when I was growing up that I did not have a clearly defined picture of where therapy started and

readily began. I questioned whether I really wanted to want a therapy". I questioned whether I really wanted to want a

therapy. I questioned whether I really wanted to want a therapy. I questioned whether I really wanted to want a

therapy. I questioned whether I really wanted to want a therapy.

FOR GIACARLO GIANNINI, star of The Immortal

Bachelor

Since you act with American actresses as well as Italian

actress, would you like to make a comparison? — E.L. Garrett, Iowa

As far as how they are different, I think it mostly a matter of temperament. When the British woman is quick to laugh, when she's in love, she's tenacious or co. But an American woman, she's more "reserved" about her feelings. She controls her emotions more.

FOR ELMIR KLIN, co-author of Dance

How can people write a novel? — R.B., Austin, S.C.

Sure. Today, an expert of 35 years, and I decided to do something together. We began a book which ended up as

the story of our love, which we then worked on together. Next was to retell the story to various publishing houses, to

see who our stories are, which are ours. As for the books, we worked on the stories between characters and plot.

- CONSENATOR LEWIS WEXBERG JR. (R-CO), member

Senate Appropriations Committee

No. What is involved is a subject of

defense by the constituents. What is

involved is the determination of a special prosecutor. At present, the

voters aren't too interested in what

35 percent turnout in the 1976 elec-

tions. That's all. Congress doesn't

know, as we have no special prosecutor

seven years after the Watergate

hearings. If representative democracy is to work honestly and well, the conscience had best be the choice of an

independent majority. If Congress is to be believed, then the law had best be applied as to Congress

professors to apply the law for the nation.

WILLIE STARGELL
He's "Pops" (and Tops) To His Teammates And His Kids

By Mark Goodman

When Willie Stargell was a boy growing up in Cincinnati, Ohio, he recalls, "I'd walk along hitting tees with a stick, and people would come up and ask me why. I'd say, 'I was going to be a pitcher.' They'd laugh and say, 'You're in the projects.'"

Now, post-retirement and with the Pirates, he's making quite a name for himself. Stargell, the 39-year-old right fielder with the Pirates, is not only a valuable player for the team, but also a father of four children.

Stargell himself has the record to keep in touch with the history of the past few months, when he became the first 30-year-old to hit 25 home runs in 1979. In fact, he's the only player in baseball history to hit 25 or more home runs in 20 consecutive seasons. Stargell is currently hitting .330 for the Pirates.

Stargell's kids are his pride and joy. "I've always been a family man," he says. "I've been married to my wife, Joan, for 23 years, and we have four kids: Darby, who's 10, and the three boys, Jake, 12, Ryan, 14, and Matt, 16."

Stargell is known for his family, and family is everything to him. "I love my kids so much," he says. "They mean everything to me, and I try to be the best father I can be for them."

Stargell is also known for his love of the game and his dedication to it. "I love baseball," he says. "It's my life, and I'll keep playing as long as I can."

Stargell's kids are just as passionate about baseball as he is. "They love the game just as much as I do," he says. "They're always asking me questions about baseball, and I try to answer them the best I can."

Stargell's kids are not only his pride and joy, but they are also his greatest inspiration. "They motivate me to keep playing, and they make me want to be the best player I can be," he says. "I want to make them proud of me."
How to Poisonproof Your Home

The year an estimated 5 million to 10 million children will be involved in accidents involving household products. Seventy-five percent of accidents involving these products occur when the products are not locked. Dr. Anthony Temple, president-elect of the American Association of Poison Control Centers, says, "Including vitamins and pain pills, there are also a potential danger for children. Children have a tendency to copy their parent's behavior."

Here are four ways to protect your child:

1. Store household products and medications separately, out of reach of children, lock them up when possible.

2. When taking medicines or drugs, do not save the children's reach.

3. Keep telephone numbers of your physician or poison control center on hand and attach to your telephone; educate older children and family members how to use the numbers.

4. Though prevention is essential, you should also be aware of the early signs of poisoning. These include nausea, vomiting, rapid breathing, or sleepiness; sometimes visual and hearing problems on the face or tongue.

If a poisoning occurs, try to find the particular substance swallowed, especially if the child is able to talk. Give the child water or milk, if possible.

Several telephone numbers can save lives:

The Poison Control Center in your area can offer emergency advice.

If a child has ingested a household product that you do not know, contact the manufacturer of the product.

If your child is a poor reader—see how phonics can help him

Try it at your risk for two weeks!

See how your child can learn to read better and spell better in just a few weeks with records that teach him phonics, at home!

Mail Free Trial Coupon below.

Would you like to see your child gain as much as a full year's grade in reading in as little as six weeks' time? These are results parents have seen again and again with this simple home-tutoring course in reading.

Mrs. J. J. Webb, Napa, Cal., writes: "After sending my 7-year-old son to Special Reading School at $12.50 per hour, spending $800 in this tutoring, I saw your ad and sent for The Sound Way to Easy Reading. In only 6 weeks he learned more from your course than from his Special Reading School. I am thrilled to see how quickly he is learning." Mrs. J. J. Webb is only one of over 750,000 parents who have turned to The Sound Way to Easy Reading for help in the frustrating problem of teaching a child who can't read. And more than 60,000 schools use it.

Teachers with records

Don't think it's all your child's fault if he hasn't learned to read. Many of our bright children are not able to grasp the "look-and-say" method taught in most schools today. Yet many educators insist that at least 40% of our school children have formal training in phonics—that they will never master reading without it.

That is why so many poor readers show remarkable progress with The Sound Way to Easy Reading. It teaches reading by the phonics method (the method by which most parents learned to read years ago). Its phonogram records and charts show your child exactly what to do so he can teach himself without any help from you.

The records will help him in the sounds of the 86 letters in the alphabet and their blends. Once he learns the 126 basic phonics sounds in this course, he can read up to 85% of the words in the English language. It works for children of all ages—in the earliest grades, and even in high school.

Tested and proved

In a pilot study with university psychology students, guided by a full year's grade in oral reading skill after only 30 lessons with The Sound Way to Easy Reading.

A seminar-long study involving 214 pupils in 4 Chicago schools proved that the classes given The Sound Way to Easy Reading showed marked improvement in reading and spelling over the control groups.

Help your child now

By starting your child on The Sound Way to Easy Reading now, you can change his entire attitude toward school—turn his sense of failure into the joy of success. Try it free for two weeks. You send no money—just mail this coupon now!

HEALTH
Facts & Fallacies
By Dr. Frederick J. Stare and Dr. Elizabeth M. Whelan

IF YOU NEED TO BUILD UP YOUR BLOOD VITAMINS

Iron poor blood is the most widespread nutritional ailment in America today. In fact, it's a problem that millions of American women face. And all the vitamins in the world can't help, because vitamins don't contain iron.

Take Geritol, America's #1 iron and vitamin supplement. Geritol is so rich in iron, just one tablet each day gives you more iron than even a pound of calf's liver. Plus vitamins important to your health.

Geritol will actually build iron poor blood back to normal. That's what makes it different from just plain vitamins—and so important to you.

There are hundreds of career opportunities you may qualify for—in today's Armed Forces. No experience needed. The people you see on this page are real. The skills they're performing are real. And they learned them in the Service. From scratch.

Each branch of the Armed Forces offers a wide variety of training programs that can pay off for a lifetime. Excellent benefits and allowances—too—like medical and dental care. Food. Housing. Uniforms. You'll earn thirty days of vacation with pay each year. And have the chance to travel, further your education, and serve your country.

It's your future. Start building it today. Get the facts. Send in the reply card. Or talk to your local recruiter. There's no obligation.
Helpful Recipes Using Easter Sunday Leftovers

Start the week with a smile and use these easy recipes planned to dress-up your remaining holiday fare.

By Marilyn Hansen

PINEAPPLE SUSHI DIP
1 can pineapple chunks, drained
1/2 cup sour cream
1/2 tsp. dry mustard
1/4 tsp. salt
1/4 tsp. sugar
Dash of pepper

Mix all ingredients. Serve over vegetables. Serves 3 to 4.

Middle Eastern Pilaf
1 cup long grain rice
1/2 cup dried apricots, chopped
1/2 cup raisins
1/2 cup chopped nuts
1/2 cup raisins
1/2 cup water
2 tsp. salt
1 tsp. sugar
1/2 tsp. ground cinnamon

EGG-AND-CHEESE NOODLE KIM CHI
6 oz. uncooked egg noodles
6 eggs
1/2 cup milk
1/2 cup grated Cheddar cheese

Cook noodles according to package directions. Meanwhile, beat eggs and milk. Pour into a mixing bowl. Add cheese. Mix well. Pour over cooked noodles. Bake at 350°F for 30 minutes or until set. Serves 4.

CURRY-RICE EGG DROP SOUP
1 cup rice
2 cups water
2 cups chicken broth
1 can (10 oz.) cream of mushroom soup
1/2 tsp. curry powder

CHINESE CHICKEN RICE
1 cup rice
2 cups water
1 chicken breast
1/2 cup sliced green onions
1 can (14 oz.) Chinese chicken sauce

GARNISH WITH GREEN ONIONS OR SLICED PEPPERS.
An Amazing New Diet Idea!

HOW TO BURN OFF BODY FAT, HOUR-BY-HOUR!

MEDICAL DOCTOR’S NEW DISCOVERY
BURNS AWAY MORE FAT AND FLUID
THAN IF YOU RAN 98 MILES PER WEEK!

DEAR FRIEND, 

The name is Dr. Schlichtler, and I am a medical doctor here in San Diego for 15 years. 

I am writing to you at the bottom of this page and I am asking you to ask the people of America a personal question. 

If any of you will do this favor for me, you will be the only one to get the cure to the problem that is killing America. 

Here is what it is all about: I am a medical doctor and in addition to my duties, I have been treating patients with AIDS and I have been dealing with many things that are killing them. 

And strangely enough, over the years, my practice has taught me that my eating is even more difficult to deal with than the disease itself. 

Some time ago I began to realize that the average woman is eating more than just a diet. I now know that we eat not only the very unappetizing foods that we do, but we eat very, very poorly. 

I knew that we were eating all kinds of things that were not good for us. I knew that we were eating all kinds of things that were not good for our health. 

And that, of course, is why I came up with this new idea of a new diet and what I call it by myself. 

Believe it or not, my new diet system actually is very simple. It’s very fast and fluid and thin and as you gain 10 pounds a week. 

So many of the people who have tried my program have lost as much as 5 pounds a week. In fact, a number of them have lost as much as 10 pounds a week. In fact, a number of them have lost as much as 10 pounds a week. 

And I’ve had people tell me that they have lost as much as 20 pounds a week. 

One of the things that we have spent the most time in other diets is that they are too fluid and thin to even count as a 5 pound or 10 pound weight loss. This is not the case with our new system. 

The first thing that you should do is just go to the store and get a bag of flour and a bag of sugar. 

But I need a lot of proof in order to get my entire system put through this. 

And that’s why I have written this to you. 

So in the future, I will continue to write letters like this to those who are interested in learning more about this new system. 

I am looking forward to the opportunity to help you and your family in the future. 

VITAL NOTE! PLEASE FOLLOW THE INSTRUCTIONS BELOW AND DO NOT ORDER ANYTHING TO ORDER THIS Amazing DIET SYSTEM.

Dr. Schlichtler

...Imagine how it must feel to be up in the morning, and to drink and shrink your waistline up to 13 inches the first week...

VITAL NOTE! PLEASE FOLLOW THE INSTRUCTIONS BELOW AND DO NOT ORDER ANYTHING TO ORDER THIS Amazing DIET SYSTEM.

Dr. Schlichtler

...The amazing thing, of course, is the speed at which this program works. It is rather remarkable to throw off as much as 6 pounds of fluid and fat in the first day.

Male Infertility: It Can Be Treated

By Paula Dronan

The waiting room of doctors at Richard Anderlini and Lawrence Dubin’s New York City office is decorated with arrangements of palm trees and busy people, pictures of the work they do. All are men. Anderlini and Dubin’s New York are among the country’s busiest medical specialists in the field.

While there has been a great deal of attention paid to male infertility, few treatments have been as widespread as those currently used. Men who are responsible for 30 percent of all infertility and play a significant role in another 20 percent — that is, in those cases where male and female problems overlap. Males, many of these male disorders can be treated successfully with drugs or surgery. “Thirty percent of men can be treated.”

Just what are those treatable cases of male infertility? And how quickly can they be diagnosed and treated?

In up to half of all childless couples, it’s the man who isn’t fertile — but there’s help available.

When a woman has been trying to conceive for an extended time to get pregnant, she needs to go to the doctor. She will be asked to do a test to find out what’s wrong. It’s usually the husband who is being tested by a urologist. For the first time, a semen analysis may be ordered. A semen analysis is a laboratory procedure that can tell doctors whether the man’s testicles are producing normal semen. The sample is taken and examined for sperm count, motility, and viability.

The semen sample is then examined under a microscope. The sperm count is determined by counting the number of sperm in a drop of semen. The motility is determined by observing how many sperm are moving and how many are obviously non-viable or damaged. The viability is determined by looking at the shape of the sperm.

We send this information to the doctors, who will then decide whether to refer the man for further testing or whether to begin treatment. If the results are abnormal, the doctors may recommend additional tests or treatment options. In some cases, they may order an ultrasound of the testicles to check for an enlarged prostate or other potential causes of infertility. In other cases, they may recommend surgery to correct a varicocele or other structural abnormalities.

Many healthcare providers offer in vitro fertilization (IVF), which involves fertilizing the egg outside the body using a sperm from the male partner. This allows them to bypass the inability of sperm to penetrate or fertilize the egg and provides an opportunity for successful conception. In some cases, IVF may also be used if there is a known genetic disorder that could affect the child.

In the end, infertility treatment is a journey that requires patience and commitment. It is important to work closely with your healthcare provider to determine the best course of action for your specific situation. With the right treatment plan, many couples are able to overcome infertility and achieve their dream of having a family. Please consult your healthcare provider for more information on fertility treatments and the options available to you.
Barbie (Sigh!) Turns 21

By Susan Lopatka

VINTAGE Bridesmaid

Vita is 9 years old and wants to look just like her sister, 11-year-old "Barbie." Vita steps in front of the mirror and says, "I want to be a princess." Her parents laugh, but Vita is serious. "But how can I be a princess?" she asks. "I don't have a tiara." "You can be a princess in your own way," her mother says. "You can be a princess in your heart." Vita nods, feeling happy and content. "Okay," she says, "I'll be a princess in my heart."

Lady Plugs In Zoysia Grass

Saves Time, Work & Money

FREE UP TO 200 AMAZÓY PLUGS DURING SPECIAL INTRODUCTORY OFFER

[Advertisement]

GRASS SEED WILL NEVER GROW A LAWN LIKE THIS—BREATH K & WEAR RESISTANT!

Amazing lawn once grown, right from something real and distant.

Nothing has more grass than this--and more grass means more beauty and more fertility.

FREE PLUGS with every order

By Jack T. Johnson, Agronomist

Every year you see people pour more and more money into their lawns. They dig, till, fertilize and water. They take care of their lawn, but not their soil.

MOSTLY DIRT: THREE-WAYS WRITE WOMAN

For example, Mrs. M. P. Minter writes me her lawn is "the envy of all who see it. Everywhere, lawns are brown from drought, yet just grows greener and greener!" We never want to live in a world where grass is green year-round. We want to live in a world where grass is always green and healthy.

NO NEED TO RIP OUT PRESENT GRASS—PLUG AMAZÓY INTO OLD LIMP, SICK, OR CRIPPLED NURSERY GRASS

Just set Amazon plugs in holes in present lawn, plug with foot, feed, water, and fertilize. Amazon plugs will grow strong grass of same size as native grass, with twice the root growth of standard grass. Amazon remains green and live!

AMAZÓY: FOUR TIMES LARGER, LIGHTER, HARDIER, OLDER, AND MORE EFFICIENT

Plants Amazon lawn in same time as present lawn. Plug into new lawn, "borders," clay or even soft, sandy, beach grass. I guarantee every plug regardless, for Amazon only $1.00. For the latter part of the season, you know it’s worth $1.00 and more of your profit.

Amazón is a perfect lawn plug. It is a natural plant, not a artificial chemical or synthetic. It is a living plant, not a dead plant. It is not a plug, it is a living plant.

FREE BROCHURE ON AMAZÓY PLUGS

By Jack T. Johnson, Agronomist

Every Amazon plug is a perfect lawn plug. It is a natural plant, not a artificial chemical or synthetic. It is a living plant, not a dead plant. It is not a plug, it is a living plant.

Don’t be misled. There is only one Amazon.

Amazón is a perfect lawn plug. It is a natural plant, not a artificial chemical or synthetic. It is a living plant, not a dead plant. It is not a plug, it is a living plant.

World Hunger

John Denver is best known for his singing voice, but he's currently putting his famous vocal chords to work for the Presidential Commission on World Hunger. "Hunger is a crisis that's already upon us," asserts Denver, "and we can't afford to treat it like we did the energy crisis by ignoring it until it's too late." According to the Commission's preliminary report, malnutrition, not famine itself, is the main problem throughout the world. "And in order to eradicate hunger, people must recognize that it's a problem that doesn't just happen in other coun-
tries; people are malnourished in the U.S. too," adds Denver. "Because of the Cambodian situation, people are reading
that hunger exists, but tackling hunger depends on our ability to transcend politics, economics, religion and all those factors that prevent us from meeting the world as a family of man."

Successful Traveling

The idea of taking a vacation in a lawnmower has an adventurous and romantic aura about it, but actually making it a trip successful can be a real job. Packing, negotiating in a busy hotel, figuring out where to eat without blowing your budget and battling the crowds around the local landmarks can leave a tourist feeling frustrated and bored.

The Odyssey Of Humankind

Who were the first people to travel the American continent, and how did they get there? What was life like in a 10th
century society in the Spanish frontier? How did the discovery of the Rooster and the Sea change the history of all
inhabitants of this westernmost part of the New World? Three are just some of the questions that are dis-
cussed in Odyssey, a 12-part anthropo-
yology series that will begin airing over PBS stations on April 4 (check local listings). Odyssey is a look at people — past and present — and their ways of life. "They're doing more compelling than the myth of the pants-down men and the anthropologist, who conceived of the series. "Anthropological studies are not that
they examine the way people live and "Since the series is expected to appeal to a wide audience, it will
appeal to a wide audience, it will
take a trip into your own past."

BIRTHDAYS 1986

BIRTHDAY PEOPLE: Edith Kennedy, Carole Hunter Written and compiled by B.J. Quarby

Lifestyles

Transportation. The average American motorist spends 877 hours a year because of poor roads. Estimates from the Federal Highway Program, "America's transportation engineers found that an inter-
national-mile-of-road spending at 60
mph per hour would use 15 to 30 percent more fuel if it had to slow down to stop twice in a mile than when stop-
ing wasn't necessary.

Lengthy. The No. 5 expectancy of a typical 65-year-old man has increased by more than 20 years in the last
year, and it may now exceed to live longer. The report by the Buck Consultants, Inc., an employee benefits consulting firm, during the same five-year period, female life ex-
pectancy at age 65 increased by almost 12 months. A typical woman can now expect to live past age 70.

Medical. Americans can't seem to get along without the roads. A recent

New Wave Of Smoker Research Just In:
MERIT smokers report they didn't give up taste in switch from high tar brands.

No Taste Sacrifice.

New national smoker study results prove it.

The overwhelming majority of MERIT smokers polled felt they didn't sacrifice taste in switching from high tar brands.

96% of MERIT smokers don't sacrifice taste.

90% of those who tried the low tar brands.

Smokers Prefer MERIT 3 To 1!
