Hostages’ Kin Hail U.S. Moves

By United Press International
"All set," the father of one American hostage, grimly nodded his head, as the American Airlines pilot, in his last press conference before the evacuation started, declared that "the whole operation is now in the hands of the Americans." The plane was held by diplomatic staff in Teheran, and the Americans were being flown to safety to Saudi Arabia. The U.S. Embassy in Teheran is now empty, and the Americans are being guarded by security personnel.

The evacuation of the U.S. Embassy in Teheran was described as a "triumphant" and "success," by the father of one American hostage, who said, "We're happy to be home." Thefather of another American hostage said, "It's a relief to be back in the States." The American hostages were flown out of the U.S. Embassy in Teheran to a Saudi Arabian airport, and then to a U.S. military base in Saudi Arabia.

Good Morning
It’s Wednesday, April 9, And...

...It will be mainly fair and warm today with widespread, but not heavy, showers. A cold front will move through the area today, bringing the overnight low will be 50°F. The high will be 70°F. The overnight low will be 50°F. The high will be 70°F. The overnight low will be 50°F. The high will be 70°F.

Your Morning Laugh: Play

The American hostages in Teheran kept laughing as they looked out the windows of the U.S. Embassy. They were happy to be back in the States.

Judge Allows Tax Collections

From Wire and Staff Reports

OKLAHOMA CITY (UPI) - An Oklahoma County judge on Thursday ruled that the Oklahoma County Assessor's Office had the right to collect property taxes on a house that was not being used for residential purposes. The judge ordered the Assessor's Office to begin collection of the property taxes on the property, which is valued at $50,000. The judge also ordered the Assessor's Office to pay the property owner $50,000.

New Kliegl Blasts Ex-Leader

By J. B. Wallace
OKLAHOMA CITY (UPI) — Dashing a new“This is a political football game, and I’m not going to play,” said the new owner of the Oklahoma City Thunder basketball team.

Oil Firm Penalized $550,000

By Ray Hale

Oklahoma City — An Oklahoma oil company was penalized $550,000 for overtime work on its oil wells, which it failed to report to the government. The company was cited for violating federal regulations that require companies to report all overtime work.

Iranians Head For Home

WASHINGTON (UPI) — Iran’s revolutionary commanders ordered all non-military personnel to leave the U.S. embassy in Teheran on Tuesday and to return to Tehran. The order was announced in a televised broadcast by the Islamic Republic of Iran News Agency on Tuesday morning.

In New York, First Assistant Secretary of State for Political Affairs, responsible for the evacuation of the embassy in Teheran, said the evacuation was "an important step in the process of resolving the hostage crisis." The State Department has said it will take all necessary steps to ensure the safety of the hostages.

Polish checkpoints at both embassies are on alert to prevent any attempts by angry people or groups from entering the embassies while the United States is still marked as a "sanctioned" country. Some at the New York office were left speechless, as many saw the embassy’s location as a symbol of the West’s support for the Iranian regime. The United States has cut diplomatic ties with Iran since its 1979 revolution.

The evacuation of the embassy is expected to begin shortly, according to reports from Washington and London. The embassy is located in the heart of the Iranian capital, and is the largest in the world. The embassy has been the target of several terrorist attacks in the past.

If the United States were to evacuate the embassy, it would be a significant step in the process of resolving the hostage crisis. The United States has been under pressure from other countries, especially from the United Nations, to take action to resolve the crisis.

Weeping

Mick Kejfas, 37, of Los Angeles, weeps after he was forced to leave his home in Los Angeles, where he was killed instantly. Authorities said Kejfas was killed in an accident on the way to his work. (AP Photo/John D. McGough)
Carter Calls For Peace

By Laurence McGirk

President Jimmy Carter made an appeal to the world community to work together to achieve a lasting peace in the Middle East on the third day of his trip to the region.

In a brief visit to the United Nations, Carter said he believed that a solution to the Israeli-Palestinian conflict was possible and that the United States had an interest in such a solution. He also called for an end to the Israeli occupation of the Gaza Strip and the West Bank.

Klan Leader Blasts Ex-Kleagle

From Page 1

Irwin Kleagle, a former member of the Klan, has been charged with making threatening phone calls to several people who are opposed to the Klan.

Kleagle, a member of the White Knights of the Ku Klux Klan, was arrested on Wednesday in connection with the charges.

Judge Allows Tax Collections

From Page 1

The county judge has approved the collection of taxes that were due in 1980.

The judge has found that the county has a responsibility to collect the taxes due by residents.

Liberal Backs Anderson

By PATRICK MONTGOMERY

For the Oklahoma Parnership for Children, liberal and conservative voices have come together to support the legislation that was passed by the state legislature.

The partnership has been working to improve the lives of children in the state.

The hospital has been working to reduce the number of suicides in the state.

House To Submit Resolution

OKLAHOMA CITY - The Oklahoma House of Representatives has voted to submit a resolution to Congress.

The resolution is in support of the rights of all people.
Lloyd's Pays Tulsa Firm

TULSA (AP) - Lloyd of London has paid $1.6 billion in a takeout deal, securing a controlling stake in the Tulsa-based insurance company. Lloyd, a leading global insurance broker, announced the acquisition earlier this month. The deal is expected to close within the next few weeks, and the transaction is subject to regulatory approval. Lloyd's acquisition will help it further strengthen its presence in the United States, where it has been expanding its operations in recent years.

Afghanistan, Pakistan Are Unlikely Allies

By JAY ANDERSON

The war in Afghanistan is more than 10 years old. The United States and its allies have spent billions of dollars and the lives of thousands of soldiers, but the Taliban are still in control of large areas of the country. This has been a costly and protracted conflict that has strained relations between the United States and its allies, including Pakistan.

Harassment Charged

By ALAN SHAPIRO

A military service member has been charged with harassment after allegedly threatening to shoot a fellow service member who had reported a sexual assault.

Thoughts

By DON GRAFF

For years, the United States has been working to improve education and economic opportunities for people in Afghanistan. However, the situation remains challenging, and progress has been slow. The conflict in Afghanistan is also having a significant impact on the region, with countries like Pakistan, Iran, and Turkey all affected.

Everyone Being Counted

By RITA SHERIDAN

The government has been taking steps to improve its data collection and analysis capabilities, but there are still challenges to be addressed, particularly in rural areas and among vulnerable populations.

Sex Offender Caught After 'Buying' Girl

By ALAN SHAPIRO

A sex offender was arrested after allegedly purchasing the services of a minor girl. This highlights the ongoing problem of child exploitation and the need for increased awareness and enforcement.

Don Gratt

U.S. Losing R&D Ground

The United States has long been a leader in research and development, but its dominance is eroding. Other countries are investing more heavily in this area, and the United States risks losing its position as a global innovator.

Town Awaiting Water

By JAY ANDERSON

A small town is facing a water crisis, with a shortage of clean and safe drinking water. The town is working to find a solution, but the problem is complex and may require a multi-faceted approach.
Metal Box Is Moldy Bread's Main Problem

Domain: Food

Hints From Heloise

- Do not use a rubber cracker to keep bread from mold. If you buy a box of bread and it's moldy, don't throw it away. Instead, use a plastic bag to keep the bread fresh.
- When storing bread, place it in a dry, cool place, away from direct sunlight. This will help prevent mold growth.
- Use airtight containers to store baked goods, such as cakes and pastries, to prevent mold from forming.

Message To Our Readers

Your next issue of Better Living will introduce you to an exciting concept in publications, a reading experience you'll truly enjoy.

Better Living's new format, including a name change to This Week, is designed for busy metro area residents who want the best in leisure reading. The features selected for This Week are among the finest available to the entire county.

This week is a product of The Oklahoma Journal newspaper and its staff and is distributed to more than 100,000 homes in the greater Oklahoma City area each week by mail and The Journal carriers.

The improved look of This Week will include:

- Spotlight on well-known metro and state personalities. This Week will profile a personality who has achieved prominence in the metropolitan or state.
- Jim Murray, Jon is the premier sports writer in the nation. His coverage of national sports, professional and amateur, has won a multitude of national sporting awards.
- Al Ehrman, Al, The Journal sports editor, is one of the foremost sports writers in the southwest. He is an expert on collegiate sports and has produced many exclusives, including one recently on the departure of Dave Bloss from OU.

The emphasis will be on the continuation of This Week's regular columns.

- The Sports Column by Bob Shreeves. Shreeves is a veteran of both popular and answers questions about the stars, past and present, in a lively, concise column.
- The Oklahoma Gardening by Hugh Hedges. Hugh is head of the OBUU horticulture department and is an expert on Oklahoma gardening conditions. He will fill readers when what and how to plant to get the best results in Oklahoma's changing climate.
- The Money Column by Martin Stone. Martin provides tips on getting the most for one's dollar.

The emphasis will be on the continuation of This Week's regular columns.

- The emphasis will be on the continuation of This Week's regular columns.

Travel

Spring is the time for spring vacations and what could be more appealing than a river trip of the Rhine River in Europe, which includes a visit to Paris and Montevideo.

River tours are gaining in popularity as a way to see Europe. Contact your travel agent for details.
Royalton's contract offer may not be as tempting as it seems at first glance. They have all of their big brochures and materials ready to go, but the way they try to sell you isn't always the best route. One thing that stands out is the price of the tablet, but they still need to consider that there are other long-term factors to take into account.

Question: Ask Dr. Lamb

They are important questions, and again, you should check in with your doctor for your specific situation. The doctor will be able to give you the best advice based on your health condition and overall health.

It's Time For Some Common Sense

This Message Brought To You By Concerned Automobile Dealers In Our Community.

IN THE EARLY 1970's

The consumer groups, environmentalist, and government demanded that new cars get better mileage and pollute less.

SINCE 1976

The automobile pollute approximately 60% less and get twice the gas mileage of many of these early cars.

IN 1988

Now it's time for reasonable people to say: Doesn't logic dictate that these same groups should demand that these new cars be driven, that their older cars are eliminated?

If you're interested, here are some surprising and little known statistics:

1. Every time a thousand 1980 American automobiles replace a thousand 1975 and older cars, 10,112 barrels of oil per year are saved and every time a five year old car leaves the highway, our air becomes a little cleaner.

2. The automobile industry is the largest manufacturing operation in the world. It has more than 8,000,000 businesses related to it.

3. It provides jobs for over 6.5 million man and women - 25% of the nation's labor force - nearly one out of every six workers is employed by an industry directly related to the automobile industry. 1 out of 4 persons is employed by an industry indirectly related.

4. Every time an additional million new vehicles are manufactured, 1.1 million jobs are created. Every time new car sales go down, 1.1 million people lose the job market and unemployment goes up.

Our automakers have produced a new way of life. Today, there are 10,000 shopping centers, 3,000 drive-in theaters, 16,000 drive-in restaurants, 5,000 drive-in banks.

We thought it was important that you know.

As soon as everybody is driving a 1980 - The sooner we can stop importing as much oil — period!
