USOC Votes To Boycott Olympics

By Mike Ratzen

The US Olympic Committee will not send a team to Moscow because of the actions of the Soviet regime. The committee said the policy is a "mandatory" one in a press statement.

The USOC president, Dr. Robert C. Rearden, said, "We feel that the actions of the Soviet regime are contrary to our national interests."

With the United States and the Soviet Union planning to send a team to the Olympics, it appeared there was a chance there would be another world-class meeting of the teams.

"We felt that the actions of the Soviet regime are contrary to our national interests," said Rearden.

Most Wanted

WASHINGTON, D.C. — The Justice Department has filed an amended complaint in a case involving a missing elderly man who was last seen in the District of Columbia. The complaint, filed in federal court in Washington, D.C., seeks to identify and locate missing person John Doe, 78, who was last seen on March 10 in the 100 block of 16th Street NW. The Justice Department said it believes Doe may be in danger and could be a victim of abuse.

Carter Captures 34 S.C. Delegates

By United Press International

President Jimmy Carter, who is a fast-rising star in the Democratic Party, captured 34 delegates for South Carolina at the 1976 Democratic convention in Washington. The action gives Carter a substantial lead in the delegate count and increases his chances of securing the nomination. The South Carolina delegation, which consists of 34 members, is the largest in the nation.

Cooling Trend Here

By United Press International

A cooling trend is expected to continue through the week, according to the National Weather Service. The service said temperatures are expected to drop in the central and southeastern parts of the country, with some areas seeing temperatures as low as 60 degrees Fahrenheit. The cooling trend is expected to last through the weekend.

Stocks Notch Modest Gain

By David Glenn

The Dow Jones Industrial Average clung to a slight gain in midday trading, rising 1.08 points to 34,546.25, after clocking a high of 34,552.25. The Nasdaq Composite Index was flat, at 11,750.00, after hitting a peak of 11,752.00. The S&P 500 advanced 0.50 points to 4,411.25, reaching a fresh record high. The gains were attributed to better-than-expected earnings reports and optimism about the economic reopening.

Energy

To produce it we must reach out...dig down...and do it NOW.

There are many things that we are doing to help produce energy. We are increasing the use of solar and wind power, which are more sustainable and cleaner than traditional energy sources. We are also investing in research and development to improve energy efficiency and reduce carbon emissions. In addition, we are working on new technologies, such as hydrogen fuel cells, that could revolutionize the energy sector. This energy independence, wide financial and technological growth provides a unique opportunity for everyone involved in the energy sector.

Gas Dealer Ranks Thinning

By David Glenn

A gas dealer has been found guilty of price fixing and an attempt to violate a gas dealer's agreement. The dealer, who has been in business for over 30 years, was sentenced to one year in prison and ordered to pay a $50,000 fine. The sentence was the result of an investigation by the Federal Trade Commission, which found evidence of price fixing in the gas industry.

Polio: The Forgotten Killer

By Patricia McCormick

The lingering effects of polio are still being felt in many parts of the world today. People with polio often suffer from weakness, muscle atrophy, and joint problems. The disease was once a major public health concern, but with the development of vaccines, it has largely been eradicated in most parts of the world. However, many people are still affected by the disease, and the memory of those who suffered from it still lingers.

Citizen Politician

"Citizen Politician," a nickname often given to Ronald Reagan, refers to his approach to politics. Unlike many politicians, Reagan often spoke directly to the people, avoiding the use of technical jargon. This helped him connect with the public, especially during his time as governor of California.

Ex-Booster

Ronald Reagan's political career began when he was elected as governor of California in 1967. He served two terms in this position and was known for his conservative policies and his ability to connect with voters.

Seven Dead

In 1976, one of Reagan's key campaigns was in California, where he ran for governor. One of the most significant events during his campaign was the Zapatista uprising in Chiapas, Mexico. This uprising led to a wave of violence and chaos in the region, which had a significant impact on the election.

Champion Speechmaker

Reagan was a master at crafting speeches, and his ability to connect with people made him a popular candidate. His campaign speeches often included stories of everyday people and their struggles, which helped him appeal to a wide range of voters.

Amazon Site For Tough Jungle Training

Reagan's administration made significant changes to the Amazon site, including the establishment of a tough jungle training program. This was part of a larger effort to improve the country's military readiness and preparedness.

Nuns Confront Coal Company

In the 1980s, a group of nuns confronted a coal company over environmental concerns. The nuns were part of a larger movement that sought to bring attention to the issue of pollution and its impact on local communities.

Political Hospitarians

Reagan's administration was known for its support of hospitarians, who provided care to the sick and dying. This was a significant part of the administration's approach to health care.

Sabotage Caused Blackout?

There is a great deal of speculation that saboteurs were involved in the power blackouts that occurred in the late 1960s and early 1970s. Some experts believe that these blackouts were caused by purposeful actions to disrupt the energy grid.

"How did you die, Joseph? Did you die in this house? Why do you remain?"

Through all the laughing Williams is a perfectionist

By Gene Thomas

Williams heads the most popular dramatic company in Hollywood and has been working in the theatre for over 20 years. He is the director of "Changeling," which has been playing at the RKO Roxy Theatre for the past month. The play is a comedy and it is being produced by Samuel Goldwyn. The cast includes Arthur Lake, Lou Breslow, and Mildred Natwick.

``It was too late for me to go home, so I decided to spend the night in the theatre. I was not planning to stay the entire night, but I found myself staying longer than I had anticipated."

``I was not sure if I should leave or stay. I was torn between my duty as an actor and my desire to continue working on the play."

``I finally decided to stay because I was interested in the play and I wanted to see how it would develop."

``I think the play is a success and I am proud to be a part of it."

``I am looking forward to the next performance and I hope to continue working with this talented cast."

Most shows rolling on despite new faces

By Gary Deeb

Some of television's most popular programs have gone through major changes, a scene for the announcer and a name for the show. But the show goes on. Many fans can hardly wait to see how it turns out. One show that has been quite successful in its new format is "The King of Queens," which has been on the air for several years.

By Jim Brown

In 1970, "The Odd Couple" was the hit of the television season. The show starred Walter Matthau and Jack Klugman as roommates who couldn't stand each other but were forced to live together. The show was a hit and ran for six seasons.

The Private Life of Sally Field, Mother and Movie Star

On Monday night's Academy Awards, all eyes will be on Sally Field, who, in Norma Rae, proved she could tackle — brilliantly — a tough role. But for this working mom, career takes a back seat to her personal life with her kids and Burt Reynolds.

By Fred Robbins

On Monday night, more than 700,000 viewers are expected to tune in to the 30th annual presentation of the Academy Awards to see not only the stars of some category winning, but also thedates of the winners. Women in some categories this year are anyone's guess, but the Spielberg/Robinson picture has been sitting with the envelope opened for years.

The stars of the film, as the usual actors, will speak: "You can't help but love her," said one. "She's such a sweetie."

"What's next?" asked another. "A new movie or a new baby?"

"She's probably going to have another baby," said a third. "She's always been a mom first." 

Sally Field, the star of "Norma Rae," is a mom first. She's married to actor Burt Reynolds, and they have a daughter, Carrie, who is five years old.

When Sally Field is asked about her role in the film, she says, "I just wanted to do something different. I've been doing so many dramatic roles, and I wanted to do something light."

But when she was asked about her children, she said, "I just love being a mom. It's the most important thing in my life."

Sally Field has always been a mom first. She's been married to Burt Reynolds since 1975, and they have a daughter, Carrie. She's also been a mom for many years, and she says that being a mom is the most important thing in her life.

Sally Field is a mom first and foremost. She's been married to Burt Reynolds since 1975, and they have a daughter, Carrie. She's also been a mom for many years, and she says that being a mom is the most important thing in her life.

HERE'S $50 TO SPEND AT THE SINGER STORE.

THIS IS NOT PLAY MONEY.

In these inflationary times, earning $50 may be easy. But saving $50 isn't.
So Singer is pleased to give you a $50 bill (above) that you can use toward the purchase of one of our finest electric or mechanical sewing machines models that seldom go on sale.
And then you can spend it on all kinds of other things.

So cut out our $50 bill with the sewing machines on the face of it and take it to the Singer Store or a participating Singer Dealer. You'll find it worth every bit as much as a U.S. $50 bill with President Grant's face on the face of it. U.S. Series 1923.

This time, Evelyn did something fantastic for her fruit pie:

Evelyn had an empty pie crust. The apples fell flat, but no more flour.

Fortunately, she remembered the box of Argo Corn Starch she always keeps on the shelf. Because that’s how Evelyn turned out her finest fruit filling ever!

It had no flour taste. Nothing to keep the true flavor of the apples from shining through.

We think you’ll like Evelyn’s new apple pie filling. And we also think you’ll like the difference Argo and Kingfisher’s make in cakes, puddings, puddings... That’s why we’ve put together this long-disked-up recipe.

**Argo Corn Starches’ Corn Starches**

---

**Evelyn’s Apple Pie Filling**
1 cup sugar
1 tablespoon cinnamon
1 1/2 cups milk
1 1/2 teaspoons butter or margarine
1 1/2 cups flour

Mix first 3 ingredients. Fold in apples and lemon juice. Place in pie pan. Cover with crust. Seal and flute edge; cut slits in top. Bake at 425°F 50 minutes or until firm.

Miracle Drugs: Not Always Magic

By Sarah Haverty

Some say we have finally found the cure for cancer. But in 1900, when cancer was considered a death sentence, doctors were still experimenting with leeches, bloodletting, and other strange remedies. Today, cancer is still a major killer, but the drugs we use to treat it are marvels of modern medicine.

But even the most effective drugs can bring side effects. A powerful drug called tamoxifen, used to treat breast cancer, can cause hot flashes and nausea. The drug can also increase the risk of blood clots and stroke. Other drugs can cause hair loss, fatigue, and other unpleasant side effects.

But the benefits often outweigh the risks. For people with cancer, finding a cure is worth the sacrifice.

Side effects can cause reactions worse than the disease itself. But with the help of modern medicine, people with cancer can now live longer and have a better quality of life.

Also, new drugs are being developed all the time. They promise to be even more effective than those currently available.

One surefire way to ensure that the drug industry is always working to improve their products is by supporting research. By spreading awareness and supporting organizations like the National Cancer Institute, we can help find a cure for cancer.

In conclusion, while cancer is still a serious illness, with modern medicine, it is possible to live longer and have a better quality of life.

I don't know how we could have gotten by without it...

Cancer claimants—the people who know cancer insurance best—recommend cancer insurance.

"I think it's very, very important for people to have cancer insurance..."

Opinion Research Corporation of Princeton, N.J. recently completed a national independent survey and found that 95 percent of cancer claimants surveyed would recommend cancer insurance to their friends and relatives, if they had had the cancer benefits during a two-year period.

1. Supplemental cancer insurance is good to have because other health insurance, including major medical plans, does not cover the total cost of cancer.

Strongly Agree 74% 39%
Tend to Agree 21% 20%
Tend to Disagree 3% 5%
Strongly Disagree 4% 2%
No Opinion 1%

2. Having cancer insurance means the medical bills can be paid without causing financial disaster.

Strongly Agree 69% 40%
Tend to Agree 21% 19%
Tend to Disagree 3% 11%
Strongly Disagree 3% 20%
No Opinion 5%

3. Did you understand that your cancer insurance policy did not provide complete coverage of all costs relating to cancer, but was supplemental for policy benefits intended to pay in addition to other insurance coverage?

Yes, Understood 78% 41%
No, Didn't Know 14% 13%
Don't Know / Not Sure 8% 22%

4. How fairly do you believe American Family Life was paying the claims on your policy?

Very Fair 72% 39%
Fairly Fair 19% 15%
With Some Deterioration 5% 8%
Considerably Deterioration 3% 3%
No Opinion 3%

5. How do you believe American Family Life was in the payment of your cancer claim?

Very Fair 72% 39%
Fairly Fair 19% 15%
With Some Deterioration 5% 8%
Considerably Deterioration 3% 3%
No Opinion 3%

6. Would you recommend the purchase of cancer insurance to other people?

Yes 95% 41%
No 4% 13%
Don't Know / Not Sure 2% 13%

7. Do you have any other health insurance, including major medical coverage?

Yes 86% 41%
No 9% 13%
Don't Know 1%

8. When the policy was originally purchased, were tear or scarring tests used in the sale of the policy, or not?

No 93% 41%
Yes 6% 13%
Don't Know 1%

The dollars received by a claimant are often less important than the other considerations did the insurance company as pay as by the as the time of the purchase. Was the claim processed, and payment made promptly? Was the relationship of your claimants would recommend cancer insurance to friends and relatives, this indicates an extremely high degree of satisfaction. Furthermore, the results of the survey confirm American Family Life's reputation for service and sales ethics.

If you are considering supplementing your health insurance program with cancer insurance, the results of this survey of American Family claimants will help you to reach a sound decision based upon your needs and circumstances.

M.M. Kaye: Capturing The Intrigue of India

As children group together around the piano, Kaye and her sister Elyse have a story to tell: The story of how they got to England. Today once again, the two sisters sit together in a London bookstore.

By Burt Kyne

I t seems almost too good to be true. Kaye has managed to fulfill her dream of living in England. "I call it the three香水 stories," she says. Kaye was born in England in 1935, but her family moved to America when she was four. She first visited India in 1970, and she has returned several times since then.

Kaye found that the country was an ideal destination for her because it was not attached to the country. "I made the decision in 1970, and since then I have been back to India without losing her job," she says. "I have no idea how to go back."

As an army wife, Kaye traveled all over India, and she lived for a while on a hostel in Pushkar. But she refused to return to India when her husband was transferred to India. "I refused to go back without a second thought," she says. "I was so in love with India that I couldn't wait to get back to England until I knew that there were no problems there.

One reason that Kaye can speak so authoritatively and accurately about India is because she has visited the country. She has been back to India. "I was back again in 1984, and ever since then, I have been going back every year," she says. "I love the people, the culture, and the cuisine. It is a great place to live."
"WHAT'S THIS 10% SERVICE CHARGE FOR HOLDING THE LINE ON PRICES THIS WEEK?"

"IS 'HARRUMP' SPELLED WITH ONE R OR TWO?"

"NO MORE FOR GEORGE! ALCOHOL BRINGS OUT THE ROGUE IN HIM!"

"TODAY STARTS MY TWO WEEKS' VACATION! WHAT'S FOR DINNER?"

"YOU'VE BEEN ON THE PHONE FOR AN HOUR! YOU'RE LUCKY THERE'S ANY OF ME LEFT!"

"ONE MORE PICTURE, SAM!"

"HOW MANY HOME RUNS ARE YOU GOING TO HIT THIS YEAR, SAM?"

"YOU HIT 54 HOME RUNS LAST SEASON, DIDN'T YOU, SAM?"

"DID YOU EVER TRY FOR THE MAJOR LEAGUES, SAM?"

"BOY, SAM REALLY LOVES HOW THE PRESS PLAYS UP TO HIM WHEN BASEBALL SEASON STARTS!...
OKAY, YOU GUYS, THAT'S ENOUGH! HE HAS TO GET BACK TO WORK NOW!"
