Delicious Pizza From Biscuits?

Dear Heloise:

This is a light and delicious sauce with spices. It will make a great holiday meal! I have been making it for the past 25 years. The recipe was given to me by my mother.

Sauce Ingredients:
- 1 can (16 oz) crushed tomatoes
- 1 can (8 oz) tomato sauce
- 1/2 cup chopped onion
- 2 cloves garlic, minced
- 1/4 cup chopped fresh parsley
- 1 teaspoon dried basil
- 1 teaspoon dried oregano
- Salt and pepper to taste

Instructions:
1. Heat the crushed tomatoes and tomato sauce in a large saucepan over medium heat until hot.
2. Add the chopped onion, minced garlic, chopped parsley, dried basil, and dried oregano. Stir well and bring to a boil.
3. Reduce heat to low and simmer for 10 minutes, stirring occasionally.
4. Season with salt and pepper to taste and serve over your favorite type of pasta.

Lettter to Heloise:

Dear Heloise: I am always looking for new recipes to try. Do you have any suggestions for a healthy and delicious dish that I can make for my family?

Sincerely,

U.S.'s Forgotten Ally

In the not too distant future, it is likely that the United States may be faced with a new adversary. This adversary is not a country, but rather a force that has been neglected and ignored by the United States for too long. I refer to the forgotten ally of the United States: the American people.

The American people are the true strength of our nation. They are the ones who work hard, who pay taxes, who support our military, and who defend our freedoms. Yet, they are often taken for granted.

This is not to say that the American people are without their faults. They, too, have a long history of mistakes and missteps. But these are the same mistakes that have powered our nation forward. They are the same mistakes that have made us who we are.

So, to the American people: we owe you a debt of gratitude. We owe you a debt of respect. We owe you a debt of honor. We owe you a debt of love.

You Can Depend On Trouble

Trouble is a part of life. It is something that cannot be avoided. It is something that is always waiting around the corner. It is something that is always trying to catch us off guard.

But trouble is not bad. It is not something to be feared. It is something to be embraced. It is something to be learned from. It is something to be overcome.

As the old saying goes, "If you want to learn something, you have to get into trouble." This is true. You cannot learn without experiencing failure. You cannot learn without experiencing pain. You cannot learn without experiencing growth.

So, to those who say that trouble is a bad thing, I say: you are wrong. Trouble is a necessary part of life. It is a necessary part of learning. It is a necessary part of growing.

Billy Graham

DEAR DR. GRAHAM: Do you think it is possible to avoid trouble in life? I am so afraid of it.

Dr. Graham: Trouble is a part of life. It is something that cannot be avoided. It is something that is always waiting around the corner. It is something that is always trying to catch us off guard.

The Perrier World Of The Plant

The Perrier plant is a marvel of modern technology. It is a place where water is transformed into a drink that is enjoyed by millions of people around the world. It is a place where science and technology come together to create a product that is both refreshing and healthy.

The plant is located in France and is home to over 2,000 employees. It is a place where water is filtered, treated, and packaged for distribution. It is a place where innovation and efficiency are the norm.

The Perrier plant is a symbol of what is possible when technology and creativity come together. It is a symbol of what can be achieved when dedication and hard work are put into practice. It is a symbol of what the future can hold.

Justice Probes Judge; Senate Probes Justice

WASHINGTON - The Justice Department is investigating allegations of misconduct against a judge. The investigation is being conducted by the FBI and has been ongoing for several months.

The judge in question is being accused of violating ethics rules. The allegations include accepting gifts from lawyers and engaging in impropriety in the handling of cases.

The Justice Department is taking this matter very seriously. The department has a zero tolerance policy for misconduct and will take appropriate action against any judge found to have violated the law.

Jack Anderson

Jack Anderson, an investigative journalist, has written extensively on the topic of judicial misconduct. He is known for his work on the Watergate scandal and has been a vocal critic of the judicial system.

Anderson has been critical of the Justice Department's handling of this matter. He has suggested that the department is not taking the allegations seriously and that action should be taken against the judge.

WASHINGTON (AP) - American productivity grew at an annual rate of 3.6 percent in the first quarter, the fastest pace since the fourth quarter of 1984, the Department of Commerce said Wednesday.

The increase in productivity was due in part to a drop in the labor force, which is up 3.6 percent from a year ago, the Commerce Department said. The department also said the economy is growing faster than expected.

OPEC Ups Prices

By LPI

The Organization of Petroleum Exporting Countries (OPEC) has increased its oil prices by 1.5 percent, effective immediately, the OPECsecretary general said Wednesday.

The move comes as OPEC member countries are facing a fiscal year in which they have budgeted for lower prices.

The impact of the price hike on the world economy is expected to be modest. The move is likely to result in some short-term disruption of the market, but in the long run, it is unlikely to have much impact on the price of oil.
