Militants Demand Hostage Trials

TEHRAZ, Iran (UPI) — The militants holding 33 Americans hostage demanded Tuesday that Iran’s new parliament vote to put their country on the United Nations’ list of terrorism sponsors as a condition for releasing the captives.

The Iranians’ statement was made in Tehran, the seat of the country’s Islamic government, which has been under international pressure to release the hostages and allow American negotiators to visit the captives.

In a related and, for the hostages, seemingly provocative development, Foreign Minister Javad Chahvardi said Tuesday that any New York meeting next week would not be attended by any Iranian delegation that would discuss the captives and other matters.

The New York meeting was called by Security Council Resolution 376, which demanded that all nations avoid any action that could lead to the escalation of the hostage crisis.

The Iranians also rejected a joint statement issued in Paris on Monday, which called for an immediate end to the crisis and for all countries to act in accordance with the United Nations’ resolutions.

In a related development, the hostages were yesterday transferred to a new location, the name of which was not disclosed. The move was said to be a precautionary measure to protect the captives from any potential threats.

Government Gambling: Mob or Public Jackpot?

WASHINGTON—Last week gambling has become a metaphor for the nation's political and social problems. The administration's push to legalize gambling has been met with fierce opposition from the country's major political parties. The debate has been a heated one, with many questioning the morality and legality of such a move.

Jack Anderson

The debate has raised concerns about the potential for corruption and the influence of organized crime. Some have argued that legalizing gambling would lead to an increase in organized crime, while others believe it would bring in much-needed revenue for the government.

Credit Cuts Fail

By United Press International

The credit crunch that has hit the U.S. economy this year has been a major factor in the recent declines in industrial stocks. The Dow Jones Industrial Average, for example, lost 222 points on the day, its worst one-day decline since the February 1987 bear market.

The credit crunch has also been felt in other parts of the world. In Europe, for example, the CAC-40 index in France fell 3.5 percent, its biggest one-day decline since March.

Economy On The Wane

WASHINGTON (AP) -- The economy's growth rate slowed in the first quarter, according to government figures. The Commerce Department reported that the economy grew at a 1.8 percent rate, compared to a 4.7 percent rate in the fourth quarter. The figure was lower than expected, and economists say it could mean a slowdown in future growth.

Profits Slump

WASHINGTON (AP) -- The sliding value of the dollar against other currencies is taking a toll on U.S. companies. The Commerce Department reported that profits in the first quarter were down 2.1 percent from the fourth quarter. The figure was the worst since the first quarter of 1993.

Merit Cuts Through Low Tar Clutter!

"Best-tasting low tar I've tried," say 96% of MERIT smokers in latest survey.

There is a difference between other low tar cigarettes and MERIT. A proven difference.

MERIT Solid Winner. Test after test with thousands of smokers continues to provide evidence—not mere claims—that low tar MERIT delivers the flavor of high tar brands, and continues to satisfy long term.

Blind Taste Tests: In tests where brand identity was concealed, a significant majority of smokers rated the taste of low tar MERIT as good as—or better than—leading high tar brands. Even cigarettes having twice the tar!

Smoker Preference: Among the 95% of smokers stating a preference, the MERIT low tar/good taste combination was favored 3 to 1 over high tar leaders when tar levels were revealed!

Long-Term Satisfaction: In the latest survey of former high tar smokers who have switched to MERIT, 9 out of 10 reported they continue to enjoy smoking, are glad they switched, and report MERIT is the best-tasting low tar they've ever tried!

MERIT is the proven alternative to high tar smoking. And you can taste it.
