Teacher Retirement Bill Threatened

By Harry Hurley
OKLAHOMA CITY (UPI) -- The governor's threat to veto the
Teacher Retirement Bill was
unearthed in the Oklahoma City
House of Representatives Tuesday.

The dispute concerns efforts to set up a portion of the state's
pension fund. The bill, which affects
all teachers in the state, is
estimated to cost $200 million.

The governor's threat was
unearthed by a member of the
House Appropriations Committee.

Said Rep. John Young, D-Del City,
chairman of the Senate conference,
and Rep. Ed Boomer, D-Weatherford, committee member, who
also opposes the teacher pension
bill: "The governor's threat is
unrealistic." He added: "Our school
board is not going to be able to
afford anything more." He went on
to say that the bill would increase
his budget by $200 million.

The bill, which is expected to cost
the state $200 million, was
unearthed by a member of the
House Appropriations Committee.

News In Brief

Polaris Ski For Trouble

Robert, North Dakota (AP) — Police in the northern North Dakota town of Roberts have arrested a local man suspected of stealing a Polaris snowmobile.

The man, identified as John Johnson, 32, was charged with theft after authorities said he broke into a home and stole the snowmobile. Johnson is expected to appear in court on Monday.

Military Wipes More Money

WASHINGTON (AP) — The Senate is expected to vote on a bill today that would authorize the Defense Department to cut $10 billion from its budget.

The bill, sponsored by Sen. John Warner, R-Va., would require the Pentagon to reduce its spending by $1 billion each year for the next 10 years. The Pentagon says it needs the money to fund new programs.

Kaufman: Choosing Styles For You

By Doctor of Psychology

Wearing different styles can make you feel more confident and attractive. Here are some tips on how to choose the right styles for you:

1. Consider your body type: Whether you have a curved or hourglass figure, there are styles that will flatter your shape.

2. Choose colors that complement your skin tone: If you have fair skin, try wearing pastel colors. If you have darker skin, brown, black, and blue are great colors.

3. Pay attention to details: The right accessories can make all the difference. A simple necklace or bracelet can make a big impact.

4. Try new styles: Don't be afraid to try new things. Sometimes, changing up your style can give you a fresh perspective.

Jayne Mansfield Report Real Bust

Well, it's always nice to hear good news about a celebrity, especially someone as beloved as Jayne Mansfield. It's heartening to see her story get a second chance.

Sylvia Porter

Here's What To Expect If Reagan Is President

Sylvia Porter

What a President Reagan in the White House would do is anybody's guess, but there are a few predictions that seem likely. First, the economy will improve. Reagan's focus on reducing taxes and cutting government spending is expected to stimulate growth. Second, the military will become stronger. Reagan's commitment to defense is well-known. Third, the environment will suffer. Reagan's views on conservation are not as strong as those of some other candidates. Finally, the entertainment industry will see some changes. Reagan is not a fan of Hollywood, and his administration could lead to a more conservative media landscape.

Thoughts

James is a dark horse candidate in the race for the White House. His background in public service and his ability to connect with voters may be the key to his success.

Oil Price Gains Defy Market Glut

The current glut of crude oil in storage has not slowed the recent rise in oil prices. Oil prices continued to climb this week, defying the predictions of many analysts who had expected a slight decline in prices due to the abundant supply.

In New York, the price of light, sweet crude oil closed at $42.50 per barrel on Friday, up $1.50 from the previous week. The price in London was $41.80, up $1.20 from the previous week.

Analysts attribute the rise in prices to several factors. First, there is a growing demand for oil from developing nations, particularly in Asia. Second, the OPEC countries have been holding back production, which has contributed to the supply shortfall.

Despite the glut, some experts predict that the market will continue to tighten in the coming months, leading to further price increases. Others argue that the current situation is temporary and that prices will eventually come back down as the supply increases.

19 Astronaut Candidates Named

The United States is set to begin the search for its next generation of astronauts. NASA announced the names of 19 candidates who will undergo training and selection to be part of the agency's astronaut corps.

The candidates were selected from a pool of nearly 2000 applicants. They will undergo a rigorous training program that will include instruction in spaceflight, spacecraft operation, and emergency procedures.

They're partners in marriage only

By Karen "Theunis the Quaint One (AP)

A new trend is emerging in the world of marriage: couples are choosing to stay unmarried. The article discusses the reasons behind this trend, including the desire for independence and the belief that staying unmarried can lead to a happier, more fulfilling life. The article also includes interviews with couples who have chosen to stay unmarried, and tips for those who are considering this option.
Building Titanic cheaper than renting it

By Norman Scott

"BOLLYWOOD." (UPI) - In 1915 in Red England a British isle building the Titanic, the biggest, fastest luxury liner in the world, worked in a stables in Kent. In 1916 she sailed for New York and was lost in the North Atlantic. Today, in 1978 she is back in New York and is ready to sail for England again. The Titanic's return has been hailed as a major event in the world of cinema. It has been said that the Titanic is the world's most famous ship and that its story has been told in many different ways.

The most recent example of the Titanic's return is the 1978 film "Titanic," directed by James Cameron. The film tells the story of the Titanic's tragic voyage, capturing the ship's history, its passengers, and crew, and the events that led to the ship's sink. "Titanic" has been praised for its stunning visual effects and for its powerful storytelling, and it has been a commercial success, earning over $500 million at the box office.

The Titanic's return has also been celebrated in the form of books and other media. Many books have been written about the Titanic, including historical accounts, biographies of key figures, and fictional stories. These works often draw on the public's fascination with the Titanic's story, which has captured the imagination of people around the world for over a century.

The Titanic's return has been a source of inspiration for many artists and creators. The ship's story has been used as a backdrop for music, art, and literature, and it has been the subject of countless discussions and debates about the nature of tragedy, the power of history, and the human experience.

The Titanic's return has also been a source of controversy. Some critics have argued that the Titanic's story has been over-hyped and that the ship's fate has been romanticized to the point of obscuring the reality of the event. Others have praised the Titanic's return as a way to celebrate a ship that has become a symbol of the human spirit's ability to overcome adversity.

In the end, the Titanic's return is a testament to the power of the human spirit and to the enduring appeal of a story that continues to captivate and inspire people around the world.
