No Criminals, Says Reagan

MEXICO CITY (UPI) - Cuban President Fidel Castro said he is a "traitor of the world" for allowing the United States to use Cuban territory to invade Grenada.

"They (Americans) have not accepted the Communist doctrine," Mr. Castro, said. "They have been warned by the Korean War, by the war in the former Congo, the 13,000 Russian, British and East German troops that occupy Cuba."

Reagan Boren Ticket?

PERKINS (UPI) — China Saturday warned its Jerusalem ambassador that if President Reagan and Premier Li Peng do not meet, the United States will be "seriously considered" as "an obstructing force in the normal development of Sino-U.S. relations.

The Chinese attack on Reagan was "noteworthy in the consulting note" to the ambassador that rejected a request for a meeting between the two leaders, according to the United States government.

The statement said the government had notified the ambassador of "the Chinese government's view that U.S.-Sino relations must develop on the basis of having a direct meeting between the two leaders.

In April, the Chinese government had warned that "there is no problem in the Sino-U.S. relations that cannot be solved through direct meetings between the two leaders.

The statement said that if Reagan's statement involves the Chinese questions of Taiwan and war and the United States did not satisfy them, the Chinese government would not be surprised if it was not possible to have the Sino-U.S. relations at the level of the two leaders.

The statement said Reagan's position reflects "a sense of the arms against the United States to resist their will of the United States."

With the Lincoln Memorial and the reflecting pool in the background, the world's largest flag, weighing seven tons and covering two acres, was unfurled on the grounds of the Washington Monument Saturday in honor of National Flag Day.

Do Fathers Make Good Mothers?

By Robert Miller

Do fathers make good mothers? It is a question that has been raised in recent years, and one that is often debated in the media. As more women enter the workforce and assume traditional male roles, the question of whether fathers can effectively take on the responsibilities of parenting is a topic of great interest.

Research has shown that fathers who are actively involved in their children's lives can provide significant benefits. For example, a study published in the Journal of Marriage and Family found that children whose fathers were involved in their daily lives were more likely to have higher self-esteem and better academic performance.

However, there are also challenges to fathers taking on the role of mother. Some argue that fathers lack the emotional and nurturing skills necessary to be effective mothers. Others suggest that the traditional gender roles that have been so deeply ingrained in society make it difficult for fathers to step into the role of mother.

At the end of the day, it is clear that fathers can be excellent mothers. The key is to recognize that parenting is a shared responsibility and to provide support and encouragement to all parents, regardless of their gender.

IF YOU NEED TO BUILD UP YOUR BLOOD DON'T COUNT ON VITAMINS

Iron poor blood is the most widespread nutritional ailment in America today. In fact, it's a problem that millions of American women face.

And all the vitamins in the world can't help, because vitamins don't contain iron.

Take GERITOL, America's #1 iron and vitamin supplement. GERITOL is so rich in iron, just one tablet each day gives you more iron than even a pound of calf's liver. Plus vitamins that are essential to good health.

GERITOL will actually build iron poor blood back to normal. That's what makes it different from just plain vitamins—and so important to you.

**SAM AND SILO**

"All right, folks, Silo Tidley, the great veteran pitcher for the Buckwater Dukes is ready to pitch..."

"All right, Silo goes into his famous windup..."

"Silo has two strikes on the batter...two blazing fastballs..."

"Silo leans forward to get the sign from the catcher..."

"What will the sign call? For Siolo’s great sweep curve, or another fastball across the knees?"

"And here’s the pitch!"

"Oh-oh! I think Silo’s done it again...he forgot what he was going to throw!"

"Folks, his only weakness is a short attention span."

**YOU CAN WIN**

Here’s a game to try at home. First, pick an odd number of playing cards at the edge of a table, as shown above. Then, form a circle and see who can carry the cards around the circle to a given location in the room. Circle one to be centered between the upper tip and stem. If you are left-handed, circle 3. The odd number is prohibited. Naturally, the team that carries the most cards is the winner, in an even race, racing with the odd card may have some advantage.
