"Who should have known the consequences? Why couldn't they have been more careful?"

Billy Graham

Dear Dr. Graham,

I am in high school and I think this is the answer to my problems.

DEAR P. J. S.: The answer is in the question. I don't need to tell you what to do. I just need you to tell me what to do, and you can do that by not telling me what to do.

The Senate Committee’s 11-7 vote was an important victory in gaining approval of a proposed amendment to control expansion of nuclear energy.

By compromising on the nuclear issue, the Senate forces powerful the public as the Senate on the issue of the amendment. Adoption of the Kennedy amendment by the Senate, which, if approved by the House, would have ended the Senate’s long-standing and presumably end a nuclear power moratorium.
