State Draft Marches Quiet

Oklahoma City — A small group of anti-draft protesters marched peacefully outside Oklahoma City Hall yesterday afternoon to protest the weekend's scheduled annual draft lottery. The demonstrators carried signs calling for a worldwide draft lottery and for an end to the war in Vietnam. They were met by a small police force who told them they had no right to block the street. The demonstrators then marched to the state capitol where they were met by a larger police force. The demonstrators were then allowed to continue their march to a park where they were arrested for vagrancy.

The march was organized by the Draft Resisters' Committee, an organization that seeks to end the draft and reduce military spending. The demonstrators were led by a group of young people who spoke out against the war and the draft. They carried signs that read "Draft resistance," "End the war," and "Peace now." They also sang songs and chanted slogans.

The march was a peaceful protest, with no incidents reported. The police were on hand to ensure the safety of all those involved. The march ended with the demonstrators being allowed to continue to a park where they were arrested for vagrancy.

Beer Cans Collectors' Items?

The cans have been collected over the years by a group of beer lovers and collectors. They are part of a larger collection of beer cans, which includes over 1,000 different types of cans from around the world. The collection includes cans from different countries and regions, as well as beer from different brands and breweries.

Beer cans are a popular collectible item and are often displayed in bars and restaurants as part of the decor. They can also be used as a conversation piece or a way to display a person's love of beer and their collecting hobby.

Reader Solves Puzzle

A lucky Thai Oklahoman who recently solved the Reader's Puzzles puzzle found a solution that was not only clever but also fitting for the current political climate.

The puzzle required the solver to use the letters of the word "THAI" to form a sentence that was both meaningful and relevant to the situation.

The solver came up with the phrase "THAI pride," which is a reference to the national pride and identity of Thailand.

The phrase is a nod to the country's rich history and culture, as well as its current political climate, where issues such as democracy and human rights are being discussed.

The solver's solution is a testament to the importance of the Reader's Puzzles puzzle in sparking discussion and engaging readers in thoughtful and meaningful conversations.

The situation is particularly acute in the South. While the presidential race is heating up, the Vice Presidents have been largely ignored. This is a mistake, as their insights and experience could be invaluable in guiding the party's strategy.
